AUDITOR'S REPORT

To the Chairman and Members of the Board of Directors of the
British Columbia Assessment Authority, and

To the Minister of Finance
Province of British Columbia

I have examined the balance sheet of the British Columbia Assessment Authority as at 31 December 1981 and the statement of revenue, expenditure and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at 31 December 1981 and the results of its operations for the year then ended in accordance with generally accepted accounting principles, as modified by note 2 to the financial statements, applied on a basis consistent with that of the preceding year.

Erma Morrison, F.C.A.
Auditor General

Victoria, British Columbia

BRITISH COLUMBIA ASSESSMENT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1981

1. The Authority

In 1974 an all party committee of the Legislature completed a comprehensive review of assessments in British Columbia and concluded:

"...that legislation be introduced at the current session to create a province-wide Assessment Authority. This Authority must be independent of taxing function (either municipal or provincial) and its control must be such as will result unmistakably in complete independence."

This recommendation was acted upon expeditiously and the Assessment Authority of British Columbia Act, which established the British Columbia Assessment Authority, was proclaimed on July 2, 1974.

Section 9 of the Act describes the purpose of the Authority very succinctly as follows:

"The purpose of the Authority is to establish and maintain assessments that are uniform in the whole of the Province in accordance with the Assessment Act."

2. Significant Accounting Policies

These financial statements have been prepared in accordance with generally accepted accounting principles, except that:

A. Property and equipment are charged to operations at the time of acquisition and concurrently are recorded as assets with a corresponding credit to equity. Upon disposal, the original cost of an asset is removed, and any proceeds are credited to operations. The Authority does not record depreciation expense.

B. No accrual for employee vacation pay is provided.

3. Province of British Columbia Grant

The Authority is entitled to receive from the Province of British Columbia an operating grant determined by multiplying the Authority's operating costs less surplus carried forward for its immediately preceding fiscal year by a percentage fixed by order of the Lieutenant-Governor in Council.

-2-

Notes to Financial Statements4. Tax Levies

The Authority by by-law, and subject to the prior approval of the Lieutenant-Governor in Council, each year imposes and levies a tax upon all taxable property in the Province. A copy of this by-law is forwarded to the Tax Collector of every municipality in the Province and to the Surveyor of Taxes so that the taxes so levied will be placed on the tax rolls. The proceeds of the taxes so levied and collected by the municipalities or the Minister of Finance constitute the Authority's tax levies revenue.

Under Section 15(4) of the Assessment Authority Act, the Authority's annual tax levies are to be "at a rate sufficient to maintain the operating fund." The operating fund is defined under Section 15(3) as "the total amount required to meet the annual operating and capital expenses of the Authority." Section 15(4) further specifies that in determining the rate of taxation to be levied "the Authority shall take into account the amount of the annual operating grant."

Based on the above formula the mill rates levied on taxable properties in the Province of British Columbia were 1.295 for 1981 and 1.295 for 1980.

5. Financing

Under Section 16(4) of the Assessment Authority Act, the Authority may "pending receipt of the proceeds of the taxes, borrow an amount not exceeding the proceeds of the taxes... and the loan shall be repaid from the proceeds of the taxes."

The total borrowings by the British Columbia Assessment Authority were \$14,854,000. for 1981 and \$10,991,000. for 1980.

6. Employees' Past Benefits

Relevant to the formation of the British Columbia Assessment Authority, the Authority has negotiated an agreement with those designated employees whose previous working agreements contained clauses which called for payout of certain benefits upon the death, retirement or termination of the employee.

Based on current salary rates, the employees' past benefit entitlements are estimated to be \$704,567. at December 31, 1981. Past benefit entitlements are charged as expenditures in the year they are paid.

7. Commitments

The Authority is committed to make the following rental payments on buildings and equipment leased for periods of more than one year:

-3-

Notes on Financial Statements

1982 -	\$1,087,904
1983 -	933,170
1984 -	824,115
1985 -	350,260
1986 -	67,779
1987 - 1990 -	119,000

\$3,382,228

During 1981 \$226,136 was expended for the purchase of automobiles for which surplus had been appropriated in 1980.

*The accompanying notes are an integral part of these statements.***AUDITORS' REPORT**To the Lieutenant Governor-in-Council
Province of British Columbia.

We have examined the balance sheet of British Columbia Buildings Corporation as at March 31, 1982 and the statements of income, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of British Columbia Buildings Corporation as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

British Columbia Buildings Corporation

Notes to the Financial Statements

March 31, 1982

1. Accounting Policies

(a) Capitalization of Costs

Real estate investments, corporate properties and equipment are recorded at cost less accumulated depreciation. In addition to land and direct development and construction costs, amounts capitalized as real estate investments include interest, property taxes, carrying and other related costs and the applicable portion of general and administrative expenses.

(b) Recognition of Revenue

The Corporation recognizes property income on a project basis at the earlier of 70% of occupancy or substantial completion. Prior to this date, any revenue earned on a property is deducted from the cost of construction.

(c) General Borrowings and Related Interest Charges

The interest on general borrowings attributable to income-producing properties under construction, land held for and under development and properties held for disposition is added to the cost of these assets, and the interest on general borrowings attributable to all other assets is expensed in the period to which it relates.

(d) Depreciation

Real estate investments and corporate properties and equipment are depreciated on an individual basis by the straight-line method over their estimated useful lives. The Corporation does not anticipate any salvage or residual values in setting its depreciation rates. Depreciation is prorated by month in the year of acquisition or disposal.

The estimated useful lives of income-producing and corporate properties is between five and forty years. The estimated useful lives of all other assets is between three and ten years.

(e) Income Taxes

The Corporation is exempt from Federal and Provincial income taxes.

(f) Sinking Funds

Payments made to sinking funds with respect to retirement provisions of the sinking fund bonds and debentures will be carried as an asset until such time as the bonds or debentures are redeemed and cancelled. Interest earned on the sinking funds is treated as interest income with a corresponding increase in the asset.

(g) Amortization of Debt Discount

Debt discount is amortized by the effective rate of interest over the terms of the applicable notes.

2. Income-Producing Properties

DJA	8.95%	See below	None	57,200	—
				<u>232,586</u>	<u>155,386</u>

For all issues except Series DJA, the Corporation is required to establish sinking funds with the Minister of Finance, Province of British Columbia, in such amounts as shall be sufficient to retire the debt at maturity. Sinking fund payments for each of the next five years amount to \$3,380,000.

At the option of the Minister of Finance of Canada, the Sinking Fund Debentures Series A-1, B-1, B-2, B-3, B-4, C-1, C-2, C-3, C-4, C-5, C-6 and D-1 may be called prior to maturity under certain conditions on six months' written notice.

The Series BCC bears interest at a rate of 10.80% which is subject to adjustment every five years beginning June 30, 1985 and is payable to agents of the Province of British Columbia.

The Series DJA notes were issued at a significant discount such that the effective interest rate is 15.75%. They mature in equal amounts of \$11,440,000 on March 5, 1988, 1989, 1990, 1991, 1992.

The Province of British Columbia has unconditionally guaranteed the principal and interest on all long-term bonds, debentures and notes issued by the Corporation.

	\$000's	
9. Notes Payable to the Province of British Columbia	1982	1981
Interest bearing promissory notes, payable on demand	12,000	29,000
Interest free promissory notes due March 31, 1992, callible on 30 days notice	117,639	137,347
Interest bearing promissory notes due June 30, 1984, redeemable or callible on 30 days notice	50,000	—
	<u>179,639</u>	<u>166,347</u>

The demand notes have an interest rate which is ½% less than the commercial banks' prime lending rate.

The interest free promissory notes are payable semi-annually in varying amounts over the terms of the notes.

The notes due June 30, 1984 bear interest rates which fluctuate monthly according to the Banker's Acceptance rate.

Payments on the promissory notes, excluding the demand notes, over the next five years will be:

12. Commitments

The Corporation estimates that the cost to complete projects under construction will be \$123,000,000 of which \$34,000,000 has been committed.

The Corporation has entered into leases with third parties to provide space for its client ministries and its head office for varying periods up to the year 1998, at a total aggregate net rental of approximately \$115,000,000. Most leases are for between five and ten years and include renewal options.

Minimum annual lease payments which will be charged to operations in subsequent years, for leases in effect at March 31, 1982, are as follows:

	\$000's
1982/83	29,000

AUDITORS' REPORT

The Lieutenant-Governor in Council
Province of British Columbia

We have examined the balance sheet of British Columbia Cellulose Company as at December 31, 1981 and the statements of earnings and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the company as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1981

1. LOANS TO OCEAN FALLS CORPORATION

	1981 \$	1980 \$
Amounts loaned	2,500,000	2,000,000
Less: Provision for doubtful collection	(2,500,000)	(2,000,000)
	<u>Nil</u>	<u>Nil</u>

The loans to Ocean Falls Corporation are with interest at prime bank lending rate plus 1/2%. Interest has been paid to December 31, 1979. Security is by way of fixed and floating charges on specified properties subject only to a prior debenture to the Province of British Columbia. In view of the closure of their newsprint operation, the ability of Ocean Falls Corporation to repay this loan is considered doubtful and provision has been made in full for the potential loss.

2. OPERATIONS AT OCEAN FALLS, B.C.

The company is investigating the feasibility of carrying on a close utilization experimental wood operation at Ocean Falls, B.C. using certain existing facilities at Ocean Falls and purchased equipment. During 1981, professional fees for cruising and engineering of an experimental timber sale area together with development work on a processing plant amounted to \$829,102 (1980 - \$1,016,255) and equipment costing \$141,820 (1980 - \$1,859,635) was purchased. The final decision to proceed with this project is dependent on financing becoming available for a related wood processing venture.

3. CAPITAL STOCK

	1981 \$	1980 \$
Authorized - 1,000,000 common shares of no par value		
Issued and fully paid - 2 shares	<u>2</u>	<u>2</u>

These shares are wholly owned by the Province of British Columbia.

BRITISH COLUMBIA CELLULOSE COMPANY

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1981

4. INCOME TAXES

As a Provincial Crown Corporation, the company is exempt from federal and provincial income taxes.

5. RELATED PARTY TRANSACTIONS

Reference should be made to notes 1, 2 and 3 for related party transactions. Management of the company's short-term deposits is handled by the Ministry of Finance.

Auditors' Report

To the Honourable Donald M. Phillips,
Minister of Industry and Small Business Development,
Province of British Columbia.

We have examined the consolidated balance sheet of British Columbia Development Corporation as at March 31, 1982 and the consolidated statements of earnings and retained earnings and changes in industrial development programs for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the Corporation as at March 31, 1982 and the results of its operations and the changes in its industrial development programs for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

AUDITOR'S REPORT

To the Chairman and Members of the
British Columbia Educational Institutions Capital Financing
Authority, and

To the Minister of Finance
Province of British Columbia:

I have examined the statement of assets and liabilities of the British Columbia Educational Institutions Capital Financing Authority as at 31 March 1982 and the statement of sources and uses of funds for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at 31 March 1982 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA EDUCATIONAL INSTITUTIONS CAPITAL FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

AS AT 31 MARCH 1982

1. The Authority

The Authority was established by the Educational Institution Capital Finance Act, R.S. 1979, Chapter 102. Section 3 of the Act states "The purpose of the authority is to assist designated educational institutions to finance their capital expenditures by purchasing debentures issued by them with money raised by the issue and sale of debentures of the authority."

Loans have been made by the Authority prior to the receipt of debentures as security. At the date of approval of these financial statements debentures had been received as security for loans totalling \$3,000,000. As an interim measure the institutions have given Letters of Undertaking to issue debentures for the remaining amounts.

Administrative costs associated with the Authority are borne by the Ministries of Finance, Education, and Universities, Science and Communications.

2. Significant Accounting Policies

- (a) Sinking funds are maintained by the Trustee, the Minister of Finance of the Province of British Columbia, to provide for the retirement of Authority debentures at maturity. Sinking fund instalments, income earned on sinking fund investments, and the corresponding investment of the income by the sinking fund trustee have been reflected in the statement of sources and uses of funds.
- (b) Loans receivable, debt payable, and related accrued interest receivable and payable denominated in United States dollars have been converted to Canadian dollars at the rate prevailing at 31 March 1982.

BRITISH COLUMBIA EDUCATIONAL INSTITUTIONS CAPITAL FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

AS AT 31 MARCH 1982

3. Due to the Province of British Columbia

During the year, some funds borrowed by the Authority were temporarily invested prior to re-lending them to educational institutions. Earnings on these investments have generated assets of \$768,892 considered to be in excess of the Authority's requirements. The Minister of Finance, pursuant to subsection 5(2) of the Educational Institution Capital Finance Act, has authorized the payment of the excess into the Consolidated Revenue Fund of the Province of British Columbia. A further amount of \$341,175 is payable in respect of cash received in error by the Authority.

These amounts are represented by:

Cash	\$ 223,422
Short-term investments	886,645
Exhibit A	<u>\$1,110,067</u>

4. Long-term Debt

AUDITORS' REPORT

To the Lieutenant-Governor in Council,
Province of British Columbia:

We have examined the balance sheet of British Columbia Ferry Corporation as at March 31, 1982 and the statements of operations, accumulated income reinvested in corporation assets and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1982, the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the method of accounting for the excess of appraised value of fixed assets over assigned value on acquisition as described in Note 10, on a basis consistent with that of the preceding year.

BRITISH COLUMBIA FERRY CORPORATION

STATEMENT OF ACCOUNTING POLICIES
MARCH 31, 1982

In accordance with Section 8(7) of the Ferry Corporation Act the financial statements of the Corporation are prepared in accordance with generally accepted accounting principles. Significant accounting policies followed in the preparation of these financial statements are:

Inventories-

Inventories comprise principally spare components, repair and maintenance parts, and operating supplies, and are valued at the lower of cost and current replacement cost.

Long Term Disability Plan-

Amounts paid to the Superannuation Branch of the Public Service Commission under the Long Term Disability Plan are accounted for by the Corporation on the basis of accruing in the financial statements that portion estimated by the Corporation to be payable to employees over a two-year period of individual disability with the balance of the amounts paid being included in prepaid expenses.

Fixed assets-

Acquired from the Province of British Columbia effective January 1, 1977:

(a) Ships-

Ships, which comprise part of the total assets acquired from the Province effective January 1, 1977 by Order-In-Council dated December 16, 1976 and transferred at an assigned value of \$1, have been revalued by the Corporation and are reflected in the accompanying financial statements at their estimated depreciated replacement value as at January 1, 1977, on the basis of construction records for labour and materials valued at 1977 cost exclusive of any federal ship building subsidies which may have been available during the extended period of years during which the individual ships were built and during which such subsidies fluctuated substantially. The estimated depreciated replacement value of the ships at January 1, 1977 is not intended to reflect fair market value of the fleet nor can it be considered to approximate fair market value because of the specialized nature and limited saleability of the ships themselves.

In addition, three ships presently under charter by the Province until 1994 are subchartered to the Corporation for the same period at an annual cost of \$1 each, with the Corporation being responsible for all operating, repair and maintenance costs. Under the terms of the subcharter agreement with the Province, the Corporation may in 1994 request that the Province exercise its option to purchase these ships at its own expense in accordance with the terms of its charter agreement. In the event that such option is exercised, clear title to the ships will be transferred to the Corporation. As a result of these transactions and agreements, these ships are reflected as capital assets of the Corporation in the accompanying financial statements and are similarly stated at their estimated depreciated replacement value as at January 1, 1977.

(b) Berths, buildings and equipment-

Berths, buildings and equipment also comprise part of the total assets acquired from the Province effective January 1, 1977 by Order-In-Council dated December 16, 1976 and transferred at an assigned value of \$1.

These assets are reflected in the accompanying financial statements at their estimated depreciated replacement value as at January 1, 1977 based upon an appraisal made by Universal Appraisal Company Limited as at that date.

Additions and disposals subsequent to January 1, 1977:

The costs of major replacements, additions, extensions and improvements are capitalized in the fixed asset accounts. The costs of maintenance, repairs, minor renewals or replacements are charged against income. On retirement or disposal of fixed assets, the costs thereof and the related accumulated depreciation are eliminated from the accounts and any gains or losses are reflected in the statement of operations.

Depreciation and amortization-

Fixed assets are depreciated on the straight-line method based upon the following useful lives-

Ships	25 years
Berths	5 to 10 years
Buildings and equipment	4 to 25 years

Leasehold improvements are amortized on the straight-line method over the term of the lease plus renewal option.

Accounting
Policies
Page 3

Self-insurance fund-

The Corporation provides for uninsured losses up to the deductible amount of purchased insurance on ships.

Accrued sick leave liability-

Funds reserved to meet the obligations under the plan, as described in Note 8, are invested in short-term commercial security. Interest earned on these investments accrues to and payments to employees under the plan are charged against the accrued sick leave liability account.

Amortization of promissory note discount and issue costs-

Promissory note discount is amortized on a compound interest method over the term of the debt. Issue costs are amortized on a straight-line basis over the term of the debt.

BRITISH COLUMBIA FERRY CORPORATION

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

1. Short-term investments:

Funds, other than those required for immediate settlement of liabilities, are invested in short-term commercial securities authorized pursuant to the terms and provisions of the Revenue Act of British Columbia. The investments are arranged through the Ministry of Finance of the Province.

2. Accounts receivable:

Accounts receivable include \$1,943,484 due from the British Columbia Steamship Company (1975) Ltd. for the lease and modifications to the Lessee's specifications of the M.V. "Queen of Prince Rupert" in 1980.

3. Inventories:

	March 31	
	1982	1981
Spare components, parts and supplies	\$5,952,436	\$5,368,583
Fuel and lubricants	2,200,095	1,851,075
Goods for resale	498,055	483,651
	<u>\$8,650,586</u>	<u>\$7,703,309</u>

4. Prepayments and deposits:

Prepaid expenses include \$1,300,635 held by the Province in excess of the amount required for the payment of benefits to employees disabled as of March 31, 1982, as estimated by the Corporation.

5. Reserved funds:

The Corporation has segregated assets that are required for specific purposes or are required by statute.

Sinking fund for long-term debt-

Effective January 1, 1977 and pursuant to the Ferry Corporation Act, all the liabilities of the British Columbia Ferry Authority in respect of the payment of the principal and interest on the outstanding bonds and debentures of the British Columbia Ferry Authority were assumed by the Corporation, and all money and investments in or forming part of the sinking fund established for repayment of those bonds and debentures were transferred to and vested in the Corporation. The sinking fund is administered by the Ministry of Finance.

Notes
Page 2

5. Reserved funds (continued):

On February 17, 1982 an amendment to the Ferry Corporation Act vested the surplus, if any, remaining in the Sinking Fund, after repayment of the long-term debt, to the Consolidated Revenue Fund. Subsequently on March 16, 1982 the Ministry of Finance withdrew from the Sinking Fund, in anticipation of a surplus, \$5,213,822 (Cdn.\$5,113,974 and U.S.\$81,576). \$1,887,671 of the withdrawal was charged against contributed surplus which arose on assumption of the Sinking Fund and the remaining \$3,326,151 was charged against accumulated income reinvested in corporation assets.

Funds reserved for self-insurance and accrued sick leave liability-

Funds reserved with respect to the self-insurance and accrued sick leave liability provisions are held in short-term commercial security investment.

	1982	March 31 1981
Sinking fund for long-term debt (Note 7):

	-	11,927,572

Long-term debt issued by the Corporation:

8.95% Promissory notes (effective rate of 15.75%), are repayable in five equal annual instalments of \$5.7 millions commencing March 5, 1988	28,500,000	-
Less: Unamortized discount	8,519,401	-
	19,980,599	-
	<u>\$19,980,599</u>	<u>\$11,927,572</u>

Notes
Page 4

7. Long-term debt (continued):

The Canadian dollar equivalent of the sinking fund debentures has been expressed at the exchange rate prevailing at January 1, 1977. If translated at the exchange rate prevailing at March 31, 1982, the Canadian dollar equivalent of the current portion of this debt would be increased by approximately \$421,728.

The Province of British Columbia unconditionally guarantees the payment of principal and interest on the sinking fund debentures and promissory notes and will pay out of its Consolidated Revenue Fund such sums as may be required to discharge the sinking fund debentures in the event that the sinking fund assets are insufficient for that purpose and in the event that the Corporation is unable to meet its commitment under the promissory notes (see Note 5).

8. Accrued sick leave liability:

On September 1, 1978 the Corporation introduced short-term illness and injury and long-term disability plans and as of that date all employees ceased accruing sick leave credits. In the event of illness, the accumulated sick time may be withdrawn prior to retirement and on retirement any balance remaining is payable in cash at 50% of accredited time. The liability as at March 31, 1982 based upon a recent actuarial evaluation by William M. Mercer Limited established the present lump sum value of cash payouts on retirement to all employees at \$5,144,000 which, with interest, will accumulate an amount required to meet those obligations. The liability with respect to employees excluded from the bargaining unit was not included in the original valuation carried out by William M. Mercer Limited as at March 31, 1979.

The present lump sum value of cash payouts for all employees, based upon a valuation carried out by William M. Mercer Limited as at March 31, 1982, after reorganizing a surplus in the fund as originally established and changes in actuarial assumptions based upon current fund performance and payout experience, has resulted in an unfunded liability of \$852,000. Funds reserved for liquidation of this liability are invested in short-term commercial security. Additional funds required to meet the present unfunded liability will be set aside in the ensuing three years.

9. Self-insurance fund:

In addition to purchased insurance coverage on ships the Corporation has charged to operations \$500,000 (1981 - \$500,000) by way of self-insurance for uninsured losses. Funds reserved for this purpose are held in short-term commercial security investment. It is the Corporation's intention to make further provisions sufficient to cover deductible amounts as determined by the Corporation upon continual review and revision to its insurance coverage. At present the deductible under fleet insurance coverage is \$1.5 millions for any accident or occurrence with an aggregate of \$5.0 millions in any one year.

10. Excess of appraised value of fixed assets over assigned value on acquisition:

During the year the excess of appraised value of fixed assets over assigned value on acquisition has been reinstated retroactively to the original balance as at January 1, 1977. Continuation of the prior policy would have resulted in a transfer of \$17,799,431 (1981 - \$18,248,121) from excess of appraised value of fixed assets over assigned value on acquisition to accumulated income reinvested in corporation assets.

11. Other income (expense):

	<u>Year ended March 31</u>	
	<u>1982</u>	<u>1981</u>
		(Note 14)
Sinking fund administered by the Ministry of Finance:		
Investment income	\$2,996,677	\$ 2,567,941

Parking and ancillary traffic revenue	<u>738,637</u>	<u>1,166,633</u>
	<u>\$1,567,358</u>	<u>\$ 5,204,100</u>

Notes
Page 6

12. Provincial highway equivalent subsidy and benefits:

To March 31, 1982 the amount of the subsidy received by the Corporation from the Province of British Columbia is substantially equivalent to the aggregate of the annual cost of maintaining, and the annual amortization of the capital cost of, a two-lane highway built through difficult terrain in the coastal region and of a length equal to that of the ferry routes operated by the Corporation. Subsequent to March 31, 1982 the Ferry Corporation Act was amended and effective April 1, 1982 the amount of subsidy to be received from the Province of British Columbia will be determined annually. For the year ending March 31, 1983 the subsidy will be \$43 millions.

The Corporation obtains a benefit through the subcharters of three ships from the Province at an annual cost of \$1 each. The annual cost of these charters to the Province is \$4,819,800. In addition the Corporation utilizes Crown land for terminal and highway access without rental or property taxes. The value of these benefits is indeterminable. The Corporation, as an agent of the Crown, is not liable to taxation, including taxation on improvements, except insofar as the Crown is liable.

13. Commitments:

The Corporation is contractually committed to complete the re-engining and modification of the M.V. "Queen of Esquimalt" and M.V. "Queen of Saanich" by insertion of an upper level automobile deck and installation of hydraulically operated platform decks by lifting the superstructure 3 metres. The total estimated cost of these capital projects is \$49.8 millions and as at March 31, 1982 the estimated remaining cost to complete is \$13.6 millions.

Not included in the accounts is a lease commitment of \$5.4 millions which is fully recoverable through a non-cancellable sub-lease with the Ministry of Transportation and Highways for British Columbia.

14. Comparative figures:

Certain comparative figures for the previous year have been reclassified to conform with the March 31, 1982 financial statement presentation.

AUDITOR'S REPORT

To the Chairman and Members of the
British Columbia Harbours Board:

I have examined the statement of financial position of the British Columbia Harbours Board as at 31 March 1982 and the statements of income and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at 31 March 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA HARBOURS BOARD
NOTES TO THE FINANCIAL STATEMENTS
as at March 31, 1982

Note 1 Significant Accounting Policies

A. Fixed assets and depreciation

Buildings and equipment are valued at cost. Depreciation on buildings and equipment has been computed at 10% of the diminishing balance.

Land is valued at cost to the Board less proceeds amounting to \$522,360 from granting easements through Board land, and less the value of railway right-of-way which has been included in railway.

Railway is valued at:	
Cost (including rights-of-way)	\$12,651,820
Land appraisals	680,000
Expenditures by the Province of B.C. for overpasses	<u>4,821,724</u>
	<u>\$18,153,544</u>

In 1978 the Board commissioned two independent real estate appraisers, Fred Cunningham Land Consultant Ltd. and Penny and Keenleyside Appraisals Ltd. to appraise land used for railway right-of-way and located on part of the 1,400 hectare parcel granted the Board in 1974 by the Crown in the right of the Province. This appraisal was to determine the market value of the land when it was first used as railway right-of-way. Based on information contained in these appraisals, management has valued this land at \$680,000.

The Ministry of Highways spent \$4,821,724 on railway overpasses necessary for the operations of the rail line. The Board and railway users agreed that these costs be included as part of the railway capital costs on which railway income is based.

By agreement between the Board and the users of its railway, users are responsible for costs of main-taining, renewing and replacing trackage as required. In case of retirement, the users are to compensate the Board in full for sections retired. Accordingly, no provision for depreciation has been made in respect of the railway.

- B. The Board's railway is managed under contract by British Columbia Railway Company which is responsible for maintaining the right-of-way and for billing user railways for costs and rent on behalf of the Board.

- C. Advances due to the Province of British Columbia are repaid from funds declared by the Board to be surplus to its requirements. Effective from April 1, 1976, the Board is not required to pay interest on these advances.

-2-

Note 2 In 1976 the British Columbia Court of Appeal confirmed the Province's ownership of the bed of the Strait of Georgia and related areas as set out in Order-in-Council number 3459 dated October 31, 1974. This decision confirms that the Crown in right of the Province had authority to transfer to the Board about 690 hectares of land below low water, bringing the Board's total land holdings in the Roberts Bank area below high water up to 1,400 hectares at that time. An appeal by the Government of Canada has been filed in the Supreme Court of Canada from the decision of the British Columbia Court of Appeal; this appeal is scheduled to be heard in October, 1982.

In order not to let this ownership question impede the development and expansion of the Roberts Bank Superport, an agreement was signed on 29 August 1980 between the Queen in right of Canada and the National Harbours Board on one hand and the Queen in right of the Province of British Columbia and the British Columbia Harbours Board on the other hand.

Under this agreement, the British Columbia Harbours Board agreed to convey free of charge 195 hectares of this 1,400 hectares to the Queen in right of Canada on the condition the National Harbours Board at its own cost completes development and expansion in accordance with the approved development plan for this land before July 2, 1987. If this condition is not met, title to this land will revert to the British Columbia Harbours Board.

The agreement also provides that if the decision of the B. C. Court of Appeal is reversed by the Supreme Court of Canada, then Canada and the National Harbours Board will convey to the Province of British Columbia or its agents, free of cost, land sufficient for rail and road purposes to serve the 195 hectare parcel.

Note 3 The railway fixed asset account was charged with \$27,767 in 1982 and \$13,875 in 1981 representing time spent by British Columbia Harbours Board employees with respect to additions to the railway system.

Note 4 The comparative figures for 1981 have been restated where appropriate to conform with the method of presentation used in 1982.

BRITISH COLUMBIA HERITAGE TRUST
NOTES TO THE FINANCIAL STATEMENTS
31 MARCH 1982

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

- a) It is the policy of the Trust to capitalize all costs incurred for the acquisition and restoration of sites purchased by the Trust whether the property has been registered in the name of the Trust or of the Province. Costs incurred in restoring sites purchased directly by the Province are charged to expenditure accounts - capital projects.
- b) Due to the nature of the buildings no provision is made for depreciation of buildings acquired as heritage sites.
- c) Administrative costs do not include costs for staff, occupancy or administration incurred by the Ministry of the Provincial Secretary and Government Services on behalf of the Trust.

NOTE 2: INVESTMENT IN PROPERTY

Investment in property includes an amount of \$63,166 relating to expenditures incurred on property to be acquired by the Trust, where the purchase had not been completed by 31 March 1982.

NOTE 3: COMMITMENTS

The Trust has contractual obligations in the amount of \$116,390 for restoration work to be completed subsequent to 31 March 1982.

Commitments with respect to grants approved for the following year amount to \$398,307.

Chartered Accountants

P.O. Box 10101 Pacific Centre
700 West Georgia Street
Vancouver, Canada V7Y 1C7
(604) 683-7133AUDITORS' REPORT

To the Chairman,
British Columbia Housing Management Commission,
Vancouver, B.C.

We have examined the combined balance sheet of the Province of British Columbia projects and programs managed by British Columbia Housing Management Commission as at December 31, 1981 and the combined statements of amount due from Canada Mortgage and Housing Corporation and proprietor's account, revenue and expenditure and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these combined financial statements present fairly the combined financial position of the projects and programs as at December 31, 1981 and the combined results of their operations and changes in financial position for the year then ended in accordance with the accounting principles described in Note 1 to the financial statements applied on a basis consistent with that of the preceding year.

Vancouver, Canada,

(See accompanying notes)

PROVINCE OF BRITISH COLUMBIAPROJECTS AND PROGRAMSMANAGED BYBRITISH COLUMBIA HOUSING MANAGEMENT COMMISSIONNOTES TO COMBINED FINANCIAL STATEMENTSDECEMBER 31, 19811. Significant accounting policies

a) Basis of financial statement presentation -

These statements combine four separate financial statements of projects and programs operated by the Province of British Columbia (Ministry of Lands, Parks and Housing) and managed by British Columbia Housing Management Commission, each of which has its own subsidy sharing agreement. The allocation of each of the subsidies is as follows:

	<u>Subsidy Share</u>	
	<u>Canada</u>	<u>Province</u>
	<u>Mortgage</u>	<u>of</u>
	<u>and Housing</u>	<u>British</u>
	<u>Corporation</u>	<u>Columbia</u>
N.H.A. Section 40 properties		
- Rental supplement and expenditure in excess of revenue (excluding amortization)	75%	25%
- Amortization	As advised by the partners	
N.H.A. Section 44 properties	50%	50%
Wholly Provincial properties and Programs	-	100%
Rent Supplement Programs -		
44(1)(a) NHA Private/Disabled		
- Shelter Supplement	50%	50%
- Program expenditure	50%	50%
44(1)(b) NHA Senior Citizens		
- Shelter Supplement	52%	48%
- Program expenditure	50%	50%
High Impact Grants		
- Shelter Supplement	15%	85%
- Program expenditure	50%	50%

- 2 -

b) Amortization -

The statements do not reflect the capital cost of the projects, however provisions for amortization are accrued and payable in part to the Provincial Rental Housing Corporation, in part to the Provincial Crown Land Fund, and in part credited to Canada Mortgage and Housing Corporation in lieu of depreciation and interest on capital costs. The provisions for amortization are based on the annual payment that would be required to repay the principal and interest on the capital cost of the projects over a period of approximately fifty years. The provisions for amortization included in these financial statements are based upon calculations provided by the Province of British Columbia and by Canada Mortgage and Housing Corporation.

c) Rental revenue -

Tenant rent revenue represents rent charged to residents and is determined as 25% of the resident's income or market rent, whichever is less. Rent supplement represents the difference between market rent and rent charged to residents. The Province of British Columbia and Canada Mortgage and Housing Corporation have agreed to supplement the tenant rent revenue by absorbing this difference. Rent supplement is charged directly to the Partnership accounts. The market rent for each project was established by means of independent professional appraisal in 1980. For 1981, the market rent figures were updated by Commission staff on the basis of rental market conditions. Effective January 1, 1982, it is the Commission's policy that the market rent of one-fifth of the units will be updated annually by independent professional appraisal on a rotating basis, with the balance of the units updated by Commission staff on the basis of rental market conditions.

- 3 -

Vacancies is the amount determined by the Commission that is required in order to represent rental revenue at full occupancy. An equal amount for vacancy expense is included in operating expenses.

d) Fixed assets -

Fixed assets, other than the capital cost of projects, are recorded at cost and depreciated on the straight line basis as follows:

Data processing equipment	- 5 years
Program software	- 3 years

Data processing equipment consists of:

	<u>Cost</u>	<u>Accumulated depreciation</u>	<u>Net book value 1981</u>	<u>Net book value 1980</u>
Data processing equipment	\$505,931	\$210,670	\$295,261	\$374,266
Program software	<u>209,482</u>	<u>77,059</u>	<u>132,423</u>	<u>97,784</u>
	<u>\$715,413</u>	<u>\$287,729</u>	<u>\$427,684</u>	<u>\$472,050</u>

2. Interest on working capital

The Province of British Columbia, through its Projects and Programs Wholly Funded account, provides working capital to the projects and programs managed by British Columbia Housing Management Commission.

Working capital interest is charged to the programs based on their cash requirements at interest rates agreed to by Canada Mortgage and Housing Corporation.

3. Disaster Loss Fund

Since 1976, the Commission has utilized a self-insurance program to provide funds for claims below the deductible amounts of insured properties and for damages to uninsured items. The increment to the fund is charged to expenditure for all N.H.A. Section 44 projects and projects wholly funded by the Province of British Columbia, at the annual rate of \$24 per unit. The balance of the fund is invested in term deposits and interest earned on these funds is added to the fund balance.

- 4 -

4. Prior period adjustments

a) Section 40 Portfolio -

The following prior period adjustments are made to reflect revisions to the 1979 and 1980 financial statements:

	<u>Canada Mortgage and Housing Corporation</u>	<u>Proprietor's account</u>
- Adjustments to 1979 amortization charges	\$ (19,674)	\$19,674
- The cost sharing of the Smoke Alarms Program costs which were charged entirely to the Projects and Programs Wholly Funded Account in 1980	91,329	30,443
- Adjustment to the cost sharing of the 1980 net deficit which should have been calculated before the inclusion of amortization charges	<u>(17,614)</u>	<u>17,614</u>
Total adjustments	<u>\$ 54,041</u>	<u>\$67,731</u>

b) Section 44 Portfolio -

The prior period adjustments of \$22,051 to the Canada Mortgage and Housing Corporation account and the Proprietor's account represent the cost sharing of the Smoke Alarms Program costs which were charged entirely to the Projects and Programs Wholly Funded account in 1980.

c) Projects Wholly Funded Portfolio -

The prior period adjustment of \$165,874 represents the allocation of the Smoke Alarms Program costs incurred in 1980 to Section 40 and Section 44 projects.

- 5 -

d) Rent Supplement Programs -

Under agreement between the Province of British Columbia and Canada Mortgage and Housing Corporation, the cost sharing of subsidies between the Partners has been revised for the years 1978 to 1980.

The adjustment relates to the following programs:

	Canada Mortgage and Housing Corporation	Proprietor's account
Section 44(1)(b) Senior Citizens Applicable to 1980	\$(39,095)	\$ 39,095
High Impact Grant Applicable to 1978 - 1980	<u>50,175</u>	<u>(50,175)</u>
	<u>\$ 11,080</u>	<u>\$(11,080)</u>

5. Shelter supplements

Under the 44(1)(a) Private/Disabled program, shelter supplements are provided so that residents of designated units in Assisted Rental Program buildings, or disabled residents of group homes pay 25% of their income towards rent, to a maximum of market rent or cost of unit operation. Shelter supplements under this program amounted to \$2,487,347 for the year ended December 31, 1981 (1980 - \$2,074,306).

The 44(1)(b) Senior Citizens Program provides shelter supplements to non-profit societies which are designated as eligible to receive subsidy assistance. These payments represent the difference between the full recovery rents as approved by Canada Mortgage and Housing Corporation and the actual rental revenue resulting from tenants paying 25% of their income or the market rent, whichever is less. Shelter supplements under this program amounted to \$5,362,522 for the year ended December 31, 1981 (1980 - \$6,217,264).

- 6 -

The High Impact Grants Program, with some cost sharing under Section 44(1)(b), provides grants to reduce the operating expenses of non-profit societies and thereby reduce the average rent required from the tenants. The maximum amount of the grant available is 10% of the total capital improvements made by the societies exclusive of land. Shelter supplements under this program amounted to \$555,649 for the year ended December 31, 1981 (1980 - \$940,605). Supplements paid by the Commission under these programs are recoverable from the Province of British Columbia and Canada Mortgage and Housing Corporation, by way of a direct charge to the Partnership accounts.

6. Grants in lieu of taxes

The Commission, on behalf of the Province of British Columbia and Canada Mortgage and Housing Corporation, pays each municipality a sum equivalent to property taxes for all residential properties and developments managed by the Commission. These payments to municipalities constitute grants in lieu of property taxes.

7. Lease commitments

The Commission has obligations under operating leases for office space as follows:

1982	\$207,000
1983	196,000
1984	186,000
1985	135,000
1986	<u>77,000</u>
	<u>\$801,000</u>

BRITISH COLUMBIA HYDRO AND POWER AUTHORITY

British Columbia Hydro and Power Authority

Management
Report

The financial statements of B.C. Hydro have been prepared by management in accordance with accounting principles generally accepted in Canada consistently applied and appropriate in the circumstances. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of periodic financial statements necessarily involves the use of estimates and approximations which have been made using careful judgement. The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the accounting policies summarized in the notes to the financial statements. Financial information presented elsewhere in this Annual Report is consistent with that in the financial statements.

The Board of Directors pursues its responsibility for these financial statements principally through its Audit Committee which meets periodically with management as well as with the internal and the independent auditors who have full and free access to the Audit Committee, and meet with it to discuss auditing and financial reporting matters. Management is responsible for, and the Board of Directors has approved, all of the information in the Annual Report.

Report
of the
Auditors

The Lieutenant Governor in Council,
Province of British Columbia:

We have examined the balance sheets of British Columbia Hydro and Power Authority as at March 31, 1982 and 1981, and the statements of income and earnings employed in the business and changes in financial position for each of the three years in the period ended March 31, 1982. Our examinations were made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of British Columbia Hydro and Power Authority as at March 31, 1982 and 1981 and the results of its operations and the changes in its financial position for each of the three years in the period ended March 31, 1982, in accordance with generally accepted accounting principles consistently applied.

Notes to Financial Statements

as at March 31, 1982, 1981 and 1980

Note 1 Significant Accounting Policies:

B.C. Hydro is a Crown corporation of the Province of British Columbia. The accounting policies of the corporation conform to accounting principles generally accepted in Canada. A description of significant accounting policies follows. See also Note 2 for an explanation of the rate stabilization account.

Fixed assets and depreciation —

Fixed assets in service consist principally of land, water rights, storage dams, plants for the generation, transmission and distribution of electricity and the distribution of gas, freight railway and rolling stock, and include the cost of plant financed by contributions in aid of construction and contributions arising from the Columbia River Treaty.

In previous years, contributions in aid of construction and contributions arising from the Columbia River Treaty were shown separately on the liabilities side of the balance sheet, at an amount net of amortization equal to depreciation accumulated on the related asset costs financed by the contributions. For 1982, these contributions have been reclassified and deducted from the original cost of fixed assets to more closely relate them to the fixed assets which they helped finance and to reflect the net cost of these fixed assets to B.C. Hydro. Accumulated depreciation has been restated by offsetting thereagainst amortization previously recorded in respect of the contributions. This change in financial statement presentation has no effect on depreciation expense or net income for the current or any prior years. The balance sheet as at March 31, 1981 and the statements of changes in financial position for the years ended March 31, 1981 and 1980 have been reclassified to conform to the presentation used for 1982. Contributions received in respect of unfinished construction are included with deferred liabilities until the fixed assets are placed in service.

The depreciation policy of B.C. Hydro is to charge the net cost of fixed assets to income over the estimated service lives of the assets. Depreciation is provided on all depreciable assets in service at the beginning of each year and is computed on the straight-line method. Composite rates by service were as follows:

	1982	1981	1980
	(%)	(%)	(%)
Electric	2.52	2.55	2.57
Gas	2.89	2.75	2.70
Rail Freight	3.61	3.57	3.64

B.C. Hydro charges interest to unfinished construction at rates equivalent to the cost of borrowing those funds which have been expended annually on each construction project. The rate applied to expenditures in the year ended March 31, 1982 was 15.1% (1981 — 12.6%; 1980 — 10.2%).

Insurance —

B.C. Hydro generally follows a policy of self-insurance for damage to plant and equipment and for general liability for losses up to \$5,000,000. To protect against losses in excess of \$5,000,000, B.C. Hydro carries catastrophe liability and catastrophe direct damage insurance, with a \$100,000,000 limit on the catastrophe liability insurance and a \$125,000,000 limit on the catastrophe direct damage insurance.

Insurance coverage on major projects under construction is purchased either by B.C. Hydro or by its contractors as required by B.C. Hydro. Fire insurance coverage on certain plant and equipment is also purchased to comply with trust deed requirements.

Unamortized discount and expense on long-term debt —

These costs are amortized by charges to income over the life of the respective issues.

Foreign exchange —

The liability for long-term debt payable in United States currency is translated to Canadian currency at the rates of exchange prevailing at the date the debt was incurred. Current assets and current liabilities in United States currency, including long-term debt payable within one year, are translated at the rate of exchange prevailing at the date of the balance sheet. Foreign exchange adjustments are included in income.

British Columbia Hydro and Power Authority

Note 2 Rate Regulation:

On September 11, 1980 the Utilities Commission Act was proclaimed establishing the British Columbia Utilities Commission and empowering it to regulate generally B.C. Hydro's electric and gas services, including rates, subject to any general or special direction of the Lieutenant Governor in Council with respect to the exercise of its powers.

In a special direction to the Commission regarding B.C. Hydro, the Lieutenant Governor in Council directed that B.C. Hydro should, from an efficient operation, achieve by the 1983-84 fiscal year an interest coverage ratio of 1.3:1 and should maintain that ratio thereafter so as to achieve and ultimately maintain a debt/equity ratio of 80:20.

Rate Stabilization Account —

The Commission directed B.C. Hydro to create as of March 31, 1982, an account to be known as the rate stabilization account in the amount of \$90,000,000, derived from export sales of surplus electric energy.

For fiscal years subsequent to March 31, 1982, B.C. Hydro has been directed to credit to the rate stabilization account annually, an amount based upon revenues derived from export sales of surplus electric energy (exclusive of sales of firm energy under approved export contracts, including Washington Water Power Company) less direct expenses associated with such sales, including water rentals calculated by reference to the electricity generated to make such export sales, provided the account does not at any time exceed \$200,000,000.

For each of the fiscal years subsequent to March 31, 1982, the Commission has ordered B.C. Hydro to transfer from the rate stabilization account an amount of \$60,000,000, or such lesser amount as will reduce the account balance to nil, to be credited to income in the year, unless otherwise directed.

A consequence of the directive has been to cause certain water rentals to be recorded earlier than under B.C. Hydro's previous accounting policies with the result that grants, school taxes and water rentals have been increased and net income for the year ended March 31, 1982 decreased by \$24,000,000.

Interim rate increases —

The Commission authorized gas rate increases on an interim basis effective August 1, 1981 and April 1, 1982 and electric rate increases on an interim basis effective April 1, 1982. The increases are subject to refund with interest if so ordered by the Commission.

Revenue derived from the interim gas rate increase for the period August 1, 1981 to March 31, 1982 amounted to approximately \$11,000,000.

Note 3 Fixed Assets:

	1982					1981

Note 5
Long-Term
Debt:

	1982	1981
	<i>(in thousands)</i>	
Total long-term debt outstanding —		
Payable in Canadian currency	\$4,468,053	\$4,503,152
Payable in United States currency (U.S. \$2,440,050; 1981 — U.S. \$1,418,800)	2,675,395	1,442,469
	7,143,448	5,945,621
Less: Sinking funds on deposit with Trustee, Minister of Finance for the Province of British Columbia	541,415	476,791
	6,602,033	5,468,830
Less: Long-term debt payments due within one year —		
Sinking fund instalments	71,962	\$4,560
Maturities, less sinking fund	105,181	89,952
	177,143	144,512
	\$6,424,890	\$5,324,318

Had the long-term debt payable in United States currency all been translated to Canadian currency at the rate prevailing at March 31, 1982, the liability would have been increased by approximately \$323,000,000 (1981 — \$239,000,000).

B.C. Hydro (including its predecessor companies) had 147 series of long-term debt outstanding at March 31, 1982 (1981 — 149). Coupon rates on this long-term debt range from 3¼% to 16¼%. The average effective interest cost on long-term debt denominated in Canadian dollars outstanding at March 31, 1982 is 9.14% (1981 — 8.99%). For long-term debt denominated in United States dollars at March 31, 1982 the cost is 11.64% (1981 — 8.68%).

The following long-term debt was issued by B.C. Hydro during the year ended March 31, 1982:

Coupon Rate %	Series	Date of Maturity	Principal
14½	FC	April 14, 2006	Cdn. \$100,000,000
16¼	FE	October 29, 1988	U.S. \$100,000,000
14½	FF	April 15, 1991	U.S. \$150,000,000
15	FG	April 15, 2011	U.S. \$250,000,000
15½	FH	July 15, 2011	U.S. \$250,000,000
15½	FJ	November 15, 2011	U.S. \$300,000,000

A portion of the Series FJ bonds was subject to delayed delivery arrangements and the proceeds were received in April 1982. In the accompanying balance sheet at March 31, 1982, the portion of Series FJ bonds subject to delayed delivery has been shown as issued and the net proceeds of \$7,036,000, as an amount receivable.

British Columbia Hydro and Power Authority

Note 5 (continued)

Many of the series have annual sinking fund requirements. Total long-term debt maturity payments and sinking fund instalments of the long-term debt outstanding at March 31, 1982 are as follows:

Year Ending March 31	Principal Amount of Maturities	Estimated Funds Accumulated to Maturity Date in Sinking Funds (in millions)	Cash Requirements		
			Net Debt Maturities	Sinking Funds	Total
1983	\$ 190	\$ 85	\$ 105	\$ 72	\$ 177
1984	164	24	140	76	216
1985	292	26	266	80	346
1986	116	62	54	74	128
1987	242	97	145	83	228
	1,004	294	710	385	1,095
1988-1992	1,128	413	715	362	1,077
1993-1997	1,032	673	359	292	651
1998-2002	901	901	—	246	246
2003-2007	1,759	1,759	—	101	101
2008-	1,319	1,319	—	4	4
	\$7,143	\$5,359	\$1,784	\$1,390	\$3,174

Net debt maturities represent the principal amount of maturities minus estimated sinking funds at maturity, based on assumed earnings of 10% on existing sinking fund investments and future sinking fund instalments, and estimated discounts on anticipated purchases of bonds subject to annual mandatory redemption.

Funds obtained from the Canada Pension Plan Investment Fund by B.C. Hydro contain provisions which would permit the Minister of Finance for Canada to redeem, in whole or in part, the bonds subject to certain restrictions. At March 31, 1982 issues of bonds outstanding obtained from the Canada Pension Plan Investment Fund amounted to \$870,000,000, net of sinking funds.

Note 6 Guarantee By Province Of British Columbia:

The Province of British Columbia has unconditionally guaranteed the principal of and premium, if any, and interest on B.C. Hydro's long-term debt.

Note 7 Pension Plans:

Employees of B.C. Hydro are covered under contributory pension plans. It is B.C. Hydro's practice to obtain periodic actuarial valuations of the plans for purposes of determining annual pension costs and funding requirements. Current service costs are provided for and funded when incurred. Past service pension costs and accrued deficits arising from plan amendments, changes in actuarial assumptions and indexing supplements to existing pensioners are provided for and funded over periods and in amounts recommended by the actuary.

Effective January 1, 1981, a new formula for indexing pensions was instituted whereby indexing payments to pensioners are to be funded by specific compulsory employer and employee contributions and a certain portion of interest earned in excess of actuarial expectations. Concurrently, B.C. Hydro assumed responsibility for the liabilities resulting from the old indexing formula.

An actuarial report prepared as of December 31, 1979 indicated an evaluated accrued deficit in the principal plan as of that date of approximately \$41,000,000. After giving effect to the transfer of pension rights and related pension fund assets to the Public Service Superannuation Fund of those employees of B.C. Hydro who had been associated with the urban transit operations, to the assumption by B.C. Hydro of the responsibility for the liabilities resulting from the old indexing formula and to payments made by B.C. Hydro to fund the deficit, it is estimated that there has been no substantial change in the accrued deficit through March 31, 1982. The deficit arose principally as a result of plan improvements introduced over the years, including minimum pension benefit provisions and the indexing payments to existing pensioners referred to above. It is being funded, principally, by payments of \$3,061,000 per annum until 1999 and \$1,200,000 per annum until 1997.

The total cost to B.C. Hydro's continuing operations in respect of pension plans, including its share of Canada Pension Plan costs, for the year ended March 31, 1982 was \$34,584,000 (1981 — \$21,886,000; 1980 — \$18,508,000), of which \$19,436,000 (1981 — \$12,497,000; 1980 — \$10,508,000) was charged to income and the balance capitalized and included in fixed assets.

Note 8
Interest:

Interest and other financing expenses for the three years ended March 31, 1982 comprise the following:

	1982	1981 (in thousands)	1980
Interest on long-term debt	\$684,964	\$529,267	\$467,004
Amortization of discount and expense	3,761	2,868	2,654
Exchange adjustments on long-term debt ...	10,303	7,304	—
Other interest	2,026	3,197	1,481
	701,054	542,636	471,139
<i>Less:</i>			
Income from sinking fund investments held by Trustee	54,457	40,886	33,106
Income from temporary investments	96,709	23,141	30,208
Interest charged to construction	141,884	78,401	94,833
Interest (net) charged to passenger transportation operations	—	—	3,232
	293,050	142,428	161,379
	\$408,004	\$400,208	\$309,760

Note 9
Commitments
and
Contingencies:

Purchase commitments and contracts of B.C. Hydro for capital projects aggregated approximately \$860,000,000 at March 31, 1982.

A major contractor on the Revelstoke project has made claims that he had to incur substantial unanticipated costs. The claims as submitted in mid-April 1982 are difficult to quantify but approximate \$40,000,000 for work performed to March 1982. It is expected that B.C. Hydro will deny liability for the substantial part of all the claims made. Any amount paid by B.C. Hydro as a result of the claims will be capitalized as part of construction and included in fixed assets.

British Columbia Hydro and Power Authority

Note 10 Passenger Transportation:

In accordance with the provisions of the Urban Transit Authority Act and the Metro Transit Operating Company Act and with the written directions of the Minister of Municipal Affairs issued under the latter Act, B.C. Hydro discontinued its public passenger transportation service effective April 1, 1980 and has transferred to the Urban Transit Authority and the Metro Transit Operating Company its interest in those assets identified in the directions. B.C. Hydro is being reimbursed for the costs of services provided to the Metro Transit Operating Company.

The loss to B.C. Hydro resulting from the discontinuance of the passenger transportation service, amounting to \$37,900,000, has been shown as an extraordinary item in the statement of income and earnings employed in the business for the year ended March 31, 1980. Passenger transportation revenues and expenses for the year ended March 31, 1980 have been combined and the net loss shown as "loss for the year on passenger transportation operations" on the statements of income and earnings employed in the business. Sources and applications of funds pertaining to passenger transportation operations have been shown separately on the statements of changes in financial position. Particulars on passenger transportation revenues, expenses and assets appear in Note 11.

Note 11 Segment Information:

B.C. Hydro is engaged in the operation of three principal continuing services: generation, transmission and distribution of electricity; distribution of gas; and provision of a railway freight service. Until March 31, 1980, the corporation was also engaged in the operation of a passenger transportation service (Note 10).

Most expenses are directly attributable to specific segments. Common expenses are allocated among the segments using appropriate bases established by regular review and analysis. Revenues and expenses include transactions between continuing services and passenger transportation.

Domestic and other electric service revenues include contracted export sales in the amount of \$11,212,000 (1981 — \$11,758,000; 1980 — \$3,736,000). Export surplus expenses include only direct costs, namely wheeling charges and water rentals.

Identifiable assets are those assets that are used in each segment's operations. Corporate assets are principally temporary investments and unamortized discount and expense on long-term debt.

AUDITOR'S REPORT

To the Chairman and Members of the Board of Governors of the
British Columbia Institute of Technology, and

To the Minister of Education
Province of British Columbia:

I have examined the balance sheet of the British Columbia Institute of Technology as at 31 March 1982 and the statements of revenue and expenditure, changes in fund balances and ancillary enterprise operations for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Institute as at 31 March 1982 and the results of its operations and the changes in its fund balances for the year then ended in accordance with generally accepted accounting principles, as modified by note 1(a) to the financial statements, applied, after giving retroactive effect to the change in the method of calculating and recording vacation pay accrual as explained in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

A handwritten signature in cursive script, reading 'Erma Morrison'.

Erma Morrison, F.C.A.
Auditor General

Victoria, British Columbia
15 June 1982

BRITISH COLUMBIA INSTITUTE OF TECHNOLOGYNOTES TO FINANCIAL STATEMENTSMARCH 31, 1982Note 1. Significant Accounting Policiesa) General

These financial statements have been prepared in accordance with generally accepted accounting principles except that no provision is made for amortization and depreciation on improvements, buildings and equipment and that no provision is made for the current portion of accrued vacation pay (Note 3).

b) Fund Accounting

The transactions of the Institute are accounted for by fund accounting procedures. Under these procedures, available resources and their related expenditures are accounted for in separate funds in accordance with objectives specified by donors, limitations and restrictions imposed by sources outside the Institute, and determinations made by the Board of Governors. In the financial statements, funds with similar characteristics have been combined into major fund divisions which are described below:

- i) General Purpose Operating - those revenues and expenditures used in the general operation of the Institute.
 - ii) Specific Purpose Operating - amounts appropriated from the General Purpose Operating Funds to meet anticipated expenditures. Donations for specific projects are also included.
 - iii) Scholarship, Bursary and Student Loan - amounts received and used for the purpose described.
 - iv) Capital - amounts received and used for the acquisition of capital assets.
- c) Specific Items
- i) Inventories consist of general supplies, books and food, recorded at the lower of cost and net realizable value.
 - ii) Improvements, buildings and equipment purchases are recorded at cost. Equipment with a unit value of less than \$250 is charged as an expense of the capital fund in the year acquired.
 - iii) All books and periodicals of the Library are charged as an expense in the year acquired.
 - iv) The portion of course fees relating to courses after March 31, 1982 is recorded as deferred income.
 - v) Bonds are recorded at cost. Gains and losses on sale of bonds are recognized in the year of disposal.
 - vi) Ancillary enterprise operations do not include certain administrative overhead costs.

BRITISH COLUMBIA INSTITUTE OF TECHNOLOGY

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

Note 2. Bonds

The Institute acquired Government of Canada Bonds in 1980. Interest is earned at 11 3/4% per annum on the face amount paid semi-annually on February 1 and August 1 each year. These bonds mature February 1, 2003.

	<u>1982</u>	<u>1981</u>
Face Amount	\$310,000	\$310,000
Cost	\$219,338	\$291,338
Market Value	\$241,025	\$268,925

March 31

Note 3. Change in Accounting Policy

By resolution of the Board of Governors on June 10, 1981, the vacation pay accrual policy was revised. Accordingly the vacation pay liability is accrued for approved vacation days carried forward from the previous academic year. The liability no longer includes vacation earned to the end of the fiscal year. The 1981 comparative figures have been restated to conform with this policy change.

The amount of vacation pay applicable to the 1982 and 1981 fiscal years was \$144,415 and \$126,022 respectively, under the revised policy.

BRITISH COLUMBIA INSTITUTE OF TECHNOLOGYNOTES TO FINANCIAL STATEMENTSMARCH 31, 1982

Note 4.

Land, Buildings and Improvements

All Willingdon campus land and buildings occupied by the Institute, with exception of the student residences and biological sciences laboratory, is the property of the British Columbia Buildings Corporation. Land and buildings are provided free of charge.

The student on campus residence is owned by the Institute (Note 7) on land leased from the Province of British Columbia at \$25 per annum terminating October, 2037.

Note 5.

Equipment

All equipment acquired prior to April 1, 1975 for use by the Institute was previously owned by the Province of British Columbia. During the year ended March 31, 1978, title was transferred at no cost to the Institute. This equipment is recorded at the nominal value of \$1.

Note 6.

Mortgage Payable

The student on campus residence is financed by a 9½ fixed rate mortgage, repayable at \$19,721 (principal and interest) per month for the remaining term of the mortgage maturing August, 2027. The current portion of the long term debt was \$3,299 and \$2,800 at March 31, 1982 and March 31, 1981 respectively.

BRITISH COLUMBIA INSTITUTE OF TECHNOLOGY

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

Note 7. Bank Loans

Bank loans are payable on demand at the prime bank lending rate under the provisions of the Educational Institution Capital Finance Act as follows:

	<u>1982</u>	<u>1981</u>
	<u>March 31</u>	
Broadcast Laboratory	\$195,000	\$ 15,000
Construction of Biological and Mechanical Laboratories	465,000	405,000
Major Renovations and Public Works 1979/80	351,000	210,000
Electrical Service Installation to Student Residences		70,000
Combined Shortfall and Major Campus Renovations	240,000	70,000
Replacement of PEMC Portable Buildings		55,000
Paramedical Educational Facility - St. Paul's Hospital	790,000	
Purchase of Computer Equipment	250,000	
Landscaping - Burnaby Campus	20,000	
New Bulk Storage Building	70,000	
	<u>\$2,381,000</u>	<u>\$825,000</u>

BRITISH COLUMBIA INSTITUTE OF TECHNOLOGYNOTES TO FINANCIAL STATEMENTSMARCH 31, 1982Note 8. Interfund Transfer

In accordance with resolutions of the Board of Governors, the amount of \$59,884 has been transferred from the General Purpose Fund to the Specific Purpose Fund to provide for replacement of residence furniture and equipment and for repairs and maintenance.

Note 9. Comparative Figures

The 1981 Capital Fund accounts receivable from the Province of British Columbia and Investment in buildings, improvements and equipment have been reduced by \$755,031 due to a timing difference in recording capital financing entries. Certain other 1981 comparative figures have been restated to conform with the presentation adopted for the current year. These restatements have no effect on the excess of revenues over expenditures or fund balances.

Note 10. Commitments

Commitments under Capital construction contracts amount to \$2,969,459 at March 31, 1982.

Commitments for lease and rental agreements amount to \$239,640 per annum until August 31, 1985. The rents paid during the year amounted to \$211,514.

Note 11. Contingent Liabilities

The Institute is contingently liable for the current portion of vacation pay in the amount of \$1,801,068. The expense will be recognized in the period in which the vacation is taken or a payout occurs.

Note 12. Subsequent Event

The Institute entered into a contract on May 25, 1982 to construct additional student residences. The total project value is \$2,000,000 to be repaid over 25 years from rental revenues earned by the residence housing operations.

BRITISH COLUMBIA LIQUOR DISTRIBUTION BRANCH**REPORT OF THE COMPTROLLER GENERAL**

The financial statements of the British Columbia Liquor Distribution Branch have been prepared from, and accurately reflect, the financial records of the Government of British Columbia. While these statements have not been audited, they do form part of the accounts of the Consolidated Revenue Fund which has been audited.

A handwritten signature in dark ink, appearing to read 'D. Marson', written over a horizontal line.

BRITISH COLUMBIA LIQUOR DISTRIBUTION BRANCH

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1982

1. SIGNIFICANT ACCOUNTING POLICIES:

Revenues and expenses are reflected on an accrual basis.

Merchandise inventory is valued at its latest landed cost. Customs and excise taxes are not included in the value of inventory where payment is due upon shipment from the bonded warehouse.

Expenditures for buildings, leasehold improvements, furniture, fixtures and equipment are capitalized and are subject to depreciation on a straight line basis as follows:

Buildings	- 7 1/2% per annum
Leasehold Improvements	- a minimum of 10% per annum or a rate sufficient to write off the cost over the remain- ing life of the respective lease.
Furniture, Fixtures and equipment	- 25% per annum

2. CASH (BANK OVERDRAFT)

	<u>1982</u>	<u>1981</u>
Cash on hand and in banks (overdraft)	\$(4,355,412)	\$(3,023,186)
Cash in transit	<u>3,269,875</u>	<u>3,071,540</u>
	<u>\$(1,085,537)</u>	<u>\$ 48,354</u>

BRITISH COLUMBIA LIQUOR DISTRIBUTION BRANCH
NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1982

3. FIXED ASSETS:

	<u>1982</u>		<u>1981</u>	
	Cost	Accumulated Depreciation	Cost	Accumulated Depreciation
Land	\$ 1,135,423	\$ -	\$ 801,752	\$ -
Buildings	10,741,936	4,596,998	6,712,737	4,146,293
Leasehold Improvements	2,695,964	478,342	1,618,749	169,506
Furniture Fixtures and Equipment	<u>12,650,579</u>	<u>6,500,063</u>	<u>9,662,637</u>	<u>4,672,301</u>
	<u>27,223,902</u>	<u>11,575,403</u>	<u>18,795,875</u>	<u>8,988,100</u>
NET BOOK VALUE	<u>\$15,648,499</u>		<u>\$ 9,807,775</u>	

4. SALES:

Included in sales are non-alcoholic items amounting to \$983,416 (1981 - \$1,021,858).

Sales made directly to Licensed Establishments by authorized Brewers' agents on behalf of the Liquor Distribution Branch totaling \$130,989,255 (1981 - \$104,772,159) are not included in the sales reported by the Branch. The Provincial Malt Levy reported on the Income Statement represents the margin on these sales.

BRITISH COLUMBIA LIQUOR DISTRIBUTION BRANCH

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1982

5. COMMITMENTS:

Employees of the Branch contribute to the Public Service Superannuation Fund 6% of their salaries for basic pension purposes, plus 1/2% of salaries for cost-of-living indexed increases in pension benefits. The contributions shown in the Schedule include in addition to matching employee contributions, supplementary assessments paid by the Branch to fund any deficiency in pensions for employees who retired during the year. This supplementary assessment was \$2,734,019 in 1982 (\$1,681,585 - 1981).

An actuarial evaluation of the Public Service Superannuation Fund was made at March 31, 1980. Details of the unfunded liability are described in the Public Accounts of British Columbia. The portion of the unfunded liability attributable to the Liquor Distribution Branch was not determined by the actuary.

The Branch maintains inventory in its bonded warehouse for which Customs and Excise tax has neither been paid nor recorded. As at March 31, 1982 the future liability for these taxes approximates \$4,300,000.

In 1979, a new procedure to warehouse imported stocks by Suppliers' Agents was implemented. Under this new concept, the Branch has a contractual obligation to purchase all inventories held by the agent should he opt out of the program. The obligation of the Branch should all agents choose to terminate their contracts, totals approximately \$34,000,000 as at March 31, 1982.

Total commitments to March 31, 1982 for lease of premises amount to \$28,570,000. Of this \$4,710,000 becomes payable during the year ending March 31, 1983.

6. COMPARATIVE FIGURES

Certain of the 1981 figures provided for purposes of comparison have been restated to conform with the classifications used in the current year. These changes have had no effect on the net earnings.

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

Note 1 Summary of Significant Accounting Policies

GAS SALES

Under the terms of an agreement between Westcoast Transmission Company Limited and British Columbia Petroleum Corporation effective November 1, 1973, the Corporation sells natural gas to Westcoast Transmission Company Limited at a price equal to the gross revenue received by that Company on the resale thereof less the total cost of service of that Company's utility system operation.

DEPRECIATION

Furniture, equipment, automobiles and leasehold improvements are recorded at cost and depreciation is provided at rates considered adequate to amortize the cost over the service lives of the assets. Depreciation is computed on a straight-line basis.

Note 2 Prepaid Gas

Under its gas purchase contracts with producers, the Corporation is obligated to purchase and take delivery of, or pay for, a specified minimum annual volume of gas. In 1980 and 1981, the Corporation was unable to take delivery of the minimum volume of gas and is, therefore, liable to pay for the resulting shortfall (deficiency gas). At March 31, 1982, the Corporation's deficiency gas amounted to \$34,634,188. The Corporation is entitled to take delivery of this deficiency gas over a period of ten years, with an adjustment for the prices prevailing when such gas is delivered.

Note 3 Property Account

	Cost	Accumulated Depreciation & Amortization	1982 Net Book Value	1981 Net Book Value
Furniture	\$205,499	\$ 67,392	\$138,107	\$152,636
Automobiles	32,295	11,918	20,377	21,278
Leasehold improvements	211,228	81,644	129,584	150,704
	<u>\$449,022</u>	<u>\$160,954</u>	<u>\$288,068</u>	<u>\$324,618</u>

Note 4 Liability for Future Gas Supply

Liability for future gas supply represents a payment for deficiency gas incurred by a distributor in 1981. Such deficiency gas volumes may be recovered from the Corporation prior to November 1, 1986 without further payment.

Note 5 Remuneration of Directors and Senior Officers

The aggregate remuneration paid to the directors and senior officers of the Corporation for the year ended March 31, 1982 amounted to \$279,124 (to March 31, 1981 — \$244,448).

Note 6 Commitments

- (1) Under agreements with producers which waive the Corporation's liability to pay for deficiency gas incurred in 1980, the Corporation is committed to purchase and take delivery of, or pay for, a specified volume of such gas in each year to 1991. At March 31, 1982, the Corporation's aggregate liability under these agreements was estimated at approximately \$32,352,000.
- (2) The Corporation has commitments under agreements for the lease of office premises extending to 1984. The aggregate rentals payable under leases amounted to approximately \$304,000 at March 31, 1982.

AUDITORS' REPORT

To the Lieutenant-Governor in Council, Province of British Columbia:

We have examined the balance sheet of British Columbia Petroleum Corporation as at March 31, 1982 and the statements of income and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of British Columbia

Petroleum Corporation as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

AUDITOR'S REPORT

To the Shareholder of British Columbia Place Ltd., and

To the Minister of Environment
Province of British Columbia

I have examined the balance sheet of British Columbia Place Ltd. as at 31 March 1982 and the statement of source and use of funds for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the company as at 31 March 1982 and the source and use of its funds for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

	<u>\$96,882</u>	<u>\$54,175</u>

BRITISH COLUMBIA PLACE LTD.

NOTES TO THE FINANCIAL STATEMENTS

 March 31, 1982

1. Accounting Policies

- (a) All costs of constructing the Amphitheatre are being capitalized, as are all land purchase costs, including interest, property taxes, temporary lease expenses less revenues, and other items related to these purchases.

Land purchase costs will be allocated among the Amphitheatre and other projects at a later date. Other site development expenditures are being deferred as development expenses, to be charged to projects in the future.

Furniture, equipment and leasehold improvements are stated at cost less accumulated depreciation and amortization. Depreciation on furniture and equipment is calculated on a straight-line basis at a rate of 20%. Amortization on leasehold improvements is calculated to write off the asset over the remaining term of the lease. As at March 31, 1982 accumulated amortization and depreciation amounted to \$53,000.

- (b) Deferred charges will be amortized against Amphitheatre operations over terms appropriate to the expenditure.

2. Amphitheatre

Construction	\$42,334,000
Other development expenses	<u>7,692,000</u>
	<u><u>\$50,026,000</u></u>

NOTES TO THE FINANCIAL STATEMENTS

Page 2

3. Notes Payable to the Province of British Columbia

Notes were issued payable on demand to the Minister of Finance of the Province of British Columbia and all notes are payable June 4, 1982. Subsequently, all notes, including accrued interest thereto, have been re-financed at an interest rate of 16.95% payable December 7, 1982. These notes have been guaranteed by the Province of British Columbia.

<u>Date of Issue</u>	<u>Amount</u>	<u>Interest Rate</u>
Dec. 7, 1981	50,327,000	16-3/4%
Feb. 8, 1982	3,895,000	16%
Feb. 17, 1982	9,000,000	16%
Mar. 1, 1982	<u>6,565,000</u>	16%
	<u>\$69,787,000</u>	

4. Share Capital

Authorized 10,000 common shares without par value.

Issued and fully paid, one share to the Crown in right of the Province - \$1.

5. Contributed Surplus

Contributed Surplus represents claims made by the company of \$15,000,000 from the B.C. Place Fund and \$50,000,000 from the Lower Mainland Stadium Fund, and is the total of the appropriations made to the funds by the Province of British Columbia. In addition, the corporation received \$75,000 from the Ministry of Provincial Secretary and Government Services. This amount has been deducted from the costs of site services and development.

6. Contractual Obligations

- (a) The Company has entered into an agreement with Dillingham Corporation Canada Ltd. to construct the Amphitheatre for a guaranteed maximum price of \$111,441,000. As at March 31, 1982, costs of \$42,334,000 had been incurred relating to this agreement.
- (b) The Company has entered into an agreement with Phillips Barratt for the provision of architectural and engineering services at a cost of approximately \$5,350,000. As at March 31, 1982, costs of \$2,344,000 had been incurred relating to this agreement.

7. Comparative Figures

Certain of the comparative figures have been reclassified to conform with the current year's presentation.

8. Subsequent Event

A problem developed through the bankruptcy on March 26, 1982 of Bordignon Construction Ltd. an Amphitheatre trade contractor, resulting in a number of liens being filed against the property. In the opinion of legal counsel, under the Builders' Lien Act, the Company's liability will be limited to the 15% holdback applicable to the work completed at the time of the bankruptcy and most of the liens ultimately will be found invalid.

B.C. Place entered into an agreement with the Trustee in Bankruptcy to complete the contract. The agreement provided that all payments made by B.C. Place to the Trustee to allow completion of this work could be offset against amounts outstanding from the Company as holdbacks or progress payments. Legal counsel advises that, except for relatively small amounts that may be attributable to delay, the costs attributable to completion of this work should not give rise to an increase in Dillingham's Guaranteed Maximum Price and constitute legitimate chargebacks to the Bordignon contract.

In the event the Bordignon contract price is exceeded, the cost should form part of the Guaranteed Maximum Price without adjustment. In the opinion of legal counsel, we have a course of action against the Mortgage Insurance Company of Canada under its performance bond in the event of any loss.

In view of all these circumstances in the opinion of B.C. Place management any additional costs due to this bankruptcy will not be material.

MANAGEMENT REPORT ON FINANCIAL STATEMENTS

The financial statements of the British Columbia Railway Company have been prepared by Management in accordance with accounting principles generally accepted in Canada for railways in a manner consistent with the previous year. Management is responsible for the accuracy, integrity and objectivity of the information contained in the financial statements and to ensure that the presentation conforms with generally accepted accounting principles.

The independent auditors, Peat, Marwick, Mitchell & Co., have been appointed by the Lieutenant Governor in Council to express an opinion as to whether these financial statements present fairly the Railway's financial position and operating results in conformity with generally accepted accounting principles consistently applied. Their report outlines the scope of their examination and gives an opinion on the fairness of the statement presentation.

An Audit Committee of the Railway Directors, appointed by the Board, meets periodically with financial officers of the Railway and the external auditors to ensure that each group is fulfilling its obligations and to review and approve the annual financial statements prior to their release.

Management maintains an extensive system of internal accounting controls and believes that transactions are accurately recorded on a timely basis, are properly approved and result in reliable financial statements. The adequacy and operation of the control systems are monitored on an on-going basis by an internal audit department.

The financial statements have, in the opinion of the Railway, been properly prepared within reasonable limits of materiality and within the framework of the accounting policies summarized in Note 1 of the Notes to the financial statements.

BRITISH COLUMBIA RAILWAY COMPANY

NOTES TO FINANCIAL STATEMENTS

January 1, 1982

1. Significant Accounting Policies

The accounting regulations prescribed by the Canadian Transport Commission for Canadian railways have been adopted to the extent that this is possible without submitting specific accounting policies and depreciation rates to the Commission for approval.

Class of business

The Railway provides a fully integrated rail service within the Province of British Columbia. Services other than hauling freight are not of sufficient size to constitute a separate segment.

Road property

New construction is recorded at cost net of government grants received. Abandoned or relocated sections are removed at average unit costs. Elements of track structure installed during planned programs are recorded at cost and the material released is removed at amounts which approximate the average unit cost. Labour costs for programmed replacements are expensed as incurred.

All costs of constructing extension lines are capitalized to the date the line is certified operational by the British Columbia Ministry of Transportation and Highways. Capitalization of interest ceases and provision of depreciation commences on the date of certification.

Depreciation

Depreciation is provided for major categories of property and equipment on the straight-line basis at estimated salvage value over the original cost to the classes. The group method is used for recording depreciation under which the original cost of assets retired less salvage value is charged against accumulated depreciation. No gain or loss on retirements, other than on accidental destruction of rolling stock and on disposal of land, is included in operations. The original cost of principal assets less estimated salvage value is depreciated over the following number of years:

	Number of Years
Grades, surfacing and tunnels	100
Rails	30
Ties	20
Ballast	25
Bridges	30-80
Locomotives and power units	25
Freight Cars	33

Repairs

Repairs and non-programmed replacements of track structure are charged against current operations.

Betterments and major track relocations are capitalized.

Materials and supplies

Inventories of materials and supplies are valued at the lower of average cost or net realizable value.

Government assistance

Government assistance has been recorded in accordance with the accounting recommendations of the Canadian Institute of Chartered Accountants. Grants directly related to the construction or rehabilitation of road property have offset related road property capital expenditures. Cost assistance grants have been deducted from the related expense accounts. Assistance provided by the Government of the Province of British Columbia in its capacity as shareholder has been credited to contributed surplus.

Income taxes

The Railway is exempt from Canadian federal and provincial income taxes.

Transactions in foreign currency

Transactions originating in United States currency are recorded at the approximate exchange rates prevailing at the dates of the transactions. Current assets and current liabilities have been translated to equivalent Canadian amounts at the rate of exchange in effect on the balance sheet date.

Leases

Certain long-term lease transactions relating to the financing of equipment are accounted for as purchases of property. The capitalized lease obligation reflects the present value of future rental payments discounted at the interest rate implicit in the lease. The capitalized value of depreciable assets is depreciated over the term of the lease in equal annual amounts. The costs of all other leases are charged against operations as they are incurred.

Fiscal year-end

The fiscal year of the Railway ends on the Friday closest to December 31. The 1981 fiscal year ended on January 1, 1982 and comprised 52 weeks; the 1980 fiscal year ended on January 2, 1981 and comprised 53 weeks.

2. Funds Held in Trust

On January 16, 1981 a judgment was rendered by the British Columbia Supreme Court awarding two contractors \$8,070,000 plus costs and interest resulting from litigation concerning construction of the Dease Lake Extension. An amount of \$11,895,077 was paid to the Court in trust pending resolution of the Railway's appeal of this judgment. Should the appeal not be successful, the Railway will capitalize all amounts paid pursuant to this judgment together with costs and any interest allocable to the period prior to cessation of construction in 1977; interest allocable to periods subsequent to that date will be recorded as an expense of the period to which it applies. In the opinion of counsel the Railway should succeed in this appeal.

3. Construction in Progress

During 1981, the Railway began construction of the 130 km Tumbler Ridge branch railway line to the coal fields located in north eastern British Columbia. The Government of the Province of British Columbia will arrange interim financing to construct the branch line and intends to retire such interim financing with equity capital or government assistance to be accounted for as contributed surplus. The interim financing obligations are debts of the Railway which will be repaid out of the moneys to be provided by the Province.

The total in-place cost of the branch line, excluding capitalized financing charges, is currently projected to total \$447,000,000. As of January 1, 1982, the Railway has awarded contracts of \$251,000,000 and incurred costs of \$48,479,000 on construction. The Government of the Province of British Columbia has provided \$2,700,000 and interim financing due July 2, 1982 has been arranged by notes callable by the Railway in the aggregate of \$32,000,000. These Notes bear interest at a rate equal to the Canadian bank prime rate less 1/2 % determined monthly on the anniversary date of issuance. As at January 1, 1982 the effective interest rate was 16.75%. Subsequent to January 1, 1982 the Railway issued a further \$30,000,000 in callable notes due July 2, 1982.

4. Dease Lake Extension

These costs consist of charges relating to the completion of Dease Lake Extension prior to suspension of construction in 1977 and legal and other costs incurred subsequently in connection with litigation commenced against the Railway by contractors involved in construction of the Extension. There are no commitments to continue construction and in the event any portion of this Extension is abandoned, the cost less any value recovered will be written off at that time.

5. Long-term Debt

Long-term debt is not secured by assets of the Railway. Bonds issued by the Railway which are held in the sinking fund are not cancelled but for financial statement presentation have been deducted from the amounts shown as outstanding. As of January 1, 1982 the principal amount of such bonds held in the sinking fund aggregated \$25,378,000. (1980 — \$33,077,000).

Long-term debt outstanding, less current maturities, consists of the following:

	1981	1980
Sinking fund bonds and debentures		
1982-1986 — 3.25% to 5%	\$ 15,129,000	17,415,000
1987-1991 — 4.75% to 7.66%	61,148,000	29,906,000
1992-1996 — 4.5% to 9.34%	165,669,000	142,719,000
1997-2001 — 7.08% to 10.5%	444,003,000	378,210,000
2002-2005 — 9.05% to 12.75%	75,000,000	200,000,000
	760,949,000	768,250,000
Less sinking fund assets net of Railway's own bonds held	125,161,000	106,807,000
	635,788,000	661,443,000
Notes and bonds 16.875% — due 1986 and 1996	11,042,000	—
Serial bonds 4.875% — due 1988	1,222,000	1,366,000
Long-term lease obligations	19,827,000	19,360,000
	667,879,000	682,369,000
Deduct current portion	10,935,000	11,159,000
	\$656,944,000	671,210,000

Bonds totalling \$185,327,000 which are held by the Minister of Finance for Canada contain a provision whereby under certain circumstances they may be presented for redemption upon six months notice given to the Railway. A further \$23,096,000 of bonds are subject to redemption in various amounts at various dates until 1984, at the option of either the holder or the Railway. The Railway also has the right under certain circumstances to redeem bonds aggregating \$477,371,000 at various dates, principally after 1983.

Long-term debt retirements and sinking fund provisions excluding obligations under capital leases and early redemption options, for the four fiscal years ending with 1986 are \$10,276,000, \$10,286,000, \$10,205,000 and \$18,752,000.

Included in long-term debt outstanding at January 1, 1982 are obligations recorded at \$23,073,000 with a par value of \$21,531,000 payable in United States currency. The Canadian equivalent of these obligations at January 1, 1982 is approximately \$25,533,000.

The Railway is committed to borrow a further \$5,500,000 in United States currency at 16.875% on April 7, 1982.

The Government of the Province of British Columbia has unconditionally guaranteed the principal and interest of the serial bonds, notes and sinking fund bonds and debentures.

6. Share Capital

During the year, the authorized capital stock was increased from 2,105,729 shares to 10,000,000 shares of \$100 each of which 1,855,729 shares are outstanding.

7. Interest Expense

The Government of the Province of British Columbia has granted \$70,000,000 to assist in paying the 1981 debt servicing charges of the Railway. Of this amount, \$52,591,000 has been applied to offset interest on long-term debt and the balance of \$17,409,000 has been added to contributed surplus.

Interest expense is as follows:

	1981	1980
Interest on long-term debt	\$72,803,000	72,439,000
Less:		
Sinking fund earnings	13,450,000	10,076,000
Interest capitalized	1,743,000	—
Interest earned on temporary investments	5,019,000	4,841,000
	20,212,000	14,917,000
	52,591,000	57,522,000
Less:		
Application of debt servicing grant	52,591,000	57,522,000
Net interest on long-term debt	—	—
Interest on capitalized leases	\$ 2,209,000	950,000

8. Contributed Surplus

The increase in contributed surplus during the year of \$20,109,000 resulted from the portion of the Government grant for debt servicing charges of \$17,409,000 (Note 7) and \$2,700,000 (Notes 3 and 13) received from the Government of the Province of British Columbia in respect of costs incurred for the Tumbler Ridge branch line.

9. Lease Commitments

The Railway has significant lease commitments for rolling stock and additional minor lease commitments for equipment and real estate which expire at various dates prior to the year 2000. Certain of these leases transfer substantially all of the benefits and risks of ownership to the Railway and are accounted for as capital assets.

The payments is a schedule of future minimum rental payments at January 1, 1982 required under non-cancellable leases that have terms in excess of one year:

The Government of the Province of British Columbia in its capacity as shareholder has provided \$2,700,000 to finance the Tumbler Ridge construction project (Note 3). In addition, the Government of the Province of British Columbia intends to provide assistance to cover the annual operating losses of the passenger service.

14. Related Party Transactions

All of the outstanding shares of the Railway are owned by the Government of the Province of British Columbia. Long-term debt is guaranteed by the Province and the Railway received a grant to assist with the related debt servicing charges as set out in Note 7. The Ministry of Finance of the Province acts as fiscal agent in the administration of the long-term debt for which it assessed fees during the year of \$168,000 (1980 - nil). The Superannuation Commission of the Province administered the Railway pension plan for which it received fees during the year of \$45,000 (1980 - \$36,000). The Railway received grants during the year for rehabilitation expenses and operating losses incurred on the Fort Nelson Extension as described in Note 12. The Railway also received a grant of \$1,700,000 during the year for rehabilitation of the passenger car fleet. No charge for property taxes on land used for Railway purposes is made by the Province. The Railway has undertaken work on behalf of the Province in connection with construction of a 130 km branch line to access coal deposits in north eastern British Columbia for which the Railway will recover full costs as described in Note 3. All other transactions between the Railway and the Province are at terms no more or less favourable than those with unrelated parties.

amendment, approximated \$8,600,000. For the next three years this liability will be funded at an annual cost of \$972,000, based on a 21 year amortization period, such annual cost being subject to re-calculation at the next actuarial valuation in December, 1984.

12. Fort Nelson Extension

During 1978, the Government of the Province of British Columbia undertook to reimburse the Railway for the costs of the rehabilitation program which began in June, 1978 and to reduce the annual operating losses of this Extension.

During the last four years the Province has provided a total of \$42,597,000 to the Railway for the rehabilitation program of which \$36,731,000 has offset road property capital expenditures. The balance, together with contributions to offset the operating loss, has been deducted from operating expenses as follows:

	1981	1980
Rehabilitation program, road property maintenance expenses	\$ 238,000	1,703,000
Contribution to reduce operating losses	3,574,000	4,807,000
Total Government grants deducted from operating expenses	\$3,812,000	6,510,000

13. Government Assistance

Total grants received from the Government of the Province of British Columbia were as follows:

	1981	1980
Debt servicing (Note 7)	\$70,000,000	70,000,000
Fort Nelson Extension (Note 12)	6,978,000	18,158,000
Passenger car modernization	1,700,000	-
	\$78,678,000	88,158,000

The passenger car modernization program was in progress at January 1, 1982. Cost incurred to that date aggregated \$658,000.

	Capital leases	Operating leases
1982	\$ 3,091,000	11,353,000
1983	3,091,000	11,071,000
1984	3,091,000	9,918,000
1985	3,091,000	9,564,000
1986	3,091,000	9,425,000
Later years	34,773,000	52,481,000
Total minimum lease payments	50,228,000	103,812,000

Less:	
Executory costs	(4,856,000)
Imputed interest	(25,545,000)
Present value	\$19,827,000

Assets under capital leases recorded in the property and equipment accounts as at January 1, 1982 are as follows:

Equipment	\$20,316,000
Accumulated depreciation	1,522,000
	\$18,794,000

10. Contingent Liabilities

The Railway is contingently liable with respect to pending litigation and claims which arise in the normal course of business. In the opinion of management any liability that may arise from such contingencies would not have a material adverse effect on the financial statements of the Railway.

11. Pension Plan

The majority of the Railway's employees participate in a contributory pension plan and are entitled to limited vested rights prior to retirement. The total pension expense for the year, including past service costs, was \$5,576,000 (1980 - \$5,089,000).

An amendment to the plan as at January 1, 1981 increased pensions in force at that date and made provision for future periodic increases in pensions in force, financed out of investment earnings in excess of 5% per annum on pension fund assets held in respect of pensioners. Independent actuaries performed an actuarial valuation of the plan as at December 31, 1981. Based on their report, the unfunded actuarial liabilities of the plan at that date, including those in respect of the

AUDITOR'S REPORT

To the Chairman and Members of the
British Columbia Regional Hospital Districts Financing
Authority, and

To the Minister of Finance
Province of British Columbia:

I have examined the statement of assets and liabilities of the British Columbia Regional Hospital Districts Financing Authority as at 31 March 1982 and the statement of sources and uses of funds for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at 31 March 1982 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA REGIONAL HOSPITAL DISTRICTS FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

AS AT 31 MARCH 1982

1. The Authority

The Authority was established by the Hospital District Finance Act, RS 1979 Chapter 179. Section 2 of the Act states that the purpose of the Authority is: "to assist in the financing of hospital projects, medical and health facilities, community human resources and health centres, and any other community, regional or Provincial facilities for the social improvement, welfare and benefit of the community or the general public good, approved by the Minister of Health." Assistance in financing is to be provided by either purchasing debentures issued by Regional Hospital Districts or any other incorporated body that is authorized under an Act, its charter, or its memorandum of association to issue debentures for financing any of those projects or facilities, or by any other method approved by the Lieutenant Governor in Council with money raised by the issue and sale of debentures of the Authority.

Administrative costs associated with the Authority are borne by the Ministries of Finance and Health.

2. Significant accounting policies

Sinking funds are maintained by the Trustee, the Minister of Finance of the Province of British Columbia, to provide for the retirement of Authority debentures at maturity. Sinking fund instalments, income earned on sinking fund investments, and the corresponding investment of the income by the sinking fund trustee have been reflected in the statement of sources and uses of funds.

3. Letter of Undertaking

A loan issued by the Authority during the year for \$4,500,000 is not secured by a debenture. As an interim measure, the Authority has accepted a Letter of Undertaking to issue a debenture for this amount.

NOTES TO FINANCIAL STATEMENTS

AS AT 31 MARCH 1982

4. Long-term debt

	<u>1982</u>	<u>1981</u>
Issued to:		
Canada Pension Plan Investment Fund		
6.62% to 17.51% debentures, due 1988 through 2002.	\$ 620,389,000	\$ 492,259,000
Province of British Columbia Pension Funds		
7.00% to 8.08% debentures, due 1990 through 1993.	22,310,000	22,310,000
Province of British Columbia Boards, Agencies and Commissions		
6.79% to 10.40% debentures due 1991 through 2001.	<u>39,190,000</u>	<u>39,190,000</u>
	681,889,000	553,759,000
Less: Instalments to sinking funds payable within one year	<u>17,195,770</u>	<u>14,395,873</u>
Exhibit A	<u>\$ 664,693,230</u>	<u>\$ 539,363,127</u>

Debentures issued to the Canada Pension Plan Investment Fund are redeemable on six months' notice, in whole or in part before maturity, at the option of the Minister of Finance of Canada.

The Province of British Columbia has unconditionally guaranteed the payment of principal and interest on the long-term debt of the Authority.

5. Sinking fund assets as at 31 March:

	<u>1982</u>	<u>1981</u>
Cash	\$ 41,391	\$ 538,307
Investments at cost	117,794,659	90,372,438
(Market value \$121,508,277- 1981-\$75,814,668)		
Accrued interest	<u>3,301,845</u>	<u>1,947,594</u>
Exhibit A	<u>\$ 121,137,895</u>	<u>\$ 92,858,339</u>

Sinking fund instalments of \$17,195,770 are due in each of the next five years.

6. Comparative Figures

Certain 1981 comparative figures on the Statement of Assets and Liabilities have been reclassified to conform with the 1982 presentation.

BRITISH COLUMBIA SCHOOL DISTRICTS CAPITAL FINANCING AUTHORITY

Province of
British Columbia

Office of the
Auditor General
Province of British Columbia

8 Bastion Square
Victoria
British Columbia
V8V 1X4

AUDITOR'S REPORT

To the Chairman and Members of the
British Columbia School Districts Capital Financing Authority,
and

To the Minister of Finance
Province of British Columbia:

I have examined the statement of assets and liabilities of the British Columbia School Districts Capital Financing Authority as at 31 March 1982 and the statement of sources and uses of funds for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at 31 March 1982 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Erma Morrison, F.C.A.
Auditor General

Victoria, British Columbia
27 October 1982

BRITISH COLUMBIA SCHOOL DISTRICTS CAPITAL FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

AS AT 31 MARCH 1982

1. The Authority

The Authority was established by the School District Capital Finance Act, R.S. 1979 Chapter 376.

Section 2 of the Act states that: "the object of the Authority is to assist the boards of school trustees of the various school districts created under the School Act to finance their capital expenditures by purchasing debentures issued by boards of school trustees with money raised by the issue and sale of debentures of the Authority."

Administrative costs associated with the Authority are borne by the Ministries of Finance and Education.

2. Significant accounting policies

- a) Sinking funds are maintained by the Trustee, the Minister of Finance of the Province of British Columbia, to provide for the retirement of Authority debentures at maturity. Sinking fund instalments, income earned on sinking fund investments, and the corresponding investment of the income by the sinking fund trustee have been reflected in the statement of sources and uses of funds.
- b) Loans receivable, debt payable, and related accrued interest receivable and payable denominated in United States dollars have been converted to Canadian dollars at the rate prevailing at 31 March 1982.

3. School district debentures

Loans issued by the Authority during the year totalling \$10,508,760 were not secured by debentures. It is anticipated that debentures covering these loans will be obtained from the school districts during the next fiscal year.

BRITISH COLUMBIA SCHOOL DISTRICTS CAPITAL FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

AS AT 31 MARCH 1982

4. Due to the Province of British Columbia

During the year, some funds borrowed by the Authority were temporarily invested prior to re-lending them to school districts. Earnings on these investments have generated assets of \$6,753, considered to be in excess of the Authority's requirements. The Minister of Finance, pursuant to Section 8.2 of the School District Capital Finance Act has authorized the payment of the excess into the Consolidated Revenue Fund of the Province of British Columbia.

5. Long-term debt

Issued to:	<u>1982</u>	<u>1981</u>
Canada Pension Plan Investment Fund		
6.40% to 17.51% debentures, due 1988 through 2002.	\$ 931,570,000	\$ 832,062,000
Province of British Columbia Pension Funds		
4.625% to 8.08% debentures, due 1982 through 1993.	74,219,996	76,721,510
Province of British Columbia Boards, Agencies and Commissions		
4.625% to 11.00% debentures, due 1982 through 1996 (includes \$26,397,213 of debentures held by the Authority sinking funds).	98,251,313	96,768,644
General Public		
4.50% to 16.875% debentures, due 1982 through 1991.	<u>112,776,246</u>	<u>101,022,404</u>
	1,216,817,555	1,106,574,558
Less: Current portion of long-term debt	3,825,750	3,717,000
Instalments to sinking funds payable within one year	<u>32,989,987</u>	<u>29,978,877</u>
Exhibit A	<u>\$1,180,001,818</u>	<u>\$1,072,878,681</u>

Long-term debt includes a provision for U.S. exchange of \$19,963,555 (1981: \$14,978,558).

BRITISH COLUMBIA SCHOOL DISTRICTS CAPITAL FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

AS AT 31 MARCH 1982

5. Long-term debt (continued)

Debentures issued to the Canada Pension Plan Investment Fund are redeemable on six months' notice, in whole or in part before maturity, at the option of the Minister of Finance of Canada.

Serial debentures maturities of \$3,250,000 are due in fiscal years 1983 and 1984, \$2,500,000 due in 1985, and \$1,000,000 due in 1986, not including U.S. exchange.

The Province of British Columbia has unconditionally guaranteed the payment of principal and interest on long-term debt of the Authority.

6. Sinking fund assets as at 31 March:

	<u>1982</u>	<u>1981</u>
Cash	\$ 310,080	\$ 306,450
Investments at cost	361,215,070	295,473,393
(Market value \$303,148,268- 1981: \$239,367,174)		
Accrued interest	<u>10,606,683</u>	<u>7,243,924</u>
Exhibit A	<u>\$372,131,833</u>	<u>\$303,023,767</u>

Sinking fund investments include \$26,397,213 (par value) of debentures issued by the Authority.

Sinking fund instalments of \$32,989,987 are due in each of the next five years.

BRITISH COLUMBIA SCHOOL DISTRICTS CAPITAL FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

AS AT 31 MARCH 1982

7. Foreign exchange gains and losses

During the current fiscal year, the Authority issued debentures denominated in United States dollars, and re-lent the proceeds to school districts in Canadian dollars.

The Authority has made arrangements to ensure that principal and interest repayments by the school districts will be sufficient to finance its repayments on these debentures. Any excess assets remaining at the date of maturity of the debentures would be transferred to the Consolidated Revenue Fund of the Province of British Columbia. Accordingly, temporary differences arising between amounts receivable and payable are not treated as gains and losses. As at 31 March 1982 the following adjustments have been made:

- a) Long-term loans receivable have been increased by \$563,940 to accrue for recovery of foreign exchange losses.
- b) Accrued interest payable has been increased by \$24,501 to provide for future payment of excess interest earned during the year.
- c) Instalments to sinking funds payable within one year have been increased by \$14,529 to provide for payment into the sinking funds of excess contributions receivable from school districts.

8. Comparative figures

Certain 1981 comparative figures have been reclassified to conform with the 1982 presentation.

AUDITORS' REPORT

To the Shareholder of
British Columbia Steamship Company (1975) Ltd.

We have examined the consolidated balance sheet of British Columbia Steamship Company (1975) Ltd. as at December 31, 1981 and the consolidated statements of income, deficit, contributed surplus and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the company as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the method of accounting for annual vessel refit as described in note 2, on a basis consistent with that of the preceding year.

BRITISH COLUMBIA STEAMSHIP COMPANY (1975) LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 1981

1. ACCOUNTING POLICIES

(a) Principles of consolidation

The consolidated financial statements include the accounts of the company and its wholly-owned subsidiary, British Columbia Steamship Company Inc.

(b) Inventories

Inventories are valued at lower of cost and net realizable value.

(c) Fixed assets

Fixed assets are stated at cost less accumulated depreciation. The cost of 1981 major refurbishing of the vessel, "Princess Marguerite", was capitalized and is being depreciated on the straight-line basis over fifteen years. The original cost of the vessel had previously been depreciated to its 1979 scrap value. The leasehold improvements are depreciated on the straight-line basis over terms which range from six to ten years. Other fixed assets are depreciated on the diminishing balance method at the annual rates indicated in note 3.

(d) Refit

In addition to the major refurbishing of the vessel in 1981, the company also carries out an annual refit of the vessel in the off-season. These annual refit costs are an expense in the year incurred.

(e) Translation of foreign currency

- (i) Current assets and current liabilities are translated into Canadian dollars at rates of exchange in effect at the year end.
- (ii) Fixed assets are translated into Canadian dollars at average rates of exchange prevailing in the year in which assets were acquired.
- (iii) Revenues and expenses are translated into Canadian dollars at the average rate of exchange for the year, with the exception of depreciation which reflects historic rates used for the related assets.

2. CHANGE IN ACCOUNTING POLICY

Effective with the year ended December 31, 1981, management adopted a policy of expensing annual refit costs in the year incurred. In prior years, the policy was to charge against current operations costs actually incurred from the end of the operating season to December 31, as well as the estimated remaining costs of refitting the vessel for the next operating season. As a result of this change, which has been applied retroactively, the loss for 1981 is reduced by \$380,000 and the loss for 1980 is unchanged.

BRITISH COLUMBIA STEAMSHIP COMPANY (1975) LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 1981

3. FIXED ASSETS

	Rate	1981			1980

		<u>\$7,935,448</u>	<u>\$2,000,179</u>	<u>\$5,935,269</u>	<u>\$ 980,507</u>

The "Princess Marguerite" is shown as an asset of the company even though title rests with Her Majesty the Queen in right of the Province of British Columbia.

4. VESSEL LEASE PAYABLE

\$1,987,725 is payable to the British Columbia Ferry Corporation, a Crown Corporation, for the lease and other related costs of the motor vessel "Victoria Princess", used during the 1980 operating season.

5. DEMAND DEBT AND ACCRUED INTEREST PAYABLE

	1981	1980
Demand debt	\$2,600,000	\$4,500,000
Accrued interest	<u>142,896</u>	<u>531,823</u>
	<u>\$2,742,896</u>	<u>\$5,031,823</u>

The demand debt is payable to the shareholder, the Province of British Columbia.

BRITISH COLUMBIA STEAMSHIP COMPANY (1975) LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 1981

6. CAPITAL STOCK

The company is limited by its articles to issuing a maximum of 55,000 common shares.

7. COMMITMENTS

The company rents the terminal facilities in Seattle under a long term lease which expires in 1982, the annual rental for which is \$76,500 U. S. funds. The rental expense under this lease in the current period is \$91,219 Canadian funds. There is an option to extend the lease a further five years at an annual rental to be agreed upon.

8. REMUNERATION OF DIRECTORS AND SENIOR OFFICERS

The aggregate remuneration paid or payable to directors and senior officers of the company was \$253,430 (1980, \$183,719), of which \$1,800 was paid to directors as directors' fees and \$251,630 was paid or payable to senior officers as defined by the Company Act of British Columbia, under which the company is registered as an extra-provincial company.

BRITISH COLUMBIA SYSTEMS CORPORATIONNOTES TO THE FINANCIAL STATEMENTSMARCH 31, 19821. The Corporation

The British Columbia Systems Corporation is incorporated as a Crown Corporation of the Province of British Columbia under the System Act R.S.B.C. 1979.

The purpose of the Corporation is to establish and implement such policies as it considers appropriate for the consolidation and rationalization of data processing services provided for government entities. To achieve this purpose, the Corporation:

- a) provides data processing and related services required for governmental purposes;
- b) recommends and implements data processing standards, practices, policies and technical guidelines to facilitate a progressive improvement of information systems required by government entities; and,
- c) subject to approval of the Lieutenant-Governor in Council, sets rates for the use of data processing products and services provided to its users.

In 1982 the Corporation received 86% of its revenues from Provincial Government Ministries with the balance from other Government entities.

2. Significant accounting policies

As prescribed by Section 9(6) of the System Act, the financial statements of the Corporation are prepared in accordance with generally accepted accounting principles. Significant accounting policies followed in the preparation of these financial statements are:

a) Fixed assets:

The Corporation leases most of its computer equipment. Certain of these leases, however, transfer the benefits and risks incident to ownership to the Corporation. In such cases, as more fully described in notes 4 and 7, the leases have been capitalized.

The costs of fixed assets are depreciated and amortized over their estimated useful life on a straight line basis as follows:

Computer and ancillary equipment	- over periods ranging up to five years.
Furniture and fixtures	- over ten years.
Leasehold improvements	- over terms of leases.

- 2 -

2. Significant accounting policies (continued)

b) Revenue recognition:

Revenue is recognized in the accounts as the services are performed.

c) Expense recognition:

All purchases with the exception of fixed assets and prepaids are expensed in the accounts as incurred.

d) Development costs:

Development costs are expensed in the accounts as incurred.

e) Income taxes:

The Corporation is exempt from Federal and Provincial income taxes.

f) Interest:

The interest on funds borrowed for the new facility (land and building) which is under construction is added to the cost of these assets and interest income from the related temporary investments is deducted from the costs thereof. This capitalization will cease upon completion of construction. The interest on general borrowings for other use is expensed in the period to which it relates.

3. New facility

In 1982, the Corporation acquired the balance of the land in the District of Saanich upon which it is currently constructing a new facility to consolidate its Victoria operations.

The Corporation has entered into upset limit agreements for the design and construction of the new facility. The cost of the new facility including land, design, construction and interest is estimated at \$37,500,000. Completion is scheduled for March, 1983.

Financing for the new facility has been arranged as detailed in note 7 (b). Proceeds from the funds borrowed are held separately or are invested in short-term deposits to be drawn down against expenditures.

4. Capitalization of leases

Included in fixed assets is computer and ancillary equipment recorded at a cost of \$8,078,000 (1981 - \$12,243,000) arising from the capitalization of certain leases. The related accumulated amortization amounts to \$1,551,000 (1981 - \$7,550,000).

- 3 -

4. Capitalization of leases (continued)

The estimated useful economic life of various capitalized computer and ancillary equipment has been reviewed, resulting in increased amortization charges of \$852,000 in 1982 (1981 - \$438,000 reduction).

5. Borrowing authority

Pursuant to section 8(6) of the System Act, the Corporation may be advanced or borrow up to \$50,000,000. In computing that amount the aggregate net rentals payable by the Corporation under leases for personal property for a term exceeding one year shall be excluded.

6. Bank loan

The Corporation arranged a line of credit at an interest rate of prime minus $\frac{1}{2}\%$ in order to finance the repayment of the \$10,000,000 certificates. The Province of British Columbia has unconditionally guaranteed the payment of principal and interest.

7. Long-term debt

a) Lease capitalization:

The minimum annual contractual obligations with respect to capitalized leases are as follows:

1983	\$4,224,000
1984	2,728,000
1985	<u>2,105,000</u>
	9,057,000
Less maintenance costs and imputed annual interest	<u>2,279,000</u>
Capitalized lease obligations	6,778,000
Less current portion	<u>3,011,000</u>
Long-term portion	<u>\$3,767,000</u>

b) New facility:

The Corporation entered into the following arrangements to finance the new facility assisted by the Ministry of Finance in its capacity as Fiscal Agent.

- 4 -

7. Long-term debt (continued)

	<u>Interest rate</u>	<u>Maturity Date</u>	<u>Amount</u>
Sinking fund debentures:			
Canada Pension Plan			
- Series 1	15.69%	2002	\$14,007,000
Canada Pension Plan			
- Series 2	16.10%	2002	12,500,000
U.S. private placement debt	16.88%	1986	<u>2,390,000</u>
			<u>\$28,897,000</u>

The Corporation is required to establish sinking funds with the Ministry of Finance, in such amounts as shall be sufficient to retire the Canada Pension Plan debentures at maturity.

The U.S. debt is for an aggregate of U.S. \$11,400,000, of which U.S. \$2,000,000 has been drawn down at March 31, 1982. The liability is translated to Canadian dollars at the rate of exchange at the date the funds were received, which is not significantly different from the rate at March 31, 1982.

The Province of British Columbia has unconditionally guaranteed the payment of principal and interest on both Canada Pension Plan debentures and the U.S. debt.

Principal repayments required are as follows:

	<u>Sinking fund payments</u>	<u>U.S. debt</u>	<u>Total</u>
1983	\$ 579,000		\$ 579,000
1984	579,000		579,000
1985	579,000		579,000
1986	579,000	\$2,390,000	2,969,000
1987	579,000		579,000
Thereafter	<u>23,612,000</u>		<u>23,612,000</u>
	<u>\$26,507,000</u>	<u>\$2,390,000</u>	<u>\$28,897,000</u>

8. Certificates

The Corporation had been authorized to issue \$10,000,000 in Certificates to the Province of British Columbia, for cash. The terms and conditions attaching to the Certificates provided that the Corporation may at any time at its option, redeem the Certificates. On March 31, 1982 the Corporation redeemed all outstanding Certificates.

- 5 -

9. Net income

Pursuant to Section 8(5) of the System Act, the Corporation is required to transfer its net income to the Province of British Columbia annually.

10. Commitments

The Corporation leases its premises and computer equipment for periods of up to five years.

The minimum annual contractual obligations of non-cancellable leases are as follows (excluding amounts relating to capitalized leases):

1983	-	\$10,528,000
1984	-	\$3,265,000
1985	-	\$1,996,000
1986	-	\$1,245,000
1987	-	\$133,000

11. Pension and superannuation plans

Until the Corporation establishes a pension or superannuation plan, the Public Service Superannuation Act applies to the Corporation and its officers and employees. The Corporation is obliged to pay into the Public Service Superannuation Fund amounts equal to employees' contributions required under the Public Service Superannuation Act.

12. Major conversion project

In 1981, the Corporation announced a decision to move to a single computer architecture at the central computer facility. The necessary conversion project to effect this change was completed in fiscal 1982. The total cost of this project was \$710,000 less than the amount of \$5,600,000 provided at March 31, 1981.

AUDITOR'S REPORT

To the Members of the Creston Valley Wildlife Management
Authority, and

To the Minister of Environment
Province of British Columbia

I have examined the balance sheet of the Creston Valley Wildlife Management Authority Trust Fund as at 31 March 1982 and the statement of revenue and expenditure and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Trust Fund as at 31 March 1982 and the results of its operations for the year then ended in accordance with generally accepted accounting principles, as modified by note 2 to the financial statements, applied on a basis consistent with that of the preceding year.

CRESTON VALLEY WILDLIFE MANAGEMENT AUTHORITY

TRUST FUND

NOTES TO FINANCIAL STATEMENTS

31 MARCH 1982

1. Trust Fund

These financial statements relate only to the Trust Fund of the Creston Valley Wildlife Management Authority in accordance with section 20 of the Creston Valley Wildlife Act.

2. Significant accounting policy

Fixed assets

All expenditures on land, buildings, office furniture and equipment, machinery and equipment, and motor vehicles are charged to expenditure in the year they are incurred.

3. Permits and Sundry Revenue/Unearned Revenue

An amount of \$30,000 was received from the British Columbia Hydro and Power Authority in the year ending 31 March 1980, to secure a permit to install and maintain a transmission line across the Management Area. Because the terms of the permit were still under negotiation, the revenue was not recognized until the year ended 31 March 1982, in which the permit was issued.

4. Comparative figures

Inventory of goods held for resale that was on hand from prior years has been recorded retroactively in the accounts at a net realizable value of \$1,000 and surplus adjusted accordingly.

Certain of the 1981 revenue figures have also been restated to conform with the financial statement presentation adopted in 1982.

AUDITORS' REPORT

To the Members of Discovery Foundation

We have examined the consolidated balance sheet of Discovery Foundation as at March 31, 1982 and the consolidated statements of income and accumulated net income, contributed principal, deferred start-up costs and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, the accompanying consolidated financial statements present fairly the financial position of Discovery Foundation as at March 31, 1982 and the results of its operations, the expenditure on start-up costs and the changes in financial position for the year then ended in accordance with generally accepted accounting principles for non-profit organizations applied on a basis consistent with that of the preceding year.

DISCOVERY FOUNDATION

Notes to Consolidated Financial Statements

March 31, 1982

1. Significant accounting policies:

(a) Basis of consolidation:

The consolidated financial statements contain the financial statements of Discovery Foundation and its wholly-owned subsidiary, Discovery Parks Incorporated.

(b) Incorporation:

The Foundation was incorporated on September 24, 1979 under the provisions of the Societies Act of the Province of British Columbia. The subsidiary is incorporated under the provisions of the Company Act of the Province of British Columbia and is involved in the development of research parks.

(c) Charitable organization:

The Foundation is a charitable organization for income tax purposes and is, therefore, not taxable. The subsidiary is a taxable entity.

(d) Investment in research parks:

Costs related directly to the development of the research parks are capitalized. The depreciation policy for such costs will be determined at a later date.

(e) Deferred start-up costs:

All expenses and revenues relating to the development of research parks are being deferred during the start-up period. The amortization policy for such costs will be determined at a later date.

(f) Depreciation and amortization:

The costs of furniture and fixtures are depreciated over their estimated useful life using the declining balance method at a rate of 20% from month of purchase. Leasehold improvements are amortized using the straight-line method over the term of the lease.

2. Change in presentation and prior period adjustment:

(a) Change in presentation:

During the year the Foundation has reclassified the amounts previously classified as surplus into its sources being contributed principal funds from the Province of British Columbia and accumulated net income.

(b) Prior period adjustment:

Accumulated net income has been restated to reflect a portion of deferred start-up costs which have been allocated to general expense. These costs represent management charges and interest between Discovery Parks Incorporated and Discovery Foundation.

3. Income taxes:

The subsidiary has available non-capital loss carry forwards due to the deduction of deferred costs in computing taxable income. The losses aggregate \$914,000 and expire as follows:

1984	\$ 97,000
1985	335,000
1986	375,000
1987	107,000

DISCOVERY FOUNDATION

Notes to Consolidated Financial Statements, continued

March 31, 1982

4. Contingency and commitments:

- (a) The Foundation has guaranteed letters of credit for \$2,686,375 of the subsidiary to the Corporation of the District of Burnaby.
- (b) The Foundation's subsidiary is committed by several construction contracts for work to be completed at the research parks. Total costs on construction projects incurred to date are \$17,952,000 leaving a balance of projected costs to complete of approximately \$4,400,000. The term deposits of \$1,180,000 are committed to the projects (see Note 6(a) below).
- (c) The subsidiary leases two parcels of land for terms of 75 years each, one commencing in 1981 and the other in 1982, requiring minimum rental payments in the first ten years of \$2,500 per hectare (estimated 1983 rental is \$10,000), and thereafter a rental based on the fair market value for rental of such land.

5. Subsequent events:

(a) Line of credit:

Subsequent to March 31, 1982 the company has established a line of credit with a Canadian chartered bank secured by an assignment of land titles and postponement of claim on the shareholders loan and assignment of proceeds on the sale of the Multi Tenant Facility.

(b) Sale leaseback of the Multi Tenant Facility:

Subsequent to the year end, the company sold the Multi Tenant Facility at Willingdon with a leaseback for a period of five years. The estimated total cost of the completed building is \$14,090,400 of which \$12,508,976 was incurred to March 31, 1982. The sale price, net of selling costs, is \$13,809,138 consisting of \$4,927,502 in cash, assumption by the purchaser of building lien holdbacks totalling \$1,900,000 and discounted prepaid rent of \$6,981,636 for the five year period.

The loss on sale of approximately \$280,000 will be charged initially to deferred start-up costs.

Presented below is a proforma consolidated balance sheet which gives effect to the sale and leaseback as of March 31, 1982. Net cash proceeds have been applied to reduce the bank overdraft at March 31, 1982.

AUDITOR'S REPORT

To the Chairman and Members of the Board of the
Health Facilities Association of British Columbia, and

To the Minister of Health
Province of British Columbia:

I have examined the balance sheet of the Health Facilities Association of British Columbia as at 31 March 1982 and the statements of revenue and expenditure and accumulated excess of expenditure over revenue and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Association as at 31 March 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles, after giving retroactive effect to the change in the method of accounting for capital grants as referred to in note 2 to the financial statements, on a basis consistent with that of the preceding year.

HEALTH FACILITIES ASSOCIATION OF BRITISH COLUMBIA

Notes to the Financial Statements

31 March 1982

Note 1 Significant Accounting Policies

a) Construction grants

Payments made by the Association, to assist in financing the capital costs of health facilities, are recorded as expenditures. These grants are non-recoverable.

b) Government grants

Grants received from the Province of British Columbia are recorded as revenue in the year of receipt.

c) Sinking fund reserve

Sinking funds are maintained by the Trustee, the British Columbia Regional Hospital Districts Financing Authority, to provide for the retirement of Association debentures at maturity. Income earned on sinking fund investments has been reflected in the statement of revenue and expenditure.

d) Unamortized debenture discount

Debenture discount is amortized on a straight-line basis over the term of the related debt.

HEALTH FACILITIES ASSOCIATION OF BRITISH COLUMBIA

Notes to the Financial Statements

31 March 1982

2. Accounting Change

The Association changed its accounting policy in 1982 and began recording as revenue both government grants and interest earned on sinking fund investments. The Association also began recording as expenditures, construction and equipment grants made to various health facilities. Previously it had recorded grants as capital assets and had offset government grants and interest earned on sinking fund investments against the capital grants. As a result of this change, the excess of expenditure over revenue as at 31 March 1981 has been restated to show an increase of \$24,662,697. Of this amount, \$16,665,493 is applicable to 1981 and excess of expenditure over revenue for that year has been restated. The remaining \$7,997,204 relates to years prior to 31 March 1981 and has been applied against the opening balance of accumulated excess of expenditure over revenue as at 31 March 1981.

The comparative figures for the year ended 31 March 1981 for grants expenditure, grants revenue from the Province of British Columbia and interest revenue on sinking fund investments have also been restated to conform with the accounting change.

3. Restricted Funds

The Association holds in a separate interest-bearing investment account the sum of \$945,199 for the Cancer Control Agency to be used for financing the Terry Fox Laboratory.

HEALTH FACILITIES ASSOCIATION OF BRITISH COLUMBIA

Notes to the Financial Statements

31 March 1982

4. Long-term Debt

Series K14 15.50% due 10 February 2002	3,500,000	-
Series K 15 16.10% due 10 March 2002	4,500,000	-
	<u>49,500,000</u>	<u>36,500,000</u>
Less: Sinking fund installments due in one year	1,181,131	897,055
	<u>\$48,318,869</u>	<u>\$35,602,945</u>

Sinking fund debenture series JF, JG, K3, K4, K12, K14 and K15 are redeemable in whole or in part before maturity at the option of the chairman of the British Columbia Regional Hospital Districts Financing Authority upon five months written notice.

Payments of \$1,181,131 are required to meet sinking fund provisions in each of the next five years.

HEALTH FACILITIES ASSOCIATION OF BRITISH COLUMBIA

Notes to the Financial Statements

31 March 1982

5. Sinking Funds On Deposit

	<u>1982</u>	<u>1981</u>
Investments	\$2,556,974	\$1,659,920
Accrued Interest	731,235	292,137
	<u>\$3,288,209</u>	<u>\$1,952,057</u>

6. Commitments and Contingent Liability

- (a) Commitments outstanding as at 31 March 1982 aggregated approximately \$31,494,486 (31 March 1981 - \$30,266,282) for approved construction projects.
- (b) The Association is contingently liable to the Greater Vancouver Regional Hospital District in connection with a commitment previously made by the now defunct British Columbia Medical Centre. Management does not feel that this is a valid claim against the Association. The maximum amount in dispute is \$480,000.

7. Reclassification

The financial statements reflect the reclassification of certain items at 31 March 1981 to conform with the current year's presentation.

AUDITORS' REPORT

The Lieutenant-Governor in Council
Province of British Columbia

We have examined the consolidated balance sheet of Housing Corporation of British Columbia as at October 31, 1981 and the consolidated statements of earnings and retained earnings and source and use of cash for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the Corporation as at October 31, 1981 and the results of its operations and the source and use of its cash for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

HOUSING CORPORATION OF BRITISH COLUMBIA
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED OCTOBER 31, 1981

1. WINDING-UP OF THE OPERATIONS OF THE CORPORATION

Pursuant to a directive dated September 29, 1978 issued by the Ministry of Municipal Affairs and Housing, Province of British Columbia, the operations of the Corporation are being wound up. A total of \$9 million of dividends has been declared to date, of which \$5 million was paid within the current fiscal year and \$4 million in the previous fiscal year.

2. SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of Housing Corporation of British Columbia and the wholly-owned subsidiaries, Dunhill Development Corporation and HCBC Construction Ltd.

Land Held for Resale

These properties are reflected in the accounts at the lower of cost and net realizable value.

Carrying Charges and Overhead Expenses Capitalized

The cost of land includes:

- direct carrying costs (interest and property taxes) which are capitalized from the date of acquisition of the land;
- an appropriate portion of corporate overhead capitalized as acquisition and development costs.

Consideration for Sales

Where collectibility of the outstanding balance of a mortgage is in doubt and the appraised value of the security is less than the carrying value, the carrying value is written down to the appraised value.

HOUSING CORPORATION OF BRITISH COLUMBIA
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 FOR THE YEAR ENDED OCTOBER 31, 1981

3. INCOME TAXES

All of the issued shares of the Corporation are owned by the Province of British Columbia and therefore the Corporation is not subject to federal or provincial income taxes.

4. SHARE CAPITAL

	1981	1980
	(thousand dollars)	
Authorized -		
2,000,000 common shares of no par value		
Issued and fully paid -		
1,355,084 shares	<u>1,902</u>	<u>1,902</u>

5. OTHER INFORMATION

	1981	1980
	(thousand dollars)	
Remuneration of directors and senior officers including severance settlements	<u>11</u>	<u>26</u>

6. CONTINGENT LIABILITIES

- (a) The Corporation is contingently liable for certain mortgages assumed by purchasers of housing units sold by the Corporation.
- (b) The Corporation was named defendant in a legal action claiming damages of approximately \$200,000 because of the cancellation of a contract. Subsequent to the year end date, the plaintiff agreed to a settlement of \$4,500.
- (c) As security for letters of credit of \$6,500 the Corporation has issued a \$6,000,000 floating debenture on all its assets.

7. LOSS ON SETTLEMENT OF LAW SUIT

The Corporation was named defendant in a legal action claiming general damages of \$80,000 for alleged building deficiencies. During the current year, the company agreed to a settlement of \$32,500 (excluding related legal costs).

Notes

1. STATUS OF THE CORPORATION

The Insurance Corporation of British Columbia (the Corporation) is a Crown corporation incorporated under the Insurance Corporation Act, R.S.B.C. Chapter 201. The Corporation has the power and capacity to act as an insurer and reinsurer in all classes of insurance and to operate and administer the Insurance (Motor Vehicle) Act Fund.

The Insurance (Motor Vehicle) Act Fund is by legislation a separate entity for financial reporting purposes. A statement showing the results of the operation of the Fund is included with the financial statements of the Corporation and the balance of the Fund, which represents its accumulated net operating position, is reflected in the balance sheet of the Corporation. The Fund consists of the revenues and expenses attributable to the Insurance (Motor Vehicle) Act Fund operations. All assets and liabilities are held by the Corporation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Reporting

As prescribed by Section 21(4) of the Insurance Corporation Act, the financial statements of the Corporation are presented in accordance with generally accepted accounting principles.

Investments

Investments are carried as follows:

Short-term deposit receipts, call loans, and notes	— at cost or amortized cost plus accrued interest
Bonds	— at amortized cost plus accrued interest.

Deferred Premium Acquisition Costs

General Insurance premium taxes, and commissions, including those relating to the subsequent year's Insurance (Motor Vehicle) Act Fund premiums, are charged to expense over the terms of the insurance contracts to which such costs relate.

Depreciation and Amortization

Depreciation is provided on a straight-line basis commencing in the month following that in which assets are placed in service at rates which will amortize the original cost over the useful life of each asset. Leasehold improvements are amortized over the term of each lease plus the first renewal period where appropriate.

Leases

Leases are classified as capital or operating leases. A lease that transfers substantially all of the benefits and risks incident to the ownership of property is classified as a capital lease. All other leases are accounted for as operating leases wherein rental payments are expensed as incurred. The capitalized lease obligations reflect the present value of future rental payments discounted at the interest rate implicit in the lease and the corresponding amount is capitalized as the cost of the assets and depreciated over the assets' estimated economic life. (Note 7).

Unearned Premiums

The liability for unearned premiums is the portion of premiums that relates to the unexpired term of each vehicle policy, General Insurance contract, or driver's premium.

Unpaid Claims

Unpaid claims includes a provision for reported and unpaid claims, based on the claims settlement experience of the Corporation, current trends and a detailed review of claims files. Also included is an estimate for unreported claims.

3. REINSURANCE

The Corporation follows the policy of underwriting and reinsuring certificates of insurance which in the main, limit the liability of the Corporation to the maximum amount on any one loss of \$200,000 for General Insurance contracts and \$750,000 for Autoplan certificates. In addition the Corporation has obtained reinsurance having an upper amount of \$40,000,000 and which limits the Corporation's liability to \$1,962,500 in the event of a series of claims arising out of a single occurrence.

4. RESERVES**General Operations**

The Corporation has appropriated from General Operations retained earnings an additional \$1,200,000 to the Catastrophe Reserve. The appropriation increases this reserve to \$5,500,000.

As is the practice in the industry, a Catastrophe Reserve has been established to reflect the impact of possible losses arising from catastrophic occurrences. Catastrophes such as earthquakes, storms, or conflagrations

occur at random and the losses arising could be substantial.

The Rate Stabilization Reserve has been established to lessen the potential impact on General Insurance premiums of significant variations in claims loss experience in future years. Amounts will be withdrawn from this reserve in loss years and conversely, amounts will be added to the reserve in years with a surplus.

5. INVESTMENTS

	<u>Dec. 31, 1981</u>	<u>Dec. 31, 1980</u>
	<i>(Thousands of dollars)</i>	
Short-term Deposit Receipts, Call Loans and Notes (approximates market value)	\$456,028	\$356,942
Bonds (est. market value)		
— Dec. 31, 1981	\$170,550	227,885
— Dec. 31, 1980	\$171,888	244,575
	<u>\$700,603</u>	<u>\$584,827</u>

6. PROPERTY AND EQUIPMENT

	<u>Cost</u>	<u>Accumulated Depreciation</u>	<u>Net Book Value at December 31, 1981</u>	<u>Net Book Value at December 31, 1980</u>
	<i>(Thousands of dollars)</i>			
Land	\$13,826	\$ —	\$13,826	\$10,048
Land — New H.O.	2,502	—	2,502	—
Building — New H.O.				
Under Construction	13,642	—	13,642	2,152
Buildings	27,494	8,862	18,632	22,151
Furniture & Equipment	8,525	4,760	3,765	3,695
Computer Under Capital Lease	2,837	897	1,940	2,837
Leasehold Improvements	2,716	1,862	854	738
	<u>\$71,542</u>	<u>\$16,381</u>	<u>\$55,161</u>	<u>\$41,621</u>

Depreciation has been charged at the following rates—Buildings 5-10%; Furniture and equipment 10-20%; Computer under capital lease 40%. Leasehold improvements are amortized over the term of the lease plus one renewal period.

Depreciation expense for the year ended December 31, 1981 amounted to \$4,410,000 (1980 — \$3,493,000).

7. OBLIGATION UNDER CAPITAL LEASE

The following is a schedule of future minimum lease payments under capital lease.

<u>Year Ended December 31</u>	<u>(Thousands of dollars)</u>
1982	\$1,449
1983	544
Total minimum lease payments	1,993
Less: Amounts representing insurance and maintenance	(329)

11. COMMITMENTS

The Corporation is committed to make the following payments during the next five years on property and equipment leased for periods of more than one year:

Fiscal year:	(Thousands of dollars)
1982	\$10,591
1983	7,737
1984	677
1985	481
1986	335

12. CAPITAL COMMITMENTS

The Corporation is constructing a new head office building due for completion in early 1983. The total cost of the land and building will be approximately \$38 million of which \$21 million will be spent in 1982.

13. PENSION PLAN

Certain employees participate in a contributory pension plan and are entitled to vested interests prior to retirement.

Employees contribute specified percentages of salaries. The Corporation contributes to the Plan all amounts as actuarially determined, over and above employee contributions, to fund the benefits earned by employees under the Plan.

As of December 31, 1981 the Corporation has fully provided for all past service liabilities of the Pension Plan. Contributions by the Corporation for the year ended December 31, 1981 were \$1,210,000 (1980 — \$1,970,000).

Auditor's Report

The Honourable James Hewitt
Minister of Agriculture and Food
Province of British Columbia

We have examined the balance sheet of the Insurance Corporation of British Columbia as at December 31, 1981 and the statements of general operations and changes in financial position of the Corporation and the statement of operations of the Insurance (Motor Vehicle) Act Fund for the year then ended. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the

Corporation as at December 31, 1981, and the results of its operations and the changes in its financial position and the results of the operations of the Fund for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

AUDITOR'S REPORT

To the Chairman and Members of the Board of the
Knowledge Network of the West Communications Authority, and

To the Minister of Universities, Science and Communications
Province of British Columbia:

I have examined the consolidated balance sheet of Knowledge Network of the West Communications Authority as at 31 March 1982 and the consolidated statements of accumulated excess of revenue over expenditure and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these consolidated financial statements present fairly the financial position of the Authority as at 31 March 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles as modified by note 1 (b) to the consolidated financial statements.

KNOWLEDGE NETWORK OF THE WEST COMMUNICATIONS AUTHORITY

Notes to the Consolidated Financial Statements

31 March 1982

NOTE 1 Significant accounting policies

a) Principles of consolidation

The accounts of the Authority are consolidated with those of its wholly-owned subsidiary Knowledge-West Communications Corporation. All inter-company transactions have been eliminated in these consolidated financial statements.

b) Government grants

The Authority receives grants from the Province of British Columbia. These grants are shown as revenue.

c) Fixed assets and depreciation

The Authority records fixed assets at cost and depreciates them over their estimated useful life as follows:

Furniture and equipment	10% per annum
Tapes	20% per annum
Leasehold improvements	20% per annum
Earth stations	20% per annum
Network equipment	20% per annum
Programs owned	20% per annum
License agreements	Life of the respective lease

AUDITOR'S REPORT

To the Chairman and Members of the
Legal Services Society, and

To the Attorney-General,
Province of British Columbia

I have examined the balance sheet of the Legal Services Society as at 31 March 1982 and the statement of income and expenditures and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Society as at 31 March 1982 and the results of its operations for the year then ended in accordance with generally accepted accounting principles, as modified by note 1 to the financial statements, applied, except for the change in the method of recording tariff expenditures and grant income from the Province of British Columbia as explained in note 2 to the financial statements, on a basis consistent with that of the preceding year.

LEGAL SERVICES SOCIETY
NOTES TO THE FINANCIAL STATEMENTS
31 MARCH 1982

1. Significant Accounting Policies

- a) Property and equipment are recorded as operating expenditures at the time of acquisition.
- b) Accrued vacation pay is not recorded in the accounts.

2. Change in Accounting Policy

Tariffs are amounts billed to the Society for solicitors' fees and costs to provide legal aid to persons in need. The tariff billings are approved by the Society and paid by the Province of British Columbia through the Ministry of the Attorney General. In prior years, the Society recorded these payments in both revenue and expenditure only to the extent they were recorded in the Public Accounts of the Province.

In the 1982 fiscal year the Society adopted the policy of recording tariff expenditures, and grant income from the Province of British Columbia, on a full accrual basis. The net effect of this change in accounting policy in the current year is to reduce excess of income over expenditures by \$431,829. The change has no material effect on the 1981 financial statements.

3. Grants to Native Courtworkers and Counselling Association of British Columbia

In prior years the Society received grants to assist in funding the Native Courtworkers and Counselling Association of British Columbia directly from the Government of Canada. During the current year the agreement with the Government of Canada was changed and the funding of the Association was taken over by the Province of British Columbia through the Ministry of the Attorney General. The Government of Canada contribution amounting to \$520,006 was paid directly to the Province. The amount of \$847,338 paid to the Association by the Society represents that portion of the Province's contribution for the current year that was included in the current year's grant to the Society.

4. Commitments

The Society has commitments under long-term leases for office premises as follows:

	\$
1983	291,036
1984	234,841
1985	140,246
1986	86,252
1987	59,893
	<u>\$ 812,268</u>

MEDICAL SERVICES COMMISSION OF BRITISH COLUMBIA

NOTES TO FINANCIAL STATEMENTS

31 MARCH 1982

1. Significant Accounting Policies

These financial statements have been prepared in accordance with generally accepted accounting principles except that:

- (i) Premiums from individual subscribers are included in revenue only when cash is received. Premiums from other sources are recognized as revenue on an accrual basis.
- (ii) The cost of furniture and equipment is charged to administration expenses in the year of acquisition.
- (iii) No accrual for holiday pay is provided for salaried employees.

2. Dental Care

The Dental Care Plan of British Columbia commenced operations January, 1981 and completed its' first full fiscal year on 31 March, 1982. Dental care expenditures, which were included in medical care expenditures for the 1981 year, have been reclassified in the comparative financial statements to conform with the statement presentation adopted for 1982.

- 3. The Medical Services Commission directs and operates the Medical Services Plan of British Columbia and the Dental Care Plan of British Columbia.

MARCH 31, 1982

1. Status of the Company

The Metro Transit Operating Company was created by the Province of British Columbia on July 31, 1979 under the Metro Transit Operating Company Act. The Act was brought into force by Proclamation on January 18, 1980.

2. Operating mandate

The Company's mandate is to manage, operate and maintain public passenger transportation systems in designated areas within the Province, in accordance with annual operating agreements. Under this mandate, the Company took over the public passenger transportation systems and operations of the British Columbia Hydro and Power Authority (Hydro) in the metropolitan areas of Vancouver and Victoria on April 1, 1980. Effective the same date, the Company entered into major annual operating agreements governing the provision of transit services in these areas with the Urban Transit Authority of British Columbia (Authority) and the Greater Vancouver Regional District and with the Authority and the Capital Regional District. These initial agreements, which expired on March 31, 1981, have been renewed to March 31, 1983.

Pursuant to the provisions of its annual operating agreements, the Company leases all major fixed assets, such as passenger carrying vehicles, land and buildings and tools and equipment from the Authority for an annual lease fee. In addition, the Company acquired from Hydro certain related assets, such as parts inventory, shop equipment, office furniture and equipment, service cars and trucks and computer software. The inventories of parts have been recorded at their average cost and all other assets have been recorded at a nominal value in the financial statements.

The annual operating agreements also require that all operating revenues collected by the Company are remitted either to the local Regional District or to the Authority and the Company's gross operating expenditures are reimbursed by the Authority.

3. Summary of significant accounting policies

a. Generally accepted accounting policies

The Company's accounts are prepared in accordance with generally accepted accounting principles including the use of the accrual method of accounting for operating expenditures.

b. Inventories

All inventories are valued at the lower of cost and replacement cost. Cost is determined using the average cost method.

Touche Ross & Co

Metro Transit Operating Company
Notes to Financial Statements
March 31, 1982

Page 2

3. Summary of significant accounting policies (Continued)

c. Property and equipment

As explained in Note 2, the Urban Transit Authority finances and owns all major assets utilized by the Company. Purchases of individual items in excess of the amounts shown below are deemed to be capital expenditures by the Urban Transit Authority and purchases less than these amounts are expensed by the Company in the year of acquisition.

Tools and shop equipment	\$10,000
Furniture and office equipment	\$ 3,000
Passenger facilities	\$ 5,000
Services vehicles	\$ 5,000

Maintenance and repairs are charged to operations in the year incurred.

d. Pension plans

The Company and its employees are subject to the Public Service Superannuation Act and current and past service costs are accrued and funded on a current basis. In addition, the Company accrues and funds on a current basis the increased costs resulting from pension indexing for retired B.C. Hydro transportation employees.

4. Contributed surplus

Contributed surplus arises from the inventories acquired by the Company on April 1, 1980 from B.C. Hydro valued on the average cost method.

5. Pension plans

Current year's pension costs amounted to \$4,772,940 (1981 - \$3,694,000) and increased pension costs in respect of retired B.C. Hydro employees amounted to \$449,292 (1981 - \$277,000).

AUDITORS' REPORT

The Lieutenant-Governor in Council

Province of British Columbia

We have examined the balance sheet of Ocean Falls Corporation as at December 31, 1981 and the statements of income and deficit and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with the basis of accounting as described in note 1 applied consistently with that of the preceding year.

OCEAN FALLS CORPORATION

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 1981

1. ACCOUNTING POLICY

In 1980, the Government of the Province of British Columbia shut down the Corporation's mill operations. Accordingly, these financial statements have been prepared on an estimated realizable basis. This basis of presentation reflects assets at estimated realizable values and provides for estimated costs of terminating operations.

2. FIXED ASSETS

The fixed assets have been written down to their estimated net realizable value which at December 31, 1981 is \$2,000,000.

3. BANK INDEBTEDNESS

Bank indebtedness is partly secured by a general assignment of accounts receivable and inventories.

4. DEMAND LOAN

The demand loan from British Columbia Cellulose Company is partly secured by a debenture having a fixed charge on the real property of the corporation and a floating charge on all other assets of the corporation, subsequent in priority to long-term debt charges.

5. LONG-TERM DEBT

	<u>1981</u>	<u>1980</u>
Province of British Columbia		
Interest at chartered bank prime rate compounded quarterly with no fixed terms of repayment	\$ 5,044,453	\$ 5,044,453
Interest at 8-1/4% compounded semi-annually and maturing October 1984	2,000,000	2,000,000
Interest at 9-1/10% compounded semi-annually and maturing September 1, 1985	2,000,000	2,000,000
Interest at 9-1/4% compounded semi-annually and maturing November 1, 1985	<u>2,000,000</u>	<u>2,000,000</u>
	11,044,453	11,044,453
British Columbia Cellulose Company with no interest payable since December 31, 1979 and maturing June 30, 1985	2,000,000	2,000,000
Mortgages payable, less current portion	<u>35,950</u>	<u>46,996</u>
	<u>\$13,080,403</u>	<u>\$13,091,449</u>

- 2 -

5. LONG-TERM DEBT (continued)

The loan from the Province of British Columbia in the amount of \$5,044,453 is secured by a debenture having a first fixed charge on the real property of the corporation and a floating charge on all other assets of the corporation. Other loans from the Province of British Columbia are unsecured.

The loan from British Columbia Cellulose Company is secured by a debenture having a second fixed charge on the real property of the corporation and a floating charge on all other assets of the corporation.

6. COMMITMENT

The company has made a commitment to repurchase for approximately \$100,000 the land and houses from the employees at their cost, including improvements, less outstanding mortgages thereon.

7. CONTINGENT LIABILITIES

There are a number of claims and possible claims arising from the termination of the Corporation's mill operations. No estimate can presently be made of the Corporation's exposure to liability resulting from these claims and accordingly no provision has been made in the accounts for any claims or possible claims.

8. OTHER STATUTORY INFORMATION

Aggregate remuneration of directors and senior officers, as defined in the B.C. Company Act, amounted to \$259,152.

AUDITORS' REPORT

To the Shareholder of
Pacific Coach Lines Limited:

We have examined the balance sheet of Pacific Coach Lines Limited as at March 31, 1982 and the statements of operations and retained earnings, changes in financial position and changes in capital replacement fund for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the company as at March 31, 1982 and the results of its operations, the changes in its financial position and the changes in its capital replacement fund for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

PACIFIC COACH LINES LIMITED
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. Capital replacement fund:

The capital replacement fund represents funds set aside for fixed asset expenditures and the retirement of related long term debt. Additions to the fund are represented by proceeds from the sale of fixed assets, capital contributions from the Province of British Columbia, a portion of the contract revenue from the Province of British Columbia equal to the depreciation expense for the year and net short term interest.

2. Fixed assets:

	March 31	
	<u>1982</u>	<u>1981</u>
Cost or appraised value:		
Land	\$ 792,857	\$ 847,857
Revenue equipment	5,941,120	6,028,218
Buildings	419,551	419,551
Furniture and equipment	408,789	359,959
Service equipment	<u>26,142</u>	<u>31,142</u>
	7,588,459	7,686,727
Less: Accumulated depreciation	<u>2,315,022</u>	<u>1,543,258</u>
	<u>\$5,273,437</u>	<u>\$6,143,469</u>

Revenue and service equipment acquired from British Columbia Hydro & Power Authority at nominal consideration on April 1, 1979 together with similar equipment owned at that date were appraised by Levett Inter-City Coach Sales Ltd. and are reflected in the accompanying financial statements at their fair market value as at April 1, 1979.

The excess of appraised value of assets over depreciated cost or nominal value is included as a separate account under shareholder's equity (Note 6) and is being transferred to retained earnings on the basis of realization of appreciation through sales and depreciation provisions.

The costs of major replacements, additions and improvements are capitalized in the fixed asset accounts. The costs of maintenance, repairs, minor renewals or replacements are charged against income. On retirement or disposal of fixed assets, the costs thereof and the related accumulated depreciation are eliminated from the accounts and any gains or losses are reflected in the statement of operations.

The fixed assets are depreciated on the straight-line method based on useful lives of 8 to 25 years.

3. Deferred revenue:

	March 31	
	1982	1981
Advance for property rental	\$266,822	\$266,822

4. Operating contract - Province of British Columbia:

By agreement with the Minister of Municipal Affairs the Province of British Columbia makes payments in an amount equal to the net operating costs incurred during the year before net short term interest, gains and losses on fixed asset disposals and extraordinary items. The payments include amounts in respect of unfunded pension liabilities assumed on the acquisition of Pacific Stage Lines as referred to in Note 7.

5. Mortgages payable and agreement for sale:

The account consists of the following:

	March 31	
	1982	1981
(a) Mortgages-		
Royal Trust Company-		
11-1/4% interest, payable at \$1,372 per month including interest and principal, up to and including February 1, 1984. Balance of principal and accrued interest due March 1, 1984	\$136,228	\$137,625
Royal Trust Company-		
11-1/4% interest, payable at \$1,176 per month including interest and principal, up to and including February 1, 1984. Balance of principal and accrued interest due March 1, 1984	116,767	117,965
(b) Agreement for sale-		
Cloyne Holdings Ltd.-		
payable December 1, 1982, with interest at 13% per annum	27,520	267,800
	<u>\$280,515</u>	<u>\$523,390</u>

The mortgages and agreement for sale are secured by certain of the company's properties.

Notes
Page 3

5. Mortgages payable and agreement for sale continued:

The aggregate future payments of principal will be discharged through the capital replacement fund and are as follows:

1983	\$ 30,419
1984	<u>250,096</u>
	<u>\$280,515</u>

6. Excess of appraised value of assets over depreciated cost or nominal value, April 1, 1979:

	March 31	
	1982	1981
(a) Revenue and service equipment owned by the company at March 31, 1979	\$ 760,910	\$ 760,910
(b) Revenue and service equipment acquired from British Columbia Hydro & Power Authority on April 1, 1979	3,583,000	3,583,000
(c) Parts inventory acquired from British Columbia Hydro & Power Authority on April 1, 1979	<u>322,928</u>	<u>322,928</u>
	4,666,838	4,666,838
Less: Amount realized through depreciation provisions or use and transferred to retained earnings	<u>1,979,952</u>	<u>1,415,656</u>
Balance, end of year	<u>\$2,686,886</u>	<u>\$3,251,182</u>

7. Pension plan:

Employees of Pacific Coach Lines Limited are covered under one of two contributory pension plans:

- (a) Plan A, which was approved by the Government of the Province of British Columbia in 1976, includes employees at March 31, 1979, any former British Columbia Hydro & Power Authority employees who wished to transfer to the plan upon joining the company on April 1, 1979, and any new employees. An actuarial report as at December 31, 1978 indicated an unfunded liability for past service benefits of \$2,286,800 which is being funded by equal annual payments of \$198,299 over a period of 23 years which commenced with the year ended March 31, 1980.

7. Pension plan (continued):

- (b) Plan B, which resulted from the acquisition of the operations of Pacific Stage Lines, is a closed plan with membership limited to former British Columbia Hydro & Power Authority employees who joined the company April 1, 1979. An actuarial report has determined that, on the basis of the assets to be transferred from British Columbia Hydro & Power Authority with respect to membership in the plan prior to March 31, 1979, an unfunded liability of \$3,060,300 exists with respect to both non-indexed benefits and post retirement index supplements. This liability is being funded by equal annual payments of \$305,452 over 22 years, being the remaining funding period of Plan A, commencing with the year ended March 31, 1981.

In the year ended March 31, 1981 the Board of Directors resolved that the two plans be equalized as much as possible with the intent that they be merged into a single plan having essentially the same provisions as Plan B. As a result provisions for current service has been made in the accounts on the basis of actuarial estimates related to a merged plan.

8. Lease commitments:

The company leases certain terminal facilities and equipment under the terms of various lease agreements. Annual lease payments under agreements presently outstanding are approximately as follows:

1983	\$ 495,885
1984	466,485
1985	354,145
1986	354,145
1987	<u>354,145</u>
	<u>\$2,024,805</u>

9. Income taxes:

Since the Province of British Columbia is the sole shareholder the company is exempt from income taxes.

10. Comparative figures:

Certain comparative figures for 1981 have been reclassified for conformity with the 1982 presentation.

To the Minister of Education
Province of British Columbia:

I have examined the balance sheet of the Pacific Vocational Institute as at 31 March 1982 and the statements of revenue and expenditure, changes in fund balances and ancillary enterprise operations for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Institute as at 31 March 1982 and the results of its operations and the changes in its fund balances for the year then ended in accordance with generally accepted accounting principles, as modified by notes 1(a) to the financial statements, applied on a basis consistent with that of the preceding year.

Erma Morrison, F.C.A.
Auditor General

Victoria, British Columbia
19 May 1982

PACIFIC VOCATIONAL INSTITUTE
NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

1. SIGNIFICANT ACCOUNTING POLICIES

a) General

These financial statements have been prepared in accordance with generally accepted accounting principles except for the following:

- No accrual is provided for vacation pay for salaried employees.
- No provision is made in the financial statements for depreciation of buildings and equipment.
- Library books and periodicals are charged to expense in the year of acquisition.

b) Fund Accounting

Transactions of the Institute are accounted for by fund accounting procedures in order to recognize various restrictions imposed on the use of available resources. Under these procedures, revenue and their related expenditures are accounted for in separate funds in accordance with objectives specified by donors, limitations and restrictions imposed by sources outside the Institute, and determinations made by the Board of Governors. The major fund divisions are described below:

- General Purposes Operating Funds consist of those revenues and expenditures used in the general operations of the Institute.
- Specific Purposes Operating Funds consist of those revenues and expenditures used for projects stipulated by the donors and grants and include investment income on funds held for specific purposes.
- Restricted Funds represent revenues and expenditures which are restricted in nature plus trust fund monies transferred from the Ministry of Education on establishment of the Institute. They include the Student Scholarship Fund, Parking Trust Fund, Aircraft Maintenance Fund, Emergency Loan Fund, Day Care Trust Fund, and Good Samaritan Fund.
- Debt Services Fund consists of those grants and expenditures used in the servicing of our authorized borrowings.
- Capital Fund consists of gifts and grants received for the purpose of acquiring capital assets as described in Note 1(c). This fund may also be used for major renovations and alterations and capital project administration costs.

1. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

c) Buildings and Equipment (Cont'd)

Expenditures for the construction of buildings and purchase of equipment are recorded in the statement of revenue and expenditure of the capital fund in the year in which they are incurred and are included as capital assets, at cost, on the balance sheet.

d) Inventories

Bookstore and retail meat inventories, held for resale, are stated at the lower of cost and net realizable value.

e) Ancillary Enterprises

Ancillary enterprises include the bookstore, student housing services and the retail meat operation and are expected to operate on a break-even basis. These departments are assessed only direct costs associated with their operations.

2. BUILDINGS AND EQUIPMENT

	Capital Projects	Renovations & Public Works	Equipment	Total
				1982
Balance, beginning of year	\$6,201,834	\$ 632,289	\$1,869,794	\$ 8,703,917
Additions during the year	3,020,573	341,529	1,255,455	4,617,557
Balance, end of year	\$9,222,407	\$ 973,818	\$3,125,249	\$13,321,474
				1981
				\$5,369,540
				3,334,377
				\$8,703,917

The construction of the Electrical Training Centre was completed October 20, 1980 by the Institute at a cost of \$4,545,993. All other campus land and buildings, occupied by the Institute, are the property of the British Columbia Buildings Corporation. Land and buildings are provided free of charge. Equipment assumed by the Institute at its establishment is recorded at a nominal value of \$1.00. Replacement value of buildings and equipment for insurance purposes has been appraised at \$73,345,242 as at March 31, 1982.

Pacific Vocational Institute
Notes to Financial Statements
March 31, 1982
Page 3

3. BANK INDEBTEDNESS

Bank indebtedness consists of demand loans - interest payable at the prime lending rate - under the provisions of the Educational Institution Capital Finance Act. The purpose of the loans is to provide interim and short term financing for construction and major renovations.

4. LONG TERM DEBT

The long term debt at March 31, 1982, is payable to the British Columbia Educational Institutions Capital Financing Authority. Terms are as follows:

<u>Maturity</u>	<u>Rate</u>	<u>Principal</u>	<u>Accumulated</u>		<u>Balance</u> March 31, 1982	<u>Annual</u> <u>Payment</u>
			<u>Sinking Fund</u> <u>Payments</u>	<u>Payments</u>		
November 9, 1999	10.68%	\$1,200,000	\$ 58,566		\$1,141,434	\$157,509
June 10, 2000	12.01%	1,000,000	24,390		975,610	144,490
October 10, 2000	12.50%	2,000,000	48,788		1,951,212	298,825
March 10, 2002	16.10%	<u>1,926,000</u>	<u>-</u>		<u>1,926,000</u>	<u>352,173</u>
Totals		<u>\$6,126,000</u>	<u>\$131,744</u>		<u>\$5,994,256</u>	<u>\$952,997</u>

These loans are to be refinanced through debentures issued to the British Columbia Educational Institutions Capital Financing Authority. The payment of interest and sinking fund instalments shall be paid to the British Columbia Educational Institutions Capital Financing Authority from grants received from the Province of British Columbia. These loans can be recalled by the Chairman of the British Columbia Educational Institutions Capital Financing Authority by giving not less than five (5) months' notice in writing.

5. COMMITMENTS

Commitments under capital contracts at March 31, 1982 amounted to \$ 592,179 (1981 - \$1,315,823), to be financed from the Capital Fund.

Pacific Vocational Institute
Notes to Financial Statements
March 31, 1982
Page 4

6. CONTINGENT LIABILITY

A contingent liability exists for banked sick pay accumulated under the previous contractual obligations. At March 31, 1982, the estimated liability amounted to \$812,926 (1981 - \$804,000). The liability represents 50% of accumulated time at current salary rates and may be taken on retirement in the form of cash or leave.

7. COMPARATIVE FIGURES

Certain 1981 figures have been restated in order to conform with financial statement presentation adopted in 1982.

AUDITOR'S REPORT

To the Chairman and Members of the
Provincial Capital Commission, and

To the Minister of Finance
Province of British Columbia:

I have examined the balance sheet of the Provincial Capital Commission as at 31 March 1982 and the statement of revenue, expenditure and operating surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission as at 31 March 1982 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

A handwritten signature in cursive script, reading 'Erma Morrison'.

Erma Morrison, F.C.A.
Auditor General

PROVINCIAL CAPITAL COMMISSION

NOTES TO FINANCIAL STATEMENTS

31 MARCH 1982

1. SIGNIFICANT ACCOUNTING POLICIES

a) Donated property

Donated property recorded at nominal value of one dollar represents properties transferred to the Commission from the Province of British Columbia as free Crown grants.

b) Prepaid expenses

Expenditures associated with the negotiation of the Crystal Garden leases are amortized over five years. Expenditures associated with the initial advertising for the Crystal Garden are amortized over three years.

c) Project disbursements

Project disbursements shown in these financial statements are of a capital nature.

2. CRYSTAL GARDEN

The commercial operations of the Crystal Garden commenced on 1 April 1980. Revenue and expenditure of the Crystal Garden are recorded in the accounts of the Commission and are reflected in the Commission's financial statements.

3. GRANTS FROM THE PROVINCE OF BRITISH COLUMBIA

Administration expenses of the Commission amounting to \$336,325 (\$352,433 in 1981) were paid directly by the Ministry of Finance from a Vote. These expenses are included in both revenue and expenditure in these financial statements.

PROVINCIAL RENTAL HOUSING CORPORATION

Province of
British Columbia

Office of the
Auditor General
Province of British Columbia

8 Bastion Square
Victoria
British Columbia
V8V 1X4

AUDITOR'S REPORT

To the Shareholder of the Provincial Rental Housing Corporation, and

To the Minister of Lands, Parks and Housing
Province of British Columbia:

I have examined the statement of financial position of the Provincial Rental Housing Corporation as at 31 December 1981 and the statements of accumulated return of investment and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at 31 December 1981 and the accumulated return of its investment and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles, as modified by note 1 to the financial statements, applied on a basis consistent with that of the preceding year.

PROVINCIAL RENTAL HOUSING CORPORATION

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1981

1. SIGNIFICANT ACCOUNTING POLICY

Amortization Revenue

Amortization revenue is the amount charged annually for recovery of capital costs with interest to British Columbia Housing Management Commission which manages the rental housing units of the Corporation. The basis of the charge is determined by agreement between the Federal/Provincial Authorities which subsidize the operating deficits of these low income/senior citizen housing facilities.

This amortization revenue, after providing for interest and other expenses, is added to the Corporation's accumulated return of investment, which is treated as a reduction of investment in rental housing.

2. ISSUED SHARES

All issued shares of the Corporation are held by Her Majesty the Queen in the right of the Province of British Columbia as represented by the Minister of Lands, Parks and Housing.

3. INVESTMENT IN RENTAL HOUSING

The sale of individual living units in one of the rental facilities, eligible for a federal loan, continued during the year, nine having been sold, producing a gain on disposal of \$180,212.

At December 31, 1981 the investment of the Corporation in subsidized rental housing amounted to \$88,945,457, comprising 98 projects containing 7,844 rental units.

As at December 31, 1981 official transfer of title to the Corporation of its interest in joint Federal/Provincial projects had not been completed.

PROVINCIAL RENTAL HOUSING CORPORATION

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1981

4. LONG TERM DEBT

At December 31, 1981 long-term debt totalled \$75,327,776, of which \$47,139,238 was owing to the Canada Mortgage and Housing Corporation as outlined in Schedule 1 herein, and the remainder of \$28,188,538 to the Crown Land Fund of the Province of British Columbia. The Federal loans are, generally, amortized over a period of 50 years and repayment may extend to the year 2027.

Current liabilities include sales proceeds of \$490,948 from the disposal of housing units referred to in Note 3, payable to the Canada Mortgage and Housing Corporation along with the regular annual instalments on the debenture loans.

THE SCIENCE COUNCIL OF BRITISH COLUMBIA
AND SECRETARIAT ON SCIENCE, RESEARCH AND DEVELOPMENT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1982

1. ACCOUNTING POLICY

Fixed Assets

Fixed assets are not capitalized and depreciated as assets of the Council and Secretariat, but are written off in the period in which they are purchased.

Research Grants

Outstanding research grant commitments are conditional on receipt of satisfactory progress reports and are not recorded until actually disbursed.

2. RESEARCH GRANT COMMITMENTS (see Schedule)

During the year, the Council approved funding for research projects, awards and special requests totalling \$5,286,313. At March 31, 1982, known outstanding commitments and estimated renewed commitments for research projects and special requests had been approved by the Council to a total of \$6,455,617, to be disbursed before March 31, 1983.

3. PUBLIC EVENTS

During the year, the Council was involved in public events for the promotion of awareness of science and research in British Columbia. The two major events during the year ended March 31, 1982 were Discovery Fair 1981 and the travelling film production, Images for Tomorrow.

4. COMMITMENT

As a result of a move to larger premises, Council's annual rental has increased to \$51,589 under a lease agreement which expires on March 31, 1984.

AUDITOR'S REPORT

To the Chairman and Members of the Board of Governors of
Simon Fraser University, and

To the Minister of Universities, Science and Communications
Province of British Columbia:

I have examined the balance sheet of Simon Fraser University as at 31 March 1982 and the statements of revenue and expenditure and changes in fund balances, expenditures by fund, changes in appropriated fund balances, ancillary enterprise operations and changes in net investment in land, buildings and equipment for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the University as at 31 March 1982 and the results of its operations and the changes in its fund balances for the year then ended in accordance with accounting principles generally accepted for universities applied on a basis consistent with that of the preceding year.

Erma Morrison, F.C.A.
Auditor General

Victoria, British Columbia
18 June 1982

SIMON FRASER UNIVERSITY
Notes to Financial Statements
March 31, 1982

1. Significant Accounting Policies

These financial statements have been prepared in accordance with accounting principles generally accepted for universities. The significant accounting policies followed by Simon Fraser University include:

(a) Fund Accounting

The University accounts are maintained in compliance with fund accounting procedures in order to recognize restrictions imposed on the use of resources. Under these procedures resources are classified into funds in accordance with objectives authorized by the Board of Governors or otherwise specified. Funds have been combined into the following major groups:

- General purpose operating funds comprise revenues used in the general operations of the University.
- Specific purpose operating funds consist of grants and donations for designated projects and the income earned on endowment funds.
- Endowment funds are received or appropriated with the stipulation the principal will be invested and the related earned income will be expended for specific purposes.
- Capital funds comprise amounts received for the purchase of land, buildings and original equipment, major renovations and alterations, public works projects and additional equipment.

(b) Land, Buildings and Equipment

Construction costs for buildings and other facilities, including original equipment and furniture, major renovation costs, and new equipment funded under the Educational Institution Capital Finance Act are capitalized in the Capital Fund. Replacement equipment and furniture, new equipment not specified above, and minor renovations are expensed as the costs are incurred in the various funds.

- 2 -

- No provision has been made for depreciation of buildings and equipment.

(c) Inventories

Inventories of supplies are stated at cost. Inventories of merchandise held for resale are stated at the lower of cost and net realizable value.

(d) Ancillary Enterprise Operations

Ancillary enterprises provide goods and services to the university community on a fee-for-service basis. They include residences, bookstore and campus food services. Expenses include the operating costs of providing these services and debenture payments of interest and principal on the residences. No administrative overhead has been applied.

(e) Other

- Library books and periodicals are expensed in the year of acquisition.
- Leases of a capital nature are expensed in the Operating Fund as payments are made.
- No accrual for employee vacation pay is provided.

2. Short Term Financing - Capital Fund

The interim financing of capital construction projects is authorized under the provisions of the Educational Institution Capital Finance Act. Bank loans are retired from the proceeds of long term debt issued under the authority of the Act. Accounts and holdbacks payable and commitments under building and other contracts will be financed similarly in the next fiscal year.

Accounts payable and receivable include accrued interest in the amount of \$841,000 (1981 - \$588,000) on short and long term borrowings. The interest will be received from the Capital Financing Authority in the next fiscal year.

- 3 -

3. Long Term Debt

A Canada Mortgage and Housing Corporation

Annual payments consist of interest and sinking fund payments. The payments to the sinking fund are based on the discounted present values required to fund fully the repayment of the debt by respective maturity dates. The sinking fund balance consists of total sinking fund instalments to March 31, 1982 plus interest earned thereon. Sinking fund payments, which are financed by the Province of British Columbia, made during 1981/82 amounted to \$402,000 (1980/81 \$346,000). Earned interest thereon recorded for 1981/82 is \$144,000 (1980/81 \$54,000).

- 4 -

The long term debt includes \$250,000 repayable in U.S. funds. This amount has been recorded as \$292,000 Canadian, which is the amount received. If this amount were based on the U.S. exchange rate prevailing on March 31, 1982, the Canadian equivalent would have been increased by \$15,000.

4. Commitments - Capital Fund

Total commitments under contracts for capital projects amount to \$5,871,000 as at March 31, 1982 (March 31, 1981 \$423,000) of which \$5,280,000 are to be financed under the Educational Institution Capital Finance Act.

5. Academic Pension Plan

The Board of Governors approved amendments to the Academic Pension Plan effective July 1, 1981 which included provision for further contributions to the Formula Retirement Benefit Account to finance the account on a sound actuarial basis. A report from the trustees of the plan indicated an actuarial underfunding of the plan as at January 1, 1980 in the amount of \$1,821,000. An updated actuarial report will be obtained. \$500,000 has been appropriated in the Operating Fund as at March 31, 1982.

6. Restatement of Comparative Figures

Certain 1981 figures in the Operating Funds Balance Sheet have been restated in order to conform with the financial statement presentation adopted in 1982. There was no resultant effect on the fund balances.

AUDITORS' REPORT

The Shareholders,
Surrey Farm Products Investments Ltd.

We have examined the balance sheet of Surrey Farm Products Investments Ltd. as at March 31, 1982 and the statements of income and deficit for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the company as at March 31, 1982 and the results of its operations for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

TRANSPO 86 CORPORATIONNOTES TO THE FINANCIAL STATEMENTSFOR THE YEAR ENDED MARCH 31, 19821. THE CORPORATION

The Transpo 86 Corporation is incorporated as a Crown Corporation of the Province of British Columbia under the Transpo 86 Corporation Act, S.B.C. 1980, which was proclaimed to come into force on February 12, 1981.

The purpose of the Corporation is to plan, organize, hold and administer the "1986 World Exposition on Transportation" in all aspects.

2. SIGNIFICANT ACCOUNTING POLICIES

Furniture and equipment is recorded at cost. Current year acquisitions amount to \$72,900. Depreciation is provided on a straight line basis over the shorter of the estimated useful life of the asset and the remaining period to October 13, 1986, the closing date of the Exposition.

3. CONTRACT PREPAYMENT

This amount represents the balance of a \$200,000 contract payment received from the Province of British Columbia to develop, install and maintain the Provincial exhibit at Energy Expo 82 in Knoxville. Expenditures incurred under this contract are charged against the Contract Prepayment.

4. GRANTS RECEIVED FROM PROVINCE OF BRITISH COLUMBIA

From the date of incorporation to March 31, 1982 grants received from the Province of British Columbia totalled \$2,893,695.

5. PROFESSIONAL AND SPECIAL SERVICES

Expenditures for the year for professional and special services were incurred principally for the following purposes:

Site Development and Architecture	\$411,030
Project Management	228,152
Theme Development and Creative Activity	169,056
Recruitment and Benefits Study	81,419
Other	101,494
Total Professional Services	<u>\$991,151</u>

6. FINANCIAL STATEMENT PRESENTATION

A Statement of Changes in Financial Position has not been included because the relevant information is readily available in the Financial Statements.

Comparative figures for the period from the date of incorporation to March 31, 1981 have not been included because they are not meaningful in relation to the current period.

7. SUBSEQUENT EVENT

The Corporation is negotiating for the acquisition of the CCGS Vancouver from the Government of Canada. If negotiations are successful, the ship will be used to house the administrative offices of the Corporation, in which case the cost of the vessel is not expected to be greater than \$200,000.

UNIVERSITY OF BRITISH COLUMBIA

Province of
British Columbia

Office of the
Auditor General
Province of British Columbia

8 Bastion Square
Victoria
British Columbia
V8V 1X4

AUDITOR'S REPORT

To the Chairman and Members of the Board of Governors of
The University of British Columbia, and

To the Minister of Universities, Science and Communications
Province of British Columbia:

I have examined the balance sheet of The University of British Columbia as at 31 March 1982 and the statements of revenue and expenditure and changes in fund balances, ancillary enterprise operations, appropriated fund balances and net investments in land, buildings and equipment for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances, except as explained in the following paragraph.

As disclosed in note 9 to the financial statements, the University's operating funds accounts receivable include an amount of \$1,270,825 owing from the U.B.C. Health Sciences Centre Hospital Society. I have not been able to obtain confirmation that this amount will be paid to the University.

In my opinion, except for the effect of adjustments, if any, which I might have determined to be necessary had I been able to satisfy myself with respect to the balance of accounts receivable described in the preceding paragraph, these financial statements present fairly the financial position of the University as at 31 March 1982 and the results of its operations and the changes in its fund balances for the year then ended in accordance with accounting principles generally accepted for universities applied, after giving retroactive effect to the change in the method of recording interest on long-term debt as explained in note 2 to the financial statements, on a basis consistent with that of the preceding year.

Erma Morrison, F.C.A.
Auditor General

Victoria, British Columbia

THE UNIVERSITY OF BRITISH COLUMBIA

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

NOTE 1. Significant Accounting Policies

a) General

These financial statements have been prepared in accordance with accounting principles generally accepted for Universities. These practices vary from those applicable to profit-oriented enterprises in respect to the following:

- No accrual for vacation pay is provided for salaried employees.
- No provision is made in the financial statements for depreciation of buildings and equipment.
- Long-term investment income is recorded on a cash basis.
- Library books and periodicals are expensed in the year of acquisition.

b) Fund Accounting

Transactions of the University are accounted for by fund accounting procedures in order to recognize various restrictions imposed on the use of available resources. Under these procedures, revenues and their related expenditures are accounted for in separate funds in accordance with objectives specified by donors, limitations and restrictions imposed by sources outside the University, and determinations made by the Board of Governors. The major fund divisions are described below:

- General Purposes Operating Funds consist of those revenues and expenditures used in the general operations of the University. Revenues include investment income on funds held for specific purposes.
- Specific Purposes Operating Funds consist of those revenues and expenditures used for projects stipulated by the donors and include income earned on Endowment Funds.
- Endowment Funds consist of donations received with the stipulation that the principal be invested and the income earned be expended for designated purposes.
- Student Loan Funds consist of donations received for the purpose of making loans to students.
- Capital Funds consist of gifts and grants received for the purpose of acquiring capital assets, as described in Note 1(d). These funds may also be used for major renovations and alterations and capital project administrative costs.

c) Inventories

Inventories of merchandise held for resale are stated at the lower of cost and net realizable value. Supplies inventories are recorded at cost. Livestock and experimental animals are stated at market value.

The University of British Columbia
Notes to Financial Statements
March 31 1982

Note 1 (continued)

d) Land, Buildings and Equipment

Expenditures for the acquisition of land and buildings or for the initial equipping of buildings are recorded in the statement of revenue and expenditure in the year in which they are incurred and are included as capital assets, at cost, on the balance sheet. When similar assets are donated for use in operations, they are recorded on the balance sheet at cost but are not reflected on the statement of revenue and expenditure. Expenditure for the development and expansion of the University site services is included in land, buildings and equipment if paid out of capital funds and expensed if paid out of operating funds.

e) Ancillary Departments

Ancillary Departments provide goods and services to the university community and are expected to operate on a break-even basis. These departments are assessed most overhead costs associated with their operations including payments of principal and interest on all long-term debt.

f) Investments

Investments are recorded at cost. Gains or losses on sales of investments are recognized in the year of disposal.

g) Related Organizations and Agencies

The financial statements of The University of British Columbia do not include the income or expense of the Health Sciences Centre Hospital (Note 9), Aquatic Centre, Thunderbird Winter Sports Centre, Faculty Club, Graduate Student Centre and Triumf, but original buildings and contents are included in the capital funds balance sheet.

NOTE 2. Change in Accounting Policy

The policy of recording interest on long-term debt was changed during the year from a cash to an accrual basis. Both the current and the prior year's figures have been restated to conform with this change. The result is an increase of \$1,377,007 (1981 - \$1,025,412) in both revenue and expenditure with no effect on the year-end fund balances. The accrued interest on long-term debt at March 31, 1982 of \$3,069,892 (1981 \$1,695,056) is included in the University's capital funds balance sheet.

The University of British Columbia
Notes to Financial Statements
March 31 1982

NOTE 3. Accounts Receivable

Accounts Receivable totalling - operating funds \$13,966,678 (1981 - \$9,047,647) and capital funds \$2,593,374 (1981 - \$1,981,299) include the following:

<u>Operating Funds</u>	1982	1981
Government of Canada	\$2,980,446	\$2,135,571
Province of British Columbia	3,246,875	802,692
Health Sciences Centre Hospital Society (Note 9)	<u>1,270,825</u>	<u>1,450,950</u>
<u>Capital Funds</u>	<u>\$7,498,146</u>	<u>\$4,389,213</u>
Province of British Columbia	<u>\$2,146,679</u>	<u>\$ 933,245</u>

NOTE 4. Inter Fund Transfers

Inter fund transfers comprise unexpended income of \$764,828 earned on endowment capital which is added to the endowed amount.

NOTE 5. Bank Loans and Long-Term Debt

(Exhibit A)	<u>\$93,624,825</u>	<u>\$67,056,196</u>

The University of British Columbia
Notes to Financial Statements
March 31 1982

Note 5 (continued)

Under the authority of the Educational Institution Capital Finance Act, the University has financed certain capital facilities of the University and teaching facilities at associated hospitals with bank demand loans. These loans are being refinanced through debentures issued by the University to the B.C. Educational Institutions Capital Financing Authority. Funds are received from the Province of British Columbia to fully meet the interest and sinking fund payments. The actual payments to the sinking fund, held by the B.C. Educational Institutions Capital Financing Authority are based on the discounted present values required to fully fund the repayment of the debentures by their respective maturity dates. The long-term debt due to the B.C. Educational Institutions Capital Financing Authority includes \$2,000,000 repayable in U.S. Funds. The U.S. exchange rate at March 31 1982 would result in an additional amount of \$125,036 CDN which would have been required to extinguish the debt at that date. This additional amount has not been included in the financial statements.

Investment in Teaching Facilities at Associated Hospitals

As of March 31 1982, \$9,047,354 of the above-noted bank loans and long-term debt were advanced for capital teaching facilities at associated hospitals.

NOTE 6. Provision for Future Expenditures on Ancillary Enterprises

	Balance April 1 1981	Investment Income	Changes in Reserves March 31 1982	Balance March 31 1982

	(Exhibit A)			(Exhibit A)

The University of British Columbia
Notes to Financial Statements
March 31 1982

NOTE 7. The property at Broadway and Cambie, Vancouver was sold during the year and the sale proceeds of \$1,500,000 are included in gifts, grants and bequests, Endowment and Student Loan Funds (Exhibit B). The property has been carried in the Endowment Funds at a nominal value of one dollar since it was donated to the University in 1971.

NOTE 8. Commitments

Commitments under capital contracts at March 31 1982 amounted to \$14,711,408 to be financed from Capital Funds (1981 - \$6,832,393).

NOTE 9. Health Sciences Centre Hospital

On March 31 1982 The University of British Columbia sold certain equipment (Exhibit E) for a nominal value of one dollar to The U.B.C. Health Sciences Centre Hospital Society to permit the Society to continue to operate the Health Sciences Centre Hospital as a going concern. On that date, the fund balance owed by the Society to the University amounted to \$1,270,825 (Note 3). The Society is incorporated under the Society Act of British Columbia.

NOTE 10. Comparative Figures

Certain 1981 figures have been restated in order to conform with financial statement presentation adopted in 1982, with no resultant effect on the fund balances.

AUDITORS' REPORT

The Members
Universities Council

We have examined the statement of financial position of the Universities Council as at March 31st, 1982 and the statement of revenue and expenditure for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Council as at March 31, 1982 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

	=====	=====

UNIVERSITIES COUNCIL
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. ACCOUNTING POLICY

Office furniture and equipment purchases are charged to expenditures when purchased. The cumulative cost of office furniture and equipment charged to expenditures amounts to \$37,368 (1981 \$218).

2. EXCESS OF REVENUE OVER EXPENDITURE

The Universities Council is an agent of the Crown in right of the Province of British Columbia. As such no income taxes are payable on any excess of revenue over expenditure.

3. FUNDS HELD FOR EXTERNAL ORGANIZATIONS AND OTHERS

The Universities Council acts as recipient and disbursing agent of grant funding provided by the Ministry of Universities, Science and Communications for certain external organizations and for designated projects or activities.

4. COMMITMENT

The Universities Council has leased realty at an annual cost of approximately \$54,000 to September 30, 1984.

UNIVERSITY OF VICTORIA

Province of
British Columbia

Office of the
Auditor General
Province of British Columbia

8 Bastion Square
Victoria
British Columbia
V8V 1X4

AUDITOR'S REPORT

To the Chairman and Members of the Board of Governors
of the University of Victoria, and

To the Minister of Universities, Science and
Communications, Province of British Columbia:

I have examined the balance sheet of the University of Victoria as at 31 March 1982 and the statements of revenue and expenditure and changes in fund balances, ancillary enterprise operations, changes in appropriated fund balances and changes in investment in site, buildings and equipment for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the University as at 31 March 1982 and the results of its operations and the changes in its fund balances for the year then ended in accordance with accounting principles generally accepted for universities applied on a basis consistent with that of the preceding year.

Erma Morrison, F.C.A.
Auditor General

Victoria, British Columbia
30 June 1982

UNIVERSITY OF VICTORIA
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. Significant accounting policies:

- (a) These financial statements have been prepared in accordance with accounting principles generally accepted for universities.
 - (b) The University employs fund accounting procedures in order to recognise restrictions imposed on the use of resources. All resources are classified into funds in accordance with objectives specified by the donors and granting agencies or determined by the Board of Governors. The fund classifications are described below:
 - the General Purpose Operating Fund consists of revenues which the Board of Governors administers at its discretion;
 - the Specific Purpose Operating Fund consists of amounts to be used for projects designated by donors and granting agencies, and includes income earned on the Endowment Fund;
 - the Endowment Fund consists of amounts received with the stipulation that the principal be held invested, with only the income earned to be expended;
 - the Student Loan Fund consists of amounts held for the purpose of making loans to students;
 - the Capital Fund consists of amounts received for the purpose of acquiring site, buildings and equipment and for expenditures on major renovations and alterations.
 - (c) Inventories of supplies are recorded at cost. Inventories of merchandise held for re-sale are stated at the lower of cost and net realizable value.
 - (d) Ancillary enterprises comprise operations which are expected to function on a self-supporting basis and are charged with most overhead costs including payments of principal and interest on long-term debt.
 - (e) Acquisitions of site, buildings and equipment are recorded as expenditures from appropriate funds during the period in which they occur. Acquisitions of site, new facilities and their original equipment made from the Capital Fund are also recorded as assets, at cost, on the balance sheet.
 - (f) Because building and equipment acquisitions are recorded as expenditures from funds, no provision is made for depreciation.
 - (g) Certain Capital Fund expenditures are financed under borrowing authority granted by the Province of British Columbia. These authorised capital borrowings are therefore recorded as revenue in the Capital Fund. The borrowings ultimately take the form of long-term debentures issued to the B.C. Educational Institutions Capital Financing Authority - see Note 5(a).
 - (h) No accrual of vacation pay is recorded for salaried employees.
 - (i) Provisions for future major or specific project expenditures are set aside by appropriating a portion of the General Purpose Operating Fund balance or a portion of ancillary enterprises net revenue. When the expenditures are made they are charged against operations, and the appropriations previously set aside are released.
2. Accounts receivable include the following amounts due from the Province of British Columbia:
- | | |
|-----------------|------------------------------|
| Operating Funds | \$126,790 (1981 - \$177,896) |
| Capital Fund | \$968,795 (1981 - \$534,644) |
3. Deferred charges represent the prepayment of long-term equipment rental costs which will be amortized on a straight-line basis over twenty years from the date of installation. The charge to expenditure for the relevant portion of 1981-82 was \$5,314.
4. Bank loans - Capital Fund:
- Demand loans totalling \$950,222 are held from the Bank of Montreal at prime interest rate, under the authority of the Educational Institution Capital Finance Act. These loans will be replaced by long-term borrowings in the form of debentures issued by the University to the B.C. Educational Institutions Capital Financing Authority.

5. Long-term debt - Capital Fund

- (a) Long-term debt authorised under the Educational Institution Capital Financing Act and the Capital Financing Authority and will be used to retire the debt principal at maturity.

(i) Annual interest and sinking fund payments are made from the proceeds of the sale of the Capital Fund to the Province of British Columbia for that purpose.

Note - the principal amount of \$291,946 maturing at December 1, 1986, is repaid by the proceeds in Canadian dollars from borrowings repayable as \$250,000 U.S. The effect of subsequent fluctuations in the exchange rate was that an additional \$15,629 Canadian would have been required to repay the debt as at March 31, 1982.

Principal Amount	Sinking Fund	Net	Annual payments including interest
\$ 291,946	\$ -	\$ 291,946	\$ 70,895

24,806,946	993,345	23,813,601	3,774,812

- (ii) Annual interest and sinking fund payments are made from funds generated by ancillary enterprise operations.

1,790,000	-	1,790,000	313,164
-----------	---	-----------	---------

- (b) Debentures authorised by Orders-in-Council and issued to the Province of British Columbia by a floating charge and mortgage on the student residences and Commons Building and the lands upon which they are situated. Annual payments are made from funds generated by ancillary enterprise operations.

January 1, 2015	5.125%
February 3, 2020	5.875%
January 1, 2030	9.5%

520,371	-	520,371	32,854
1,057,977	-	1,057,977	69,650
2,613,332	-	2,613,332	251,325
4,191,680	-	4,191,680	353,829
\$30,788,626	\$993,345	\$29,795,281	\$4,441,805

6. Inter-fund transfers from the General Purpose Operating Fund to the Capital Fund comprise the following:

- equipment costs for a new building	\$412,529
- recovery of parking capital costs	99,600
	<u>\$472,129</u>

7. Certain 1981 comparative figures on Exhibits A, B and D have been re-arranged to conform with the financial statement presentation adopted in 1982, with no resulting effect on fund balances.

8. These statements do not include endowment funds held by the University of Victoria Foundation, a separately incorporated body.

URBAN TRANSIT AUTHORITY

AUDITORS' REPORT

**THORNE
RIDDELL**

Chartered Accountants

To the Members of the Board of the
Urban Transit Authority of British Columbia

We have examined the balance sheet of the Urban Transit Authority of British Columbia as at March 31, 1982 and the statements of operating division revenue and expenditure, asset division revenue and expenditure and retained earnings, asset division contributed surplus and special purpose fund revenue and expenditure and fund balance for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Urban Transit Authority of British Columbia as at March 31, 1982 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

URBAN TRANSIT AUTHORITY OF BRITISH COLUMBIA

NOTES TO FINANCIAL STATEMENTS

Year Ended March 31, 1982

1. STATUS OF THE AUTHORITY

The Urban Transit Authority of British Columbia was created by the Province of British Columbia on June 29, 1978 under the Urban Transit Authority Act. The majority of the sections of the Act were brought into force by Proclamation on July 20, 1978.

2. ACCOUNTING POLICIES

(a) Operating division

The operating division consists of those assets, liabilities, revenues and expenditures which relate to the provision of transit services and the administrative activities of the Authority, the deficits of which are fully cost-shareable between the participating municipalities and the Province of British Columbia in accordance with the provisions of the Urban Transit Authority Act and the related regulations. The vehicle and property lease fees expensed in the operating division are those charged by the asset division for the lease of assets used in transit operations.

(b) Asset division

The asset division consists of those assets, liabilities, revenues and expenditures which relate to the revenue equipment and other physical assets owned by the Authority and leased to its contract operators for use in the provision of transit services.

(c) Fixed assets

Fixed assets have been recorded as follows:

- (i) Fixed assets transferred from the Province of British Columbia, in fiscal year 1980, at appraised value. This appraisal for revenue vehicles was carried out by General Appraisal of Canada Limited as at June 30, 1979.
- (ii) Revenue vehicles acquired from British Columbia Hydro & Power Authority pursuant to the Metro Transit Operating Company Act at appraised value. This appraisal was carried out by General Appraisal of Canada Limited as at March 1, 1980.
- (iii) Seabuses, the South Shore and North Shore Seabus Terminals, acquired from the Province of British Columbia, at appraised value. The appraisal of the seabuses and the South Shore Seabus Terminal was carried out by General Appraisal of Canada Limited as at July 15, 1980. The appraisal of the North Shore Seabus Terminal land was carried out by General Appraisal of Canada Limited as at April 1, 1981 and of the buildings and improvements as at June 30, 1981.
- (iv) Land, land improvements, buildings and equipment acquired from British Columbia Hydro & Power Authority pursuant to the Metro Transit Operating Company Act, at appraised value. The appraisals were carried out by General Appraisal of Canada limited as at the following dates:

Transit Administration Centre — SW Marine Drive—	June 9, 1980
North Shore Bus Garage — land	— April 1, 1981
North Shore Bus Garage — buildings	
and improvements	— June 30, 1981
Other land	— April 1, 1980
Other buildings and land improvements	— March 1, 1981

All appraisals are fair market value appraisals with the exception of that used for other buildings and improvements which are appraised at depreciated replacement cost.

- (v) Fixed assets transferred from British Columbia Hydro & Power Authority but not yet appraised are recorded at nominal value. It is the intention of the Authority to value these fixed assets at their fair market values based on appraisals to be conducted in the subsequent fiscal year.
- (vi) All costs related to the advanced light rapid transit (ALRT) and commuter rail projects have been capitalized including interest expense as indicated in note 2(d). Interest earned on funds received from the federal and provincial governments has been credited to the ALRT project. No depreciation has been claimed on these projects.
- (vii) All other fixed assets at cost except as noted in note 2(d).

Depreciation is provided on the straight-line basis using the following annual rates:

Office furniture and equipment	10%
Leasehold improvements	20%
Revenue vehicles	
Diesel	5%
Appraised revenue vehicles	Remaining useful life
Vehicles under capital lease	Remaining lease term
Appraised buildings	Remaining useful life
Appraised land improvements	Remaining useful life
Appraised equipment	Remaining useful life

(d) **Capitalization of interest**

The Authority follows the policy of capitalizing interest incurred in connection with capital acquisitions from the date of advance in funds until the assets are placed in service for transit purposes and to the extent such acquisitions are financed from borrowings.

3. FIXED ASSETS

	1982			1981

5. OBLIGATIONS UNDER CAPITAL LEASES

The total obligation under capital leases \$8,759,618 of which \$257,956 is the principal due within one year.

The obligations under capital leases which mature at various dates from 1993 to 1998, represent the total present value of future minimum lease payments discounted at the interest rates implicit in the leases at the commencement of the lease term. These rates range from 7½% to 16%.

Total minimum lease payments for each of the next five years will be approximately \$1,400,000 or a total of \$7,000,000. Of these payments approximately \$5,500,000 will constitute interest.

6. LOAN PAYABLE — PROVINCE OF BRITISH COLUMBIA

The loan payable relates to the advanced light rapid transit project. The terms of repayment of this loan are currently being negotiated.

7. COMMITMENTS

Effective March 31, 1981 the Authority entered into an agreement with Metro Canada Limited for the design and construction of an advanced light rapid transit system for operation in the Greater Vancouver region. Management estimates the total contract price to be approximately \$534,500,000 and that the total price of the project, including design, construction and land acquisition, will be approximately \$718,400,000.

At March 31, 1981 the Authority was committed to purchase 302 revenue vehicles for approximately \$52,000,000 which includes the deposit on revenue vehicles of \$17,873,600 paid prior to March 31, 1982.

8. CONTINGENT LIABILITY

During the year, the Authority received \$60,000,000 from the Government of Canada to be applied to the purchase of vehicles and the prebuild section of the advanced light rapid transit project. The Authority is contingently liable for repayment of some or all of the funds in the event of non-compliance with certain provisions of an agreement dated February 26, 1982.

9. RECLASSIFICATION OF COMPARATIVE FIGURES

Certain of the 1981 comparative figures on the balance sheet have been reclassified to conform with the financial statement presentation adopted for 1982.

10. SPECIAL PURPOSE FUND

On March 31, 1980 the Authority received \$2,050,000 from the Province of British Columbia for the purpose of funding the start-up costs of the Metro Transit Operating Company. This fund is maintained using the cash basis of accounting. The portion of these funds not expended for this purpose is repayable to the Province of British Columbia.

11. TRANSIT OPERATIONS

Revenue from transit operations includes farebox revenue, sale of passes and interest earned on such amounts. For the most part, this revenue is collected by the regional districts or municipalities and reported to the Authority under the provisions of their annual operating agreements.

WORKERS' COMPENSATION BOARD OF BRITISH COLUMBIA

**Province of
British Columbia**

Office of the
Auditor General
Province of British Columbia

8 Bastion Square
Victoria, B.C.
V8W 2T6

AUDITOR'S REPORT

To the Chairman and Members of the
Workers' Compensation Board, and

To the Minister of Labour
Province of British Columbia:

I have examined the balance sheet of the Workers' Compensation Board as at 31 December 1981 and the statements of operations and unfunded liability, changes in accident fund balances, and changes in silicosis fund balances for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at 31 December 1981 and the results of its operations and changes in its fund balances for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes in the methods of accounting for deposit account compensation payments and accrued liabilities, as explained in Note 2 to the financial statements, on a basis consistent with that of the preceding year.

WORKERS' COMPENSATION BOARD

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1981

NOTE 1—Significant Accounting Policies

(a) Fund Accounting

Although the liabilities and reserves of the Board are allocated to the Accident and Silicosis Funds and various sub-divisions thereof, the assets are accounted for on a pool basis with no allocation of individual assets to specific funds.

(b) Revenue and Expense Allocation

Each sub-class is credited with its share of assessment revenue and charged with its share of the following expenses:

- (i) for injuries occurring and Silicosis claims allowed during the year, wage loss compensation and medical aid costs paid, plus the capitalized value of pensions awarded, plus a provision for future wage loss compensation, medical aid and pension awards for workers' claims not finalised at year end;
- (ii) operating expenses paid or incurred during the year;
- (iii) any additional requirements for unfinalled claims reserves and/or pension reserves as determined by the actuary.

The sub-classes are also credited or charged with interest as explained in Note 1(h).

(c) Fixed Assets

Fixed assets are recorded at cost, except for buildings acquired before 1970 which are recorded at appraised value. They are depreciated on a straight-line basis over their estimated useful lives as follows:

Buildings	20 or 40 years
Equipment	4 to 10 years
Furniture	10 years
Vehicles	5 years

Leasehold improvements are amortized over the period of the leases.

(d) Investments

Investments are valued at amortized costs. The straight-line method of amortization is used. Capital losses or gains on the sale of bonds are charged against or taken into revenues in the year of the transaction. Investments are made in accordance with Section 67 of the Workers' Compensation Act.

(e) Unfinalled Claims

Provisions for future claims costs relating to injuries occurring prior to December 31, 1981 for which the final settlement has not been determined are carried to unfinalled claims reserves which are part of the Accident and Silicosis Funds established under Sections 39 (1) (c) and 41 (2) (b) of the Workers' Compensation Act. Wage loss compensation and medical aid paid, and the capitalized value of pensions awarded after the year of injury (or after the year in which the claim is allowed, in the case of Silicosis), are charged to the respective reserves.

(f) Pensions

Capitalized values of pensions awarded are carried to the pension reserves, which are then charged with pensions paid. When a pension is awarded for an injury which occurred in the current year its capitalized value is charged to the appropriate sub-class. In the case of a pension awarded after the year of the injury (or after the year in which the claim is allowed, in the case of Silicosis), the pension is charged to the appropriate unfinalled claims reserve.

(g) Assessment Revenue and Assessments Receivable

As a significant portion of assessment revenue for the year is not received until after year end, the amount shown is an estimate based on statistical data. Adjustments to this estimate are made in the following year.

(h) Interest Revenue

In accordance with section 48 (2) of the Workers' Compensation Act interest is charged or credited to the classes or sub-classes if the classes or sub-classes are in a deficit or surplus position. The deposit accounts are charged or credited on their actual monthly balances. This interest revenue is then allocated to the appropriate reserve.

If interest were not charged or credited the effect would be to increase or decrease the "Additional actuarial requirements" by an equal amount. Accordingly this interest is included in the "Interest credited to Accident and Silicosis Funds" section of Exhibit 2.

(i) Actuarial Liabilities

The actuarial liabilities for unfinalled claims and pensions are calculated by the Board under the direction of the consulting actuary appointed by the Board. The report of the consulting actuary is appended to these financial statements.

NOTE 2—Changes in Accounting Policies

(a) Deposit Accounts

In future years, the Board will be required to make compensation payments on claims relating to the deposit accounts in respect of injuries which occurred before December 31, 1981. These payments were formerly not recognized in the accounts until the year of payment or award.

Under the Board's new accounting policy, the estimated current value of these future payments is recognized in the accounts together with the offsetting receivable from the deposit class employers which will be billed when the payment or award is made. The current value of these payments is \$47,419,000 (1980: \$37,626,000). This amount is included under the Accident Fund "Unfinalled claims" and "Deposit account unfinalled claims receivable" on the Balance Sheet.

The 1980 comparative figures have been restated to conform with the statement presentation for the year ended December 31, 1981. The change has no effect on the "Increase in Unfunded Liability For The Year" reported on the Statement of Operations and Unfunded Liability.

(b) Accrued Liabilities

A number of employee benefits including sick pay, vacation pay, and accrued salaries which were formerly not recognized until they were paid are now recognized as liabilities on the date when they are earned by the Board's employees.

The amount of these accrued liabilities is \$7,601,000 (1980: \$6,456,000). This is included under "Accounts payable and accrued liabilities" on the Balance Sheet. It results in an increase of \$546,000 (1980: \$415,000) in "Assessments receivable" on the Balance Sheet and \$7,055,000 (1980: \$6,041,000) in "Unfunded liability" on the Balance Sheet and on the Statement of Operations and Unfunded Liability. The net effect on current year's results is an increase of \$1,014,000 (1980: \$1,552,000) in the "Increase in Unfunded Liability For The Year" reported on the Statement of Operations and Unfunded Liability. The 1980 comparative figures have been restated to conform with the statement presentation for the year ended December 31, 1981.

NOTE 3—Actuarial Liabilities

Under the provisions of the Workers' Compensation Act, the Board is required to provide capitalized reserves sufficient to meet the payments of compensation occurring in future years in respect of all injuries occurring during the year under the Accident Fund and all claims allowed during the year under the Silicosis Fund. These provisions are included in the unfinalled claims reserves (Note 1 (e)) and the pension reserves (Note 1 (f)).

The actuarial estimates of the required reserves exceed the funded reserves by \$509,756,000.

NOTE 4—Deposit Accounts

Certain employers have been placed by the Board in self-insuring or deposit classes and are required to deposit with the Board a sum of money determined by the Board.

They are billed on a monthly basis for compensation payments and pension awards made on their behalf, together with their proportionate share of administrative costs. The Board recognizes in its accounts both the current value of the future

payments for unfulfilled claims and the amounts relative to these unfulfilled claims to be received in the future from the deposit class employers.

The Board also acts as the agent of the Government of Canada for the payment of compensation to federal employees in British Columbia. Amounts disbursed are recovered from the Government of Canada on a monthly basis.

NOTE 5—Fixed Assets (\$000's)

Fixed assets are comprised of the following items:

	1981			1980	
	Cost or Appraised Value	Depreciation	Accumulated Depreciation	Net Book Value	Net Book Value
Land	1,080	—	—	1,080	1,043
Buildings	19,807	640	2,630	17,177	19,290
Furniture, Equipment and Leasehold Improvements	9,506	932	5,658	3,848	3,255
Construction in Progress	17,306	—	—	17,306	4,425
Totals	47,699	1,572	8,288	39,411	28,013

Buildings acquired before 1970 were appraised at depreciated replacement costs by Universal Appraisal Co. Ltd. on August 31, 1975 with the resultant "Credit arising from revaluation of fixed assets" being carried on the Balance Sheet since that date.

The former clinic building, at 657 West 37th Avenue, Vancouver was sold for \$6,937,000 with a lease back until November 1982 when the Board plans to have completed a new administration building located adjacent to its Clinic in Richmond. The sale resulted in a gain of \$4,734,000 credited to the assessment classes and a partial realization of the 1975 asset revaluation of \$3,195,000 credited to pension reserves. Gain on realization includes the recapture of \$992,000 depreciation charged in prior years.

During the spring of 1981 a new area office building was opened in Terrace. The total cost was \$701,000.

Expenditures on construction in progress at December 31, 1981 totalled \$17,306,000 for the new administration building in Richmond. Also see Note 6 (b).

NOTE 6—Commitments**(a) Leases:**

The Board has the following commitments for annual rentals on leased property:

1982	\$1,131,000
1983	119,000
1984	67,000
1985	17,000
1986	10,000
	<u>\$1,344,000</u>

These amounts include the prepaid leases on 5255 Heather Street and 657 West 37th Avenue which, at December 31, 1981 were prepaid in the amount of \$566,000.

The total rental expense under these leases in 1981 was \$1,140,000 (1980: \$1,009,000).

(b) Construction:

At December 31, 1981 the major construction project underway was the administration centre in Richmond.

Total construction contract, architect fee and consulting fee commitments on the administration centre project were \$28,037,000 at December 31, 1981, of which \$17,306,000 had been expended to that date, leaving a balance of \$10,731,000 committed. This project is scheduled for completion in mid-1982.

NOTE 7—Superannuation Fund

The cost to the Board of matching employees' compulsory contributions to the Workers' Compensation Board Superannuation Fund for 1981 was \$2,235,000 (1980: \$1,886,000). An actuarial valuation of the Fund's liabilities was carried out in 1981 at the request of the Trustees of the Superannuation Fund.

On the assumption that no changes are made in the current level of employee and matching employer contributions and ignoring liabilities and financing for indexed supplemental pensions, the Superannuation Fund's unfunded actuarial liability as at March 31, 1981 was about \$15,712,000. This unfunded actuarial liability is not included in these financial statements.

ACTUARY'S REPORT

The Pension Liabilities for the Accident and Silicosis Funds are for pensions in effect as at December 31, 1981, but excluding pensions arising from injuries to Federal Government workers (Class 19). The present value of increases in pensions effective January 1, 1982 has been included in the Liabilities. The mortality table for disabled pensioners in the Accident fund and the mortality and remarriage table for widows in both the Accident and Silicosis Funds were revised on the basis of recent experience. With these exceptions, the Pension Liabilities have been computed using the same mortality, net interest rate and other assumptions used for the valuation as at December 31, 1980. The net interest rate of 2%% makes implicit provision for the future indexing of pensions on the assumption that interest earnings on Board assets in excess of 2%% will correspond to future increases in the Consumer Price Index.

The Unfinalled Claims Liabilities for the Accident and Silicosis Funds are shown separately for rateable Classes and for deposit Classes (excluding Class 19), and are based on projections of future claims payments and awards using ratios developed from the Board's claims experience, average benefit rates, the net interest rate assumption of 2%% and, where applicable, mortality, remarriage and other assumptions used for computing Pension Liabilities. The methods used in calculating these liabilities were substantially the same as those employed in the previous valuation as at December 31, 1980.

We were assisted in the calculation of the liabilities included in this report by staff members of the Board's Actuarial and Research Department. We have examined the data upon which the calculations were based and found it to be sufficient for our purposes and consistent with the Board's financial statements.

In our opinion, the amounts set out below, which have been determined by the methods and assumptions described above, make reasonable provision for the future liabilities of the Board as at December 31, 1981 subject to the Board levying assessments in future years sufficient to provide for any Consumer Price Index related increases in benefits that are greater than those which can be provided from interest earned on Board assets in excess of the valuation net interest rate of 2½%.

Accident Fund	
Pension Liabilities	\$ 882,304,000
Unfinalled Claims Liabilities	
—Rateable Classes	709,452,000
—Deposit Classes	47,419,000

PUBLIC SERVICE SUPERANNUATION FUND**REPORT OF THE COMPTROLLER GENERAL**

The financial statements of the Public Service Superannuation Fund have been prepared from, and accurately reflect, the financial records of the Government of British Columbia. While no separate opinion has been expressed on these financial statements, the accounts of the Fund have been examined as part of the audit of the accounts of the Government.

D.B. Marson
A/Comptroller General

PUBLIC SERVICE SUPERANNUATION FUND

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

1. CHANGE IN ACCOUNTING METHOD AND PRESENTATION

These financial statements reflect two changes in the method of accounting for investment income -

- i) Interest is accounted for on an accrual basis instead of a cash basis.
- ii) Discounts on purchase of long-term investments are now amortized. Premiums are written off at time of purchase. Formerly discounts were taken to account upon maturity.

If the statements had been prepared on the previous basis income from investments would have amounted to \$121,042,015. Prior year's amortization of discounts, \$4,791,600, has been shown as an adjustment of the account balance at beginning of year. The 1981 comparative figures have not been restated.

The statement of financial position details the assets formerly included under the heading "Deposits in Treasury". The 1981 comparative figures for cash in Treasury, contributions receivable and investments have been reclassified accordingly.

2. ACTUARIAL VALUATION

According to the Pension (Public Service) Act, an actuarial valuation of the assets and liabilities of the Fund is required to be made by an Actuary at least once in each consecutive period of not more than five years. The most recent valuation was carried out as at March 31, 1980.

The valuation indicates an increase in the unfunded liability in respect of basic pension benefits from about \$197,563,000 as of March 31, 1977 to about \$631,172,000 as of March 31, 1980. The 1977 amount of \$197,563,000 would have been stated as \$234,295,000 on the current basis since the actuary has changed his assumptions to include cost-of-living increases in the basic pensions as a result of the legislative changes which occurred in 1980. These increases were not included in the liability in previous valuations.

In the opinion of the Actuary, projected statutory employer contributions are sufficient to amortize fully the above unfunded liability in approximately 30 years from March, 1980, assuming all actuarial assumptions are realised.

3. CASH IN TREASURY AND INVESTMENTS

All contributions to the Fund are deposited in the Provincial Treasury and administered by the Minister of Finance, who has invested available moneys in various short-term and long-term investments. The long-term investments are summarized in Schedule 1. The long-term investments are carried at the lower of cost and par value, with "cost" defined as acquisition costs adjusted as follows:

- (i) Premiums are written off in the year of acquisition.
- (ii) Discounts on single maturity bonds are amortized on a straight line basis over the life of the bonds.
- (iii) Discounts on serial bonds are recognized as income when redemptions occur.

PUBLIC SERVICE SUPERANNUATION FUND

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

3. CASH IN TREASURY AND INVESTMENTS (CONTINUED)

Long-term investments held at the end of the year are as follows:

	1982 \$	1981 \$
Par Value	754,758,413	757,324,471
Book Value	757,220,852	754,501,313
Market Value	542,217,665	580,187,280

The difference between the book value and market value of the investments has not been provided for as at March 31, 1982, since it is generally expected that Fund investments will be held to maturity.

Short-term investments are shown at cost.

4. URBAN PASSENGER TRANSPORTATION EMPLOYEES

As of April 1, 1980, urban transportation services were transferred from British Columbia Hydro and Power Authority to Metro Transit Operating Company.

The pension rights of approximately 3,000 employees, including appropriate pension funds, were transferred from the British Columbia Hydro and Power Authority Pension Fund to the Public Service Superannuation Fund. Accounts receivable include an amount of \$24,398,268, representing the book value of the fund assets subsequently transferred in accordance with the agreement between the British Columbia Hydro and Power Authority and the Superannuation Commissioner approved by Order-in-Council No. 650 dated April 1, 1982.

5. INFLATION ADJUSTMENT ACCOUNT

The Inflation Adjustment Account was created in 1980 to finance the payment of cost of living supplementary allowances. These allowances are adjusted each January 1st and are related to the annual increase in the Consumer Price Index as at each previous September 30th, but may be limited by the availability of funds in the Inflation Adjustment Account to provide the capitalized value of the increases. The Inflation Adjustment Account includes contributions by employees and employers each at the rate of 1.25% of salary, the interest income therefrom and the interest income on funds attributed to the payment of pensions in excess of the rate assumed by the actuary, less refunds to former contributors. During 1981 excess interest earnings of \$18,239,860 were transferred from the Basic Account to the Inflation Adjustment Account. Effective January 1, 1982, supplementary allowances at the rate of 12.535% of the basic life time portion of pensions in payment were granted. The capitalized value of these increases was \$44,543,629, which amount was transferred from the Inflation Adjustment Account to the Basic Account. In this connection, the comparative figures for 1980 for the Basic Account have been reduced and for the Inflation Adjustment Account increased by an amount of \$9,119,930 to reflect the transfer of excess interest earnings in the period October 1, 1980 to March 31, 1981.

6. ADDITIONAL INFORMATION

These financial statements show only the position of the Fund as at March 31, 1982 and the changes in Fund balance for the year then ended and do not purport to show the adequacy of the Fund to meet the obligations of the superannuation plan.

MEMBERS OF THE LEGISLATIVE ASSEMBLY SUPERANNUATION ACCOUNT

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

1. CHANGE IN ACCOUNTING METHOD AND PRESENTATION

These financial statements reflect two changes in the method of accounting for investment income -

- 1) Interest is accounted for on an accrual basis instead of a cash basis.
- 2) Discounts on purchase of long-term investments are now amortized. Formerly discounts were taken to income upon maturity. Premiums are written off in the year of acquisition.

If the statements had been prepared on the previous basis income from investments would have amounted to \$328,257. Prior years' amortization of discounts, \$6,242, has been shown as an adjustment of the account balance at beginning of year. The 1981 comparative figures have not been restated.

The statement of financial position details the assets formerly included under the heading "Deposits in Treasury". The 1981 comparative figures for cash in Treasury and investments have been reclassified accordingly.

2. ACTUARIAL VALUATION

No actuarial valuation of the Account is required by the Legislative Assembly Allowances and Pension Act and no such valuation has been performed to date. At the time an allowance is granted, the Province of British Columbia contributes the deficiency between the accumulated employee and employer basic contributions and the present value of the allowance. The present value of the allowance is transferred to the Public Service Superannuation Fund and monthly allowance payments are made therefrom.

3. CASH IN TREASURY AND INVESTMENTS

All contributions to the Account are deposited in the Provincial Treasury and administered by the Minister of Finance, who has invested available monies in the various securities listed in Schedule 1. These investments are carried at the lower of cost and par value, with "cost" defined as acquisition costs adjusted as follows:

- (i) Premiums are written off in the year of acquisition.
- (ii) Discounts on single maturity bonds are amortized on a straight line basis over the term of the bonds.

Long-term investments held at the end of the year were as follows:

	1982 \$	1981 \$
Par Value	1,106,000	1,106,000
Book Value	1,099,563	1,189,089
Market Value	646,327	774,452

MEMBERS OF THE LEGISLATIVE ASSEMBLY SUPERANNUATION ACCOUNT

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

The difference between the book value and market value of the investments has not been provided for as at March 31, 1982, since it is generally expected that Fund investments will be held to maturity.

During the year all available monies were invested in short-term investments.

4. COST OF LIVING SUPPLEMENTARY ALLOWANCES

Former Members who are in receipt of an allowance are receiving supplementary allowance payments based on the consumer price index as provided in the Pension (Public Service) Act. These cost of living supplements are calculated annually each January 1. They are payable to the extent that monies equal to the capitalized value are available in the Inflation Adjustment Account established for the purpose under the Pension (Public Service) Act. Contributions at the rate of 1.25% of indemnity, allowances and ministerial salary have been allocated for this purpose. The transfer of contributions during the period October 1, 1980 to September 30, 1981, with interest, in connection with the increase granted January 1, 1982, is reflected in these statements.

5. ADDITIONAL INFORMATION

These financial statements show only the position of the Account as at March 31, 1982 and the changes in Account balance for the year then ended and do not purport to show the adequacy of the Account to meet the obligations of the pension plan.

AUDITOR'S REPORT

To the Commissioner of Municipal Superannuation, and

To the Provincial Secretary and Minister of Government
Services, Province of British Columbia:

I have examined the statement of financial position of the Municipal Superannuation Fund as at 31 December 1981 and the statement of changes in fund balance for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Fund as at 31 December 1981 and the changes in its fund balance for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

MUNICIPAL SUPERANNUATION FUND

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981

1. ACTUARIAL VALUATION

According to the Pension (Municipal) Act, an actuarial valuation of the assets and liabilities of the Fund is required to be made by an Actuary from time to time at intervals of not more than five years. The most recent valuation was carried out as at December 31, 1979. In his report on this actuarial valuation the Actuary stated that the statutory basis of contributions, including the 1980 amendments, would be sufficient to fully finance benefits for all new entrants to the plan and to hold the actuarial liability constant as a percentage of future payroll. On this basis, he advised that the unfunded liability would be \$407,272,000 for basic pension benefits.

2. INVESTMENTS

Long-term investments include bonds issued or guaranteed by Canada or a Province. They are carried at the lower of cost and par value, with "cost" defined as acquisition costs adjusted as follows:

- (i) Premiums are written off in the year of acquisition.
- (ii) Discounts on single maturity bonds are amortized over the term of the bonds.
- (iii) Discounts on serial bonds are recognized as income when redemptions occur.

Long-term investments held at the end of the year are as follows:

	1981 \$	1980 \$
Book Value	856,550,168	857,284,849
Par Value	861,496,453	862,439,503
Market Value	549,281,605	643,952,440

The difference between the book value and market value of the investments has not been provided for as at December 31, 1981, since it is generally expected that Fund investments will be held to maturity. However, during the year, certain investments were disposed of in order to improve the yield to the Fund, resulting in book losses aggregating \$571,326. It is anticipated that future increased interest earnings from reinvestment will more than offset these losses.

Short-term investments are carried at cost.

MUNICIPAL SUPERANNUATION FUND

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981

3. INFLATION ADJUSTMENT ACCOUNT

The Inflation Adjustment Account was created in 1980 to finance the payment of cost of living supplementary allowances. These allowances are adjusted each January 1st and are related to the annual increase in the Consumer Price Index as at each previous September 30th, but may be limited by the availability of funds in the Inflation Adjustment Account to provide the capitalized value of the increases. The Inflation Adjustment Account includes contributions by employees and employers each at the rate of 1% of salary, the interest income therefrom and the interest income on funds attributed to the payment of pensions in excess of the rate assumed by the actuary, less refunds to former contributors. During 1981 excess interest earnings of \$17,873,762 were transferred from the Basic Account to the Inflation Adjustment Account. Effective January 1, 1982, supplementary allowances at the rate of 12.535% of the basic life time portion of pensions in payment were granted. The capitalized value of these increases was \$32,720,856, which amount was transferred from the Inflation Adjustment Account to the Basic Account. In this connection, the comparative figures for 1980 for the Basic Account have been reduced and for the Inflation Adjustment Account increased by an amount of \$4,468,441 to reflect the transfer of excess interest earnings in the period October 1 to December 31, 1980.

4. PRIOR PERIOD ADJUSTMENTS

The 1980 comparative amounts for the Basic Account were reduced and for the Retirement Annuity Account were increased by \$4,097,663 to reflect the allocation of interest earnings for 1980 to the Retirement Annuity Account.

5. ADDITIONAL INFORMATION

These financial statements show only the position of the Fund as at December 31, 1981 and the changes in Fund balance for the year then ended and do not purport to show the adequacy of the Fund to meet the obligations of the pension plan.

TEACHERS' PENSIONS FUND
NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981

1. ACTUARIAL VALUATION

According to the Pension (Teachers) Act, an actuarial valuation of the assets and liabilities of the Fund is required to be made by an Actuary from time to time at intervals of not more than five years. The most recent valuation was carried out as at December 31, 1980. The actuary advised that the unfunded liability would be \$1,019,270,000 for basic pension benefits (this includes the capitalized value of pension indexing costs granted up to and including January 1, 1981 which were not previously included in the valuations). This represents an increase of \$471,670,000 since December 31, 1977. The actuary stated that the plan "funded ratio" had decreased, but explained that this was due mainly to the inclusion of indexing costs for the first time and a change in the method of valuing assets. The actuary also stated that he did not see the increase in the unfunded liability as a threat to the continued payment of pensions to current and prospective pensioners nor to the financial health of the pension fund.

2. INVESTMENTS

Investments include bonds issued or guaranteed by Canada or a Province and a mortgage of approximately \$1,800,000 insured by Canada Mortgage and Housing Corporation. Investments are carried at the lower of cost and par value, with "cost" defined as acquisition costs adjusted as follows:

- (i) Premiums are written off in the year of acquisition.
- (ii) Discounts on single maturity bonds are amortized over the term of the bonds.
- (iii) Discounts on serial bonds are recognized as income when redemptions occur.

Long-term investments held at the end of the year are as follows:

	1981 \$	1980 \$
Book Value	623,249,622	624,658,049
Par Value	629,008,547	630,397,833
Market Value	394,094,119	465,050,537

The difference between the book value and market value of the investments has not been provided for as at December 31, 1981, since it is generally expected that Fund investments will be held to maturity. However, during the year, certain investments were disposed of in order to improve the yield to the Fund, resulting in book losses aggregating \$416,250. It is anticipated that future increased interest earnings from reinvestment will more than offset these losses.

Short-term investments are carried at cost.

TEACHERS' PENSIONS FUND

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981

3. INFLATION ADJUSTMENT ACCOUNT

The Inflation Adjustment Account was created in 1980 to finance the payment of cost of living supplementary allowances. These allowances are adjusted each January 1st and are related to the annual increase in the Consumer Price Index as at each previous September 30th, but may be limited by the availability of funds in the Inflation Adjustment Account to provide the capitalized value of the increases. The Inflation Adjustment Account includes contributions by employees and employers each at the rate of 1% of salary, the interest income therefrom and the interest income on funds attributed to the payment of pensions in excess of the rate assumed by the actuary, less refunds to former contributors. During 1981 excess interest earnings of \$19,483,523 were transferred from the Basic Account to the Inflation Adjustment Account. Effective January 1, 1982, supplementary allowances at the rate of 12.535% of the basic life time portion of pensions in payment were granted. The capitalized value of these increases was \$34,172,916, which amount was transferred from the Inflation Adjustment Account to the Basic Account. In this connection, the comparative figures for 1980 for the Basic Account have been reduced and for the Inflation Adjustment Account increased by an amount of \$4,870,881 to reflect the transfer of excess interest earnings in the period October 1 to December 31, 1980.

4. ADDITIONAL INFORMATION

These financial statements show only the position of the Fund as at December 31, 1981 and the changes in Fund balance for the year then ended and do not purport to show the adequacy of the Fund to meet the obligations of the pension plan.

AUDITOR'S REPORT

To the Superannuation Commissioner, and

To the Provincial Secretary and Minister of Government Services
Province of British Columbia:

I have examined the statement of financial position of the College Pension Fund as at 31 August 1981 and the statement of changes in fund balance for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

I have relied upon information furnished by the Fund's Consulting Actuary as to the accuracy of note 1 to the financial statements.

In my opinion, these financial statements present fairly the financial position of the Fund as at 31 August 1981 and the changes in its fund balance for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

COLLEGE PENSION FUND
NOTES TO FINANCIAL STATEMENTS
AUGUST 31, 1981

1. ACTUARIAL VALUATION

According to the Pension (College) Act, an actuarial valuation of the assets and liabilities of the Fund is required to be made by an Actuary upon request by the Superannuation Commissioner. The first valuation of the Fund was carried out as at August 31, 1976. The valuation indicated that the unfunded liability of the Plan was \$12,290,000 as at that date. The Actuary recommended that the statutory contribution rates under the Plan be increased to ensure stable contribution rates in the future. Statutory amendment reflecting his recommendations as described in Note 3 was passed by the Legislature.

A valuation as at August 31, 1981 is presently in preparation.

2. INVESTMENTS

Investments include bonds issued or guaranteed by Canada or a Province. Investments are carried at the lower of cost and par value, with "cost" defined as acquisition costs adjusted as follows:

- (i) Premiums are written off in the year of acquisition.
- (ii) Discounts on single maturity bonds are amortized over the term of the bonds.
- (iii) Discounts on serial bonds are recognized as income when redemptions occur.

Long-term investments held at the end of the year are as follows:

	1981 \$	1980 \$
Book Value	37,782,363	37,758,477
Par Value	38,199,000	38,199,000
Market Value	22,388,883	30,047,577

The difference between the book value and the market value of the investments is not considered to be a permanent reduction of the Fund balance available for payment of pension benefits and therefore has not been provided for as at August 31, 1981, since it is generally expected that Fund investments will be held to maturity.

During the year, the Investment Committee decided that available funds should be invested in short-term securities. This represents a departure from the previous policy of holding short-term investments only until suitable long-term investments could be purchased. The short-term investments (\$17,600,671 - 1981, \$3,654,648 - 1980) have therefore been segregated from cash and classified as investments.

3. LEGISLATIVE CHANGES

An amendment to the Pension (College) Act was passed at the 1980 session of the Legislature. The significant provisions, effective October 1, 1980, are -

- 1) An increase of 1.0% of salary in employee and employer contributions, which is allocated to the Inflation Adjustment Account.

COLLEGE PENSION FUND
NOTES TO FINANCIAL STATEMENTS
AUGUST 31, 1981

- 2) Annual, rather than quarterly, cost of living supplementary allowances, payable to the extent that moneys equal to the capitalized value are available in the Inflation Adjustment Account.

4. ADDITIONAL INFORMATION

The Fund balance is divided into an Inflation Adjustment Account to which employee and employer contributions each at the rate of 1% of salary are credited and a Basic Account to which all other contributions are credited. The Fund balance for 1980 has been restated accordingly.

These financial statements show only the position of the Fund as at August 31, 1981 and the changes in Fund balance for the year then ended and do not purport to show the adequacy of the Fund to meet the obligations of the pension plan.

BRITISH COLUMBIA RAILWAY COMPANY PENSION FUND

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981

1. ACTUARIAL VALUATION

An actuarial valuation of the assets and liabilities of the Fund is required to be made by an Actuary every three years. A valuation was carried out as at December 31, 1981. The valuation disclosed that the Fund had unfunded liabilities of \$8,557,000 (\$6,756,000-1978 valuation).

The Actuary recommended and the British Columbia Railway Company is making payments to amortize the unfunded liabilities over a period of 21 years commencing January 1, 1982 of \$972,000 per annum (\$568,000 over 24 years from January 1, 1979). Accordingly, current employer contributions have been set at 8.7% of salary effective January 1, 1982.

2. INVESTMENTS

Long-term investments include bonds issued or guaranteed by Canada or a Province. Long-term investments are carried at the lower of cost and par value, with "cost" defined as acquisition costs adjusted as follows:

- (i) Discounts on single maturity bonds are amortized over the term of the bonds.
- (ii) Discounts on serial bonds are recognized as income when redemptions occur.
- (iii) Premiums on purchases and gains and losses on sales are included in income from investments in the year of purchase or sale of the investment.

Long-term investments held at the end of the year are as follows:

	1981	1980
	<u>\$</u>	<u>\$</u>
Book Value	42,224,197	42,664,120
Par Value	42,804,000	43,107,700
Market Value	28,182,970	32,841,668

The difference between the book value and market value of the investments is not considered to be a permanent reduction of the Fund balance available for payment of pension benefits and therefore has not been provided for, since it is generally expected that Fund investments will be held to maturity. However, during the year certain investments were disposed of in order to improve the yield to the Fund, resulting in book losses aggregating \$430,167. It is anticipated that future increased interest earnings from reinvestment will more than offset these losses.

During 1980, the Investment Committee decided that available funds should be invested in short-term securities. This represents a departure from the previous policy of holding short-term investments only until suitable long-term investments could be purchased. The short-term investments (\$20,348,077 - 1981, \$8,866,267 - 1980) have therefore been segregated from cash and classified as investments. Short-term investments are carried at cost of acquisition.

3. ADDITIONAL INFORMATION

These statements show only the financial position of the Fund as at December 31, 1981 and the changes in the Fund balance for the year then ended and do not purport to show the adequacy of the Fund to meet the obligations of the pension plan.

AUDITORS' REPORT

Superannuation Commissioner,
Province of British Columbia:

We have examined the balance sheet of the British Columbia Hydro and Power Authority Pension Plan as at December 31, 1981 and the statement of changes in fund balance for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances. The Minister of Finance of the Province of British Columbia has confirmed to us that the securities representing the Fund's investments were held for safekeeping by him as at December 31, 1981.

In our opinion, these financial statements present fairly the financial position of the Plan as at December 31, 1981 and the changes in fund balance for the year then ended in accordance with the provisions of the Plan and generally accepted accounting principles applied on a basis consistent with that of the preceding year.

FUND BALANCE AT END OF YEAR	<u>\$ 314,265,949</u>	<u>\$ 258,771,429</u>

BRITISH COLUMBIA HYDRO AND POWER AUTHORITY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

AS AT DECEMBER 31, 1981

1. FINANCIAL STATEMENTS

The financial statements show only the position of the Plan as at December 31, 1981 and the changes in the Fund balance for the year then ended and do not purport to show the adequacy of the Fund to meet the obligations of the Plan.

2. COST OF LIVING SUPPLEMENTS

Effective January 1, 1981, a new formula for indexing pensions was instituted whereby indexing payments to pensioners are to be funded by specific compulsory employer and employee contributions and a certain portion of interest earned in excess of actuarial expectations. Indexed supplement contributions by employee and employer were each increased effective January 1, 1981, from 0.5% to 1.6% of plan earnings. Supplements are to be added annually at each January 1, commencing January 1, 1982. Each supplement will continue to be related to the consumer price index increase but it may be limited by the amount of funds available each year for the purpose. As at January 1, 1982 funds were available to provide an increase of 11.82%.

Concurrently, B.C. Hydro assumed responsibility for the liabilities resulting from the old indexing formula, which amounted to approximately \$15,500,000. This amount is being funded by a payment of \$4,700,000 in March 1982 and annual payments of \$1,200,000 thereafter until 1997. B.C. Hydro also made an additional contribution for the difference between indexed contributions from October 1, 1980 to December 31, 1980 at 1.6% of plan earnings and actual contributions at 0.5% of plan earnings.

3. ACTUARIAL VALUATION

An actuarial report prepared as of December 31, 1979 indicated an evaluated accrued deficit in the principal plan as of that date of approximately \$41,000,000. After giving effect to the assumption by B.C. Hydro of the responsibility for the liabilities resulting from the old indexing formula and to payments made by B.C. Hydro to fund the deficit and to the transfer of pension rights and related pension fund assets to the Public Service Superannuation Fund of those employees of B.C. Hydro who had been associated with the urban transit operations, it is estimated that there has been no substantial change in the accrued deficit through March 31, 1982. The deficit arose principally as a result of plan improvements introduced over the years, including minimum pension benefit provisions and the indexing payments to existing pensioners referred to above. It is being funded, principally, by payments of \$3,061,000 per annum until 1999 and \$1,200,000 per annum until 1997.

BRITISH COLUMBIA HYDRO AND POWER AUTHORITY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

AS AT DECEMBER 31, 1981

4. INVESTMENTS

	<u>1981</u>	<u>1980</u>
At cost, after amortization of discounts	\$232,879,556	\$228,227,679
Par value	\$234,879,000	\$230,140,700
Market value	\$152,544,490	\$174,206,342
Excess of cost over market value	\$80,335,066	\$ 54,021,337

The market value of the Plan's investments at December 31, 1981 is \$80,335,066 less than amortized cost. As there is no permanent impairment in the value of the investments, and the intention is to hold the investments until maturity when they will be redeemed at par, these investments have not been written down to recognize the difference between the investments' carrying value and market value.

5. SEPARATION OF PASSENGER TRANSPORTATION EMPLOYEES

Urban passenger transportation services were transferred from British Columbia Hydro and Power Authority to Metro Transit Operating Company as of April 1, 1980. A total of approximately 3,000 employees were transferred to the Metro Transit Operating Company at various dates from April 1980 to June 1981. Previously, interurban passenger transportation services were transferred to Pacific Coach Lines Limited involving approximately 240 employees.

The Lieutenant Governor in Council has issued regulations whereby the pension rights, including appropriate pension funds, are to be transferred from the fund to the Public Service Superannuation Fund. The amount of the pension funds to be transferred as at December 31, 1981 is approximately \$24,400,000 with interest to be accrued until the actual transfer date. Assets of approximately \$2,400,000 are still to be transferred in respect of the Pacific Coach Lines Limited employees.

6. COMPARATIVE AMOUNTS

1980 figures have been reclassified to conform with the presentation used for 1981.

AUDITOR'S REPORT

To the Directors, British Columbia Hydro and Power
Authority, and

To the Provincial Secretary and Minister of Government
Services, Province of British Columbia:

I have examined the statement of financial position of the British Columbia Power Commission Superannuation Fund as at 31 December 1981 and the statement of changes in fund balance for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Fund as at 31 December 1981 and the changes in its fund balance for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

A handwritten signature in cursive script, reading "Erma Morrison".

Erma Morrison, F.C.A.
Auditor General

BRITISH COLUMBIA POWER COMMISSION SUPERANNUATION FUND

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981

1. ACTUARIAL VALUATION

According to the regulations applicable to the Fund, an actuarial valuation of the sufficiency of the Special Reserve Account of the Fund is to be made by an Actuary every three years. The most recent valuation was carried out as at December 31, 1978. According to this valuation the Special Reserve Account had an actuarial surplus of about \$130,000 and the Contributory Pensions Account had an actuarial deficiency of \$110,118, which was funded in 1979 by transfer of \$110,118 plus interest from the Undistributed Interest Account. No actuarial valuation of the assets and liabilities of the Fund is required as basic pension benefits are provided on a money purchase basis. An actuarial valuation as at December 31, 1981 is presently being prepared.

2. INVESTMENTS

Long-term investments include bonds issued or guaranteed by Canada or a Province. Long-term investments are carried at the lower of cost and par value, with "cost" defined as acquisition costs adjusted as follows:

- (i) Discounts on single maturity bonds are amortized over the term of the bonds.
- (ii) Discounts on serial bonds are recognized as income when redemptions occur.
- (iii) Premiums on purchases and gains and losses on sales are included in income from investments in the year of purchase or sale of the investment.

Long-term investments held at the end of the year are as follows:

	1981	1980
	<u>\$</u>	<u>\$</u>
Book Value	22,422,163	22,523,367
Par Value	22,643,600	22,770,050
Market Value	13,292,453	15,496,990

The difference between the book value and market value of the investments is not considered to be a permanent reduction of the Fund balance available for payment of pension benefits and therefore has not been provided for, since it is generally expected that Fund investments will be held to maturity.

Short-term investments are carried at cost of acquisition.

3. PRESENT VALUE OF PENSIONS IN FORCE

The present value of the 347 (313-1980) pensions in force as of December 31, 1981 is \$9,248,674 (\$8,300,973-1980). This amount has been calculated on a basis consistent with that of previous years, and now includes the present value of supplementary allowances, which are charged to Undistributed Interest Account.

4. ADDITIONAL INFORMATION

These statements show only the financial position of the Fund as at December 31, 1981 and the changes in Fund balance for the year then ended and do not purport to show the adequacy of the Fund to meet the obligations of the superannuation plan.

AUDITOR'S REPORT

To the Directors, Workers' Compensation Board, and

To the Provincial Secretary and Minister of Government Services
Province of British Columbia:

I have examined the statement of financial position of the Workers' Compensation Board Superannuation Fund as at 31 March 1982 and the statement of changes in fund balance for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Fund as at 31 March 1982 and the changes in its fund balance for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the method of amortizing discounts on bonds as explained in note 2 to the financial statements, on a basis consistent with that of the preceding year.

WORKERS' COMPENSATION BOARD SUPERANNUATION FUND

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

1. ACTUARIAL VALUATION

There was no requirement in the Regulations of the Fund in force prior to September 16, 1982 with respect to having an actuarial valuation performed. However, an actuarial valuation was carried out as at March 31, 1981. The valuation indicated an unfunded liability of approximately \$36,348,000. This represents an increase of \$31,871,000 since the March 31, 1977 valuation. Contributing to this increase were a change in the method of accruing for future pension benefits by use of the "unit credit method" instead of the "entry age normal cost method" formerly used (\$18,000,000) and provision for cost of living supplemental allowances (\$7,000,000).

Significant improvements in the funding of the Plan, as described in Note 4, were approved by Order-in-Council #1808 dated September 16, 1982. The revised consolidated plan regulation also provides for an actuarial valuation of the assets and liabilities of the Fund to be made by an actuary from time to time at intervals of not more than three years.

2. INVESTMENTS

Investments include bonds issued or guaranteed by Canada or a Province and issued by municipal authorities and term deposits in a credit union. Investments are carried at the lower of cost and par value with "cost" defined as acquisition cost adjusted as follows:

- 1) Premiums are written off in the year of acquisition.
- 2) Discounts on bonds are amortized over the term of the bonds.

The amortization of discounts reflects a change from previous years when discounts were not amortized. The effect of the change is to increase income from investments by \$127,498 for 1982 and by \$107,161 for 1981. Long-term investments and the special reserve account have been increased \$881,473 and \$753,975 for 1982 and 1981 respectively. The financial statements for 1981 have been restated accordingly.

Long-term investments held at the end of the year are as follows -

	1982 \$	1981 \$
Book Value	32,269,986	28,485,458
Par Value	33,936,200	29,802,200
Market Value	24,281,181	22,049,866

The difference between the book value and market value of the investments has not been provided for as at March 31, 1982, since it is generally expected that Fund investments will be held to maturity.

The short-term investments (\$2,200,000 - 1982, \$400,000 - 1981) have been segregated from cash and classified as investments.

WORKERS' COMPENSATION BOARD SUPERANNUATION FUND

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

3. COST OF LIVING SUPPLEMENTARY ALLOWANCES

Payment of supplementary allowances, adjusted quarterly in relation to the cost of living index, commenced July 1, 1975. Financing of supplements by additional employee and employer contributions, each at the rate of 1/2% of salary, commenced June 1, 1976. There was provision for a similar increase when the net accumulated payments again exceed 1% of the average annual total of contributory salaries. Provisions for payment and financing of supplementary allowances have been changed significantly, as described in Note 4.

4. SUBSEQUENT EVENT

A revised consolidated plan regulation was approved by Order-in-Council #1808 dated September 16, 1982. The significant provisions, which are intended to improve the funding of the basic pension benefits and the supplementary allowances, provide for -

- 1) An increase of 2% of salary in contributions by the employer.
- 2) Annual, rather than quarterly, cost-of-living supplementary allowances, payable to the extent that monies equal to the capitalized value are available in the Inflation Account created for the purpose.
- 3) Allocation of employee and employer contributions each amounting to 1% of salary to the Inflation Adjustment Account.

5. ADDITIONAL INFORMATION

These financial statements show only the position of the Fund as at March 31, 1982 and the changes in Fund balance for the year then ended and do not purport to show the adequacy of the Fund to meet the obligations of the superannuation plan.

55-65.	60-65.	All ages.	55-65.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the work.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete them.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress to ensure that the objectives are being met.

5. The final step is to evaluate the results of the project. This involves assessing the effectiveness of the plan and identifying any areas for improvement or further action.
